Sharing
LIGHT AND HOPE
For People With Or At Risk For Diabetes

Control your diabetes. *For Life.*

OUR MISSION...OUR VISION... OUR GOALS...

MISSION:

Through a network of public and private partners, the Kentucky Diabetes Network, Inc. (KDN) strives to improve the treatment and outcomes for Kentuckians with diabetes, to promote early diagnosis, and ultimately to prevent the onset of diabetes.

VISION:

The Kentucky Diabetes Network is the collaborative driving force behind the prevention, control, and eradication of diabetes in Kentucky.

GOALS:

- To increase public awareness of the seriousness of diabetes, its risk factors, and potential strategies for preventing diabetes and its complications.
- To improve understanding about diabetes and its control and to promote better self-management behaviors among people with diabetes.
- To improve health care providers' understanding of diabetes and its control and to promote an integrated approach to care.
- To promote health care policies and activities that improve the quality of and access to diabetes care.

Passion...Advocacy...Action...to Conquer Diabetes In Kentucky!

EXAMPLE OF ACTIVITIES...

- Kentucky Diabetes Awareness Rally at the State Capitol
- Diabetes Exposition and Education Forum
- Statewide Diabetes Awareness Campaign
- Statewide Diabetes Professional Education Initiatives
- Diabetes Information/Education Material Development & Distribution
- Diabetes Educational Activities with Local, State, and National Policy Makers
- Diabetes Risk Reduction/Preventive Education for High Risk Populations
- Ongoing Efforts to Improve Cultural Competency
