2015 KENTUCKY ANNUAL PSYCHIATRIC RESIDENTIAL TREATMENT FACILITY REPORT

INTRODUCTION

Thank you for your interest in the **2015 Kentucky Annual Psychiatric Residential Treatment Facility Report**. This report covers the utilization and services activities of licensed Kentucky Psychiatric Residential Treatment Facilities (PRTF) for the calendar year, January 1, through December 31, 2015.

The source of data for the report is the Kentucky Health Survey Registry, administered by the Office of Health Policy in the Cabinet for Health and Family Services. Health facilities within the state submit their data through an internet based survey program. This report contains only data related to Level I PRTF Beds. Level II data will be added in the future as those beds are implemented.

A Level I is a community-based, and home-like facility with a maximum of nine beds. That provides inpatient psychiatric residential treatment to resident's age six to twenty-one years of age who have an emotional disability or severe emotional disability, as defined in KRS 200.503, with an age range of no greater than five years at the time of admission in a living unit.

A Level II is a home-like facility that provides twenty-four hour inpatient psychiatric residential treatment and habitation to persons who:

1. Are ages four to twenty-one years, with an age range of no greater than five years at the time of admission to the facility,
2. Have a severe emotional disability as defined by KRS 200.503 in addition to severe and persistent aggressive behaviors, intellectual disability, sexually acting out behaviors, or developmental disability; and
3. Do not meet the medical necessity criteria for an acute care hospital or a psychiatric hospital and whose treatment needs cannot be met in an ambulatory care setting, Level I psychiatric residential treatment facility, or other less restrictive environment.

There were 22 facilities that reported PRTF utilization in 8 counties for the 2015 calendar year. Those facilities have a combined 207 licensed beds and all of them were in operation. That is a decrease from 225 beds in 2014. The statewide occupancy percent for those beds was 87 percent, an increase from 81 percent in 2014. There were 766 admissions and over 66,000 inpatient days. Inpatient days only slightly decreased from 2014 to 2015. The statewide average length of stay (ALOS) was 88 days, a decrease from 2014, where the ALOS was 92 days.

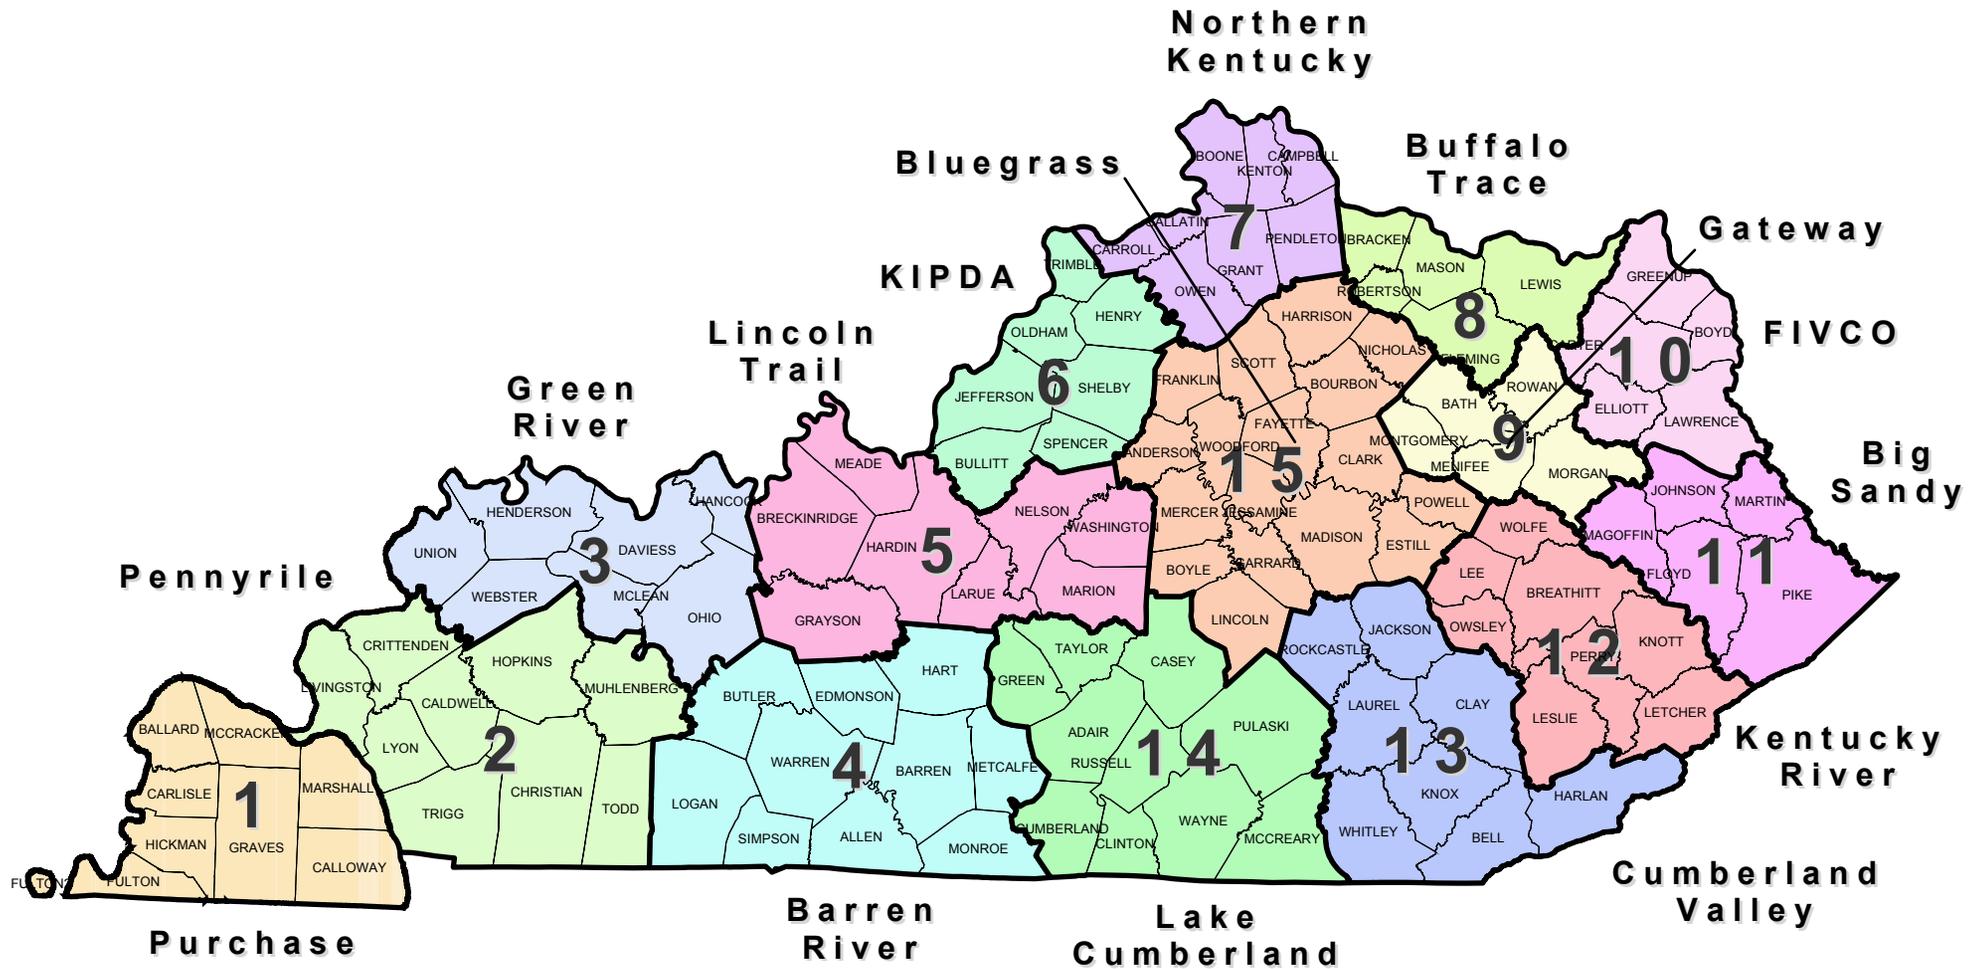

The Office of Health Policy produces a number of utilization and services reports. These include the Annual Hospital Utilization and Services Report, Long-Term Care Report; Home Health Services Report; Private Duty Nursing Report; Hospice Report; The Kentucky Magnetic Resonance Imaging Services Report (MRI); Megavoltage Radiation Services Report; Positron Emission Tomography (PET) Report; Ambulatory Surgical Services Report. These reports can be downloaded from the following web site: <http://chfs.ky.gov/ohp/dhppd/dataresgal.htm>. Hard copies of the report can be obtained by contacting the Office of Health Policy by mail, email, phone, or fax.

Questions or comments regarding the data contained in this report should be directed to Beth Tutt Morris at (502) 564-9592, EXT: 3156, or email: BethA.Morris@ky.gov.

This report becomes the most recent official data on psychiatric residential treatment facility utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a \$20 check made payable to the Kentucky State Treasurer to:
