# 2015 KENTUCKY AMBULATORY SURGICAL SERVICES REPORT

## INTRODUCTION

The Office of Health Policy of the Cabinet for Health and Family Services is pleased to announce the release of the *2015 Kentucky Ambulatory Surgical Services Report*.

This report covers the period from January 1, 2015 to December 31, 2015, for all agencies in accordance with licensing and regulation reporting requirements. The data is submitted by the ambulatory services centers and hospitals throughout the state of Kentucky. These facilities include both freestanding and hospital based ambulatory surgical services.

The data is presented by Area Development Districts (ADD), and a map of the districts is included within the report. There are two main sections in this report and each contains two tables.

Section I of the report covers data regarding ambulatory operating rooms (OR). These are rooms that meet the criteria for a standard sterile operating room. This section contains usage of non-exclusive operating rooms and exclusive use ambulatory operating rooms. A non-exclusive operating room is an OR that is used for inpatients and outpatient surgeries. An exclusive ambulatory operating rooms is an OR that is only used for outpatient surgeries. Section I contains two tables:

- **Capacity Data** - shows the number of ambulatory operating rooms, cystology rooms and non-exclusive operating rooms. This section also contains a look at pain management.
- **Facility Utilization Data** – includes data submitted on the number of surgeries performed in each specialized area.

Section II of the report covers data regarding ambulatory procedure rooms. These rooms do not meet the standards of a sterile OR. A procedure room is a designated room for performing surgical procedures that do not require a sterile environment such as endoscopy and sutures. Section II also contains data for designated endoscopic suites. These are rooms in a facility that are set up to be used for endoscopic type procedures only. Section two also contains a table for Capacity Data and a table for Facility Utilization Data.

The numbers reported for pain management and endoscopic surgeries may reflect a significant difference than in previous survey years. The reporting requirements for ambulatory surgical services were strongly enforced for 2008 - 2015. The survey instructions clearly state that only the ambulatory surgeries performed in an ambulatory operating room (OR) may be reported in Section I. Those performed in a procedure room must only be included in Section II. An audit of previous years reporting show that some facilities have been reporting procedure room data for pain management and endoscopies in the ambulatory OR data. Certificate of Need decisions regarding ambulatory surgical services are based on OR data only. The Office of Health Policy recognizes that there is a trend among health care facilities to perform more of these procedures in a procedure room or suite rather than an ambulatory OR. The office is collecting procedure room data for informational purposes only at this time.

For any questions or comments regarding the data contained in this report, please contact Beth Tutt Morris at (502) 564-9592 ext.3156 or e-mail [BethA.Morris@ky.gov](mailto:BethA.Morris@ky.gov).

The Office of Health Policy produces a number of utilization and services reports. In addition to the Ambulatory Surgical Services Report, the following reports are available: Long-Term Care Report; Home Health Services Report; Hospice Report; Kentucky Magnetic Resonance Imaging (MRI) Services Report; Megavoltage Services Report; Positron Emission Tomography (PET) Report; Private Duty Nursing Report; Annual Hospital Utilization and Services Report; Psychiatric Residential Treatment Facility. These reports can be downloaded from the following web site: <http://chfs.ky.gov/ohp/dhppd/dataresgal.htm>. Hard copies of the report can be obtained by contacting the Office of Health Policy by mail, email, phone, or fax. This report becomes the most recent official data on Ambulatory Service Center (ASC) services utilization published by the Cabinet for Health and Family Services.

Jackson Purchase Medical Center	We do not have any Procedure Rooms.
Knox County Hospital	Cortisone Injections for pain relief of muscles, joints, tendons and bursa.
Lake Cumberland Surgery Center	All other procedures include Yag Lasers.
Livingston Hosp And Healthcare Svcs	We no longer have a room exclusive for procedures only. Both rooms are used for surgery procedures now.
Louisville Endoscopy Center	We have continued to see a trend of patients receiving multiple services per visit when insurance permits. This has a direct correlation with the number of patients served.
