

The Premature Infant and Early Intervention Services Workshop for Providers

March 15, 2007

Morehead State University
West Liberty Campus
155 University Drive
West Liberty, Kentucky

Presented by:

University of Kentucky
Division of Neonatology
NICU Graduate Clinic

Commonwealth of Kentucky
Department of Public Health
Cabinet for Health and Family Services

Overview

This workshop is designed to meet the educational needs of caregivers in early intervention services regarding the special needs of the premature infant.

Objectives

1. Recognize the common complications for the premature infant during their stay in the neonatal intensive care unit and how these complications may impact subsequent development.
2. Be familiar with the common issues confronting the premature infant following their discharge from the neonatal intensive care unit and how these issues may affect development.
3. Understand the unique evaluation and treatment issues related to the developmental difficulties of the premature infant, including gross motor skills, fine motor skills and speech/language issues.
