2:30pm to 3:30pm  Chapter 6: Prospective Payment System and RUG IV
3:30pm to 4:00pm  Questions and Answers
Course Overview:

The purpose of this training is to present a comprehensive overview of the Resident Assessment Instrument (RAI) and related topics. The training will provide nursing home staff with updates made to the Long Term Care RAI User’s Manual, Version 3.0. This training opportunity will result in increased awareness by providers of how to accurately complete resident assessments. Accurate resident assessments provide more accurate care which results in an improved quality of life for residents.

Training Objectives:

- The learner will be able to describe the basic MDS 3.0 assessment completion requirements.

- The learner will be able to identify the Care Area Assessment (CAA) items and determine level of seriousness of the potential problem.

- The learner will be able to compose a care plan including the minimum documentation requirements.

- The learner will be able to correctly process and submit a corrected assessment.

- The learner will be able to describe in general the RUG-IV classification process.

- The learner will be able to describe the components of an interview.
Kentucky Office of Inspector General And Myers and Stauffer LC
Present
Minimum Data Set 3.0 Coding and Interpretation Training

August 7 and 8, 2012

Speaker BIO’s:

Patrice Padula RN, BA, RAC-CT, C-NE
Nurse Consultant/Manager

CERTIFICATION
Registered Nurse
Resident Assessment Coordinator – Certified, RAC-CT
Certified Nurse Executive – C-NE

RELEVANT EXPERIENCE
1995 to Present — Myers and Stauffer LC

Patrice Padula is a nurse consultant and manager with Myers and Stauffer LC. In that capacity she manages state case mix review projects in three states and consults in several other states. Ms Padula has developed case mix review programs from the ground up and further assisted in the development and design of an electronic review system (ERS) currently being used in the field for on-site reviews. She has developed state specific Supportive Documentation Guidelines, developed training material and provided training on the RUG-III and RUG IV case mix systems as well as coding instructions for the MDS 3.0.

Her responsibilities also include: performing on-site facility reviews; monitoring day-to-day case mix review activities; interpret and analysis MDS data and RUG-III and RUG IV trends. Ms. Padula has assisted in a clinical acuity audit program, designed and developed data collection tools, participated in multiple states, national and international projects, works closely with government personnel and assists with clinical help desk calls. She participated in the development and testing of the time weighted methodology as part of Kentucky’s transition from a Medicaid point in time reimbursement system to a time weighted reimbursement system.

Ms. Padula was involved in the development of a crosswalk of RUG-III items from the MDS 2.0 to the MDS 3.0 and assisted in the updating of various MDS review programs and protocols. Ms. Padula has more than 38 years of experience in the nursing field.
Sue Salyer, RN, BSN, RAC-CT
Case Mix RN Reviewer

CERTIFICATION
Registered Nurse
Resident Assessment Coordinator – Certified, RAC-CT

RELEVANT EXPERIENCE
2005 to Present – Myers and Stauffer LC

Ms. Salyer, a nurse consultant with Myers and Stauffer, has more than 33 years experience in the nursing field. Her work experience with Myers and Stauffer includes reviewing and auditing medical records for Medicaid case mix review programs and has previously audited acute care medical records. Ms. Salyer has performed medical information research, review and analysis.

Ms. Salyer also trains and monitors the case mix RN reviewer in the field. She works independently utilizing a laptop process for the medical record review. Ms. Salyer provides education to the facility at each case mix review.
Cynthia D. Smith RN, BA, RAC-CT, C-NE
Case Mix Nurse Consultant

CERTIFICATION
Registered Nurse
Resident Assessment Coordinator – Certified, RAC-CT
Certified Nurse Executive – C-NE

RELEVANT EXPERIENCE
2003 to Present — Myers and Stauffer LC

Cynthia Smith is a nurse consultant with Myers and Stauffer LC. In that capacity she currently assists with updating Supportive Documentation Guidelines, develops training material, and regularly provides training on the RUG-III case mix system. She serves as Project Leader for the Medicaid case mix reviews in two states. Her responsibilities are: performing on-site facility reviews including follow up reviews and provider education on the Supportive Documentation Guidelines; monitoring day-to-day case mix review activities; assisting in the development of responses to requests for informal reconsideration of review results, providing training to RN reviewer staff, responding to clinical help desk calls and preparation of annual review statistical reports. She also serves as co-manager of a clinical acuity audit program, including development of responses to Interrogatory and documentation requests for the appeal process.

Ms. Smith has served as co-project manager for a nursing facility MDS Validation Program and co-project manager for a Long Term Care Population Assessments Program. She participated in the development and testing of the time weighted methodology as part of Kentucky’s transition from a Medicaid point in time reimbursement system to a time weighted reimbursement system.

Ms. Smith has more than 28 years of experience in the nursing field, including 20 years of MDS experience.

Nancy Spiller, RN
Nurse Consultant Inspector (NCI) - OASIS-C and MDS Coordinator, Office of Inspector General (OIG), Division of Health Care

Nancy Spiller, is the OASIS and MDS Coordinator with the Commonwealth of Kentucky’s Inspector General’s office. Nancy has been with the Inspector General’s office in the Cabinet for Health and Family Services for eight years. She has served as an NCI surveying long-term care facilities for eight years.
