April 27, 2009

To: ABI & ABI Long Term Care Waiver Case Management (17) Provider Letter A-21

Re: **Map 95 Billing Process**

Dear Kentucky Medicaid Provider:

This letter is to notify you of a change to the MAP 95 billing process. Effective May 1, 2009, you will be able to electronically bill for the following ABI and ABI Long Term Care billing codes:

ABI Waiver

E1399 – Specialized Medical Equipment
S5165 – Environmental Modifications

ABI Long Term Care Waiver

E1399 – Specialized Medical Equipment
T2029 – Environmental Modifications

Medicaid Management Information System (MMIS) changes were implemented April 1, 2009, to accommodate this new process.

You will continue to send all information for each request to the ABI Branch. The ABI Branch will approve, deny or request additional information. The ABI Branch will enter this approval information directly into the EDS system and generate the prior authorization letter. You will then electronically bill your claim just as you would any other service. It is no longer necessary to submit paper claims for these billing codes and it will not be necessary to send any additional information to EDS.

Should you have any questions or concerns, please contact Leslie H. Hoffmann at (502) 564–7450 ext 2128.

Sincerely,

Elizabeth A. Johnson
Commissioner
