

# The Kentucky Laboratory Sentinel

April 2006

## May Sentinel Exercise

We will be sending out the exercise the second week of May. You will receive a swab to work up in your laboratory and then you will need to send it to the KY Public Health Lab as if it were a potential infectious substance. Follow your protocols in your lab for specimen workup.

We are arranging a videoconference for the first part of June to discuss the exercise

## Health Alert Network

Please access your account.

If you need help contact  
[tim.cooper@ky.gov](mailto:tim.cooper@ky.gov)

An alert will be coming shortly so all partners will be able to see the KY HAN in action.

## CAP

Thank you to all labs that participated in the Laboratory Preparedness Survey in February. I have received results and will be compiling them.

Comments please email
