

CABINET FOR HEALTH AND FAMILY SERVICES FATALITY/NEAR FATALITY REPORTING TABLE

JUNE 2017

In accordance with the requirements of Section 106(b)(2)(B)(x), the state child welfare agency is required to publically disclose details related to fatalities or near fatalities caused by abuse or neglect.*

In September 2012, the Children's Bureau (CB) issued revised policy establishing minimum requirements for disclosure regarding child fatalities and near fatalities that are a result of child abuse or neglect. (See Child Welfare Policy Manual Section 2.1A.4

http://www.acf.hhs.gov/cwpm/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=68)

States are now required to provide the following minimum information:

- The cause and circumstances regarding the child fatality or near fatality
- The age and gender of the child
- Information describing any previous reports of child abuse or neglect that are pertinent to the abuse or neglect that led to the child fatality or near fatality
- Information describing any previous investigations pertinent to the abuse or neglect that led to the child fatality or near fatality
- The results of any such investigations
- The services provided by the State and actions of the State on behalf of the child that are pertinent to the child abuse or neglect that led to the child fatality or near fatality

States are not required to identify the children, family, or household member associated with the fatality or near fatality.

This table is submitted annually with the APSR and posted on the Division of Protection and Permanency public web page (<http://chfs.ky.gov/dcbs/dpp/childandfamilyservicesplanning.htm>). The cases are reported on the State Fiscal Year (SFY) as they are resolved. Cases from the previous fiscal years that were not finalized at the time of submission in are added to subsequent year's tables and are noted with an asterisk (). Cases received after the child has died are coded as "F XX-XX". Cases that are received as a near fatality are coded as "NF XX-XX)

Number	Report Date(s)	Type of allegation(s)	Investigative Outcome(s)	Case Disposition(s)	Services Provided
<p>NF 01-16 A 4-year-old African American male presented to the ER with a broken jaw, subdural hematoma, swelling to the right side of his head, swelling and bruising to his left eye, multiple contusions and lacerations in different stages of healing, and a skull fracture. The child's paternal grandfather and step grandmother inflicted these injuries.</p>	07-04-2015	Physical Abuse	Substantiated Death/Near Death	Case Opened Currently Active Ongoing Case	Foster Care, then Relative Placement Individual Therapy
