What is Kentucky IPOP?

Kentucky Inpatient Outpatient Data Collection System (KY IPOP) is an online system that securely allows for the submission, collection, and editing of all inpatient and outpatient case level data from facilities, as required by statute and administrative regulation, to the Commonwealth of Kentucky.

The Kentucky IPOP data collection system is to include all outpatient visits to Kentucky hospitals and related facilities. Outpatient is defined as any patient visit that is not considered inpatient. Patient accounts that should be included are outpatient surgery, observation care, emergency department, mammography (screening and diagnostic), CT scan, MRI, PET, radiation therapy, and cardiac catheterization (diagnostic and therapeutic) and any other procedure codes as specified in the regulation.

Kentucky IPOP data collection system will begin collecting 2010 third calendar quarter (having a discharge date greater than or equal to July 1, 2010) for all required outpatient cases. Use this manual to guide you through the IPOP system.

The most critical component for utilizing information is the data from which the information is derived. The integrity and usefulness of the KHA Kentucky IPOP information are based on the accurate and complete reporting of the data from each individual facility.

State Mandates and Data Uses

This manual was developed according to mandated data reporting requirements set forth in the following statutes and regulations:

- KRS 216.2920-2929 which authorizes the Kentucky Cabinet for Health and Family Services to collect and analyze health care data contained on claims documents.
 - Data reporting requirements have been approved by the Cabinet, and are published as Administrative Regulation 900 KAR 7:030.
 - Data is used to develop the Cabinet's mandated legislative reports and public information focusing on the cost, quality, and outcomes of health services provided in the Commonwealth.
 - Used to support different health related programs:
 - Office of Health Policy's work on health care Policy
 - Quality and outcomes reporting to the legislature
 - Department of Public Health
 - Data reporting regulations can be obtained at www.lrc.state.ky.us/KAR/title900htm.

KENTUCKY IPOP Data Coordinator Guidelines

Each data coordinator will be responsible for submitting, correcting, and monitoring their facility's data for inclusion in the KENTUCKY IPOP database as outlined in this manual. The Data Coordinator should review the Kentucky IPOP Manual, and address any questions with KHA staff at HELP LINE or Website Address prior to any data submission.

- Each facility will designate a primary and secondary (backup) Data Coordinator.
- Inform Kentucky Hospital Association of personnel changes.
- Discuss your data reporting needs with the appropriate staff members at your facility, to ensure that the various departments within your organization understand their part in the process.
- A facility that utilizes a vendor for claims processing may request a username and password for the vendor.

Data Submission Highlights

Facilities submit data directly to Kentucky Hospital Association using KENTUCKY IPOP, in one of the file layouts specified in this manual.

- Quarterly deadlines will be established for the submission of data.
- Facilities will be notified of the data submission deadlines in advance, and will also receive submission deadline reminders via email.
- The method of data submission is via KENTUCKY IPOP secure internet EFT. You must have access to the internet to send files via EFT.
- Each data batch file submitted may contain records for multiple weeks or months within a specific quarter year. Error correction does not require resubmission of the record.
- Corrections are made through our secure website though a real-time edit process. If the batch contains significant numbers of records with errors, the data coordinator may choose to delete the batch, correct the submission issue and resubmit the batch. Batches that have specific problems may be rejected by the system.

Examples:

- If the batch layout format has significant structural failure, the entire batch will be rejected.
 - If the patient control number or facility number is missing from the record, the entire batch will be rejected.
 - For flat file submissions, if the page number is missing, the batch will be rejected.
 - If the DNR field = P1 for over 50% of the records in the batch, the batch will be rejected.
 - For 837 file submissions, the hierarchy HL segments must have a unique ID and the HL segments must properly link.
 - If the batch contains 80% of duplicate patient control numbers the batch will be rejected.
 - The batch will reject if it contains more than 3% of records with Race of 'R9'.
 - The batch will reject if it contains more than 1% of records with Payer Code '00000'.
-
- No paper administrative data submission will be accepted.

Mandatory Data Submissions (Types of data required to be submitted)

All outpatient visits to ambulatory facilities are required to be submitted to IPOP, which is collecting mandated Outpatient Observation Care (OC), Emergency Department (ED), Outpatient Surgical (OS), Mammography (MM), and Other Outpatient Procedure (OP data. It is unlikely that Ambulatory Facilities (AF) will have reportable OC or ED services. Most AF cases will fall in the OS, MM, or OP categories. Specific revenue codes and CPT® / HCPCS codes are used to determine whether or not the case should be submitted. In order to be HIPAA compliant, ambulatory facilities must have signed business associate agreement to submit the mandated Outpatient ED & OC. If you are not sure if your facility has a business associate agreement with KHA for this purpose, please contact the help line.

- **Observation Care** data will be determined based the following CPT® Codes:

Procedure Codes	99234, 99235, 99236 & 99217-99220 99224 – 99226 G0378-G0379
-----------------	---

- **Emergency Department** data will be determined according to CPT® Codes:

Procedure Codes	99281 – 99288 G0380 – G0394
-----------------	--------------------------------

- **Outpatient Surgical, Mammography and Other Outpatient Procedure** data are to be reported according to Medicare definition, as those procedure that include incision, excision, amputation, introduction, repair, destruction, endoscopy, suture, manipulation, or imaging. This definition is consistent with the Uniform Hospital Discharge Data Set (UHDDS).
 - IPOP includes a specific range of CPT® / HCPCS procedure codes that are accepted for inclusion in our database. A patient record must contain one of the following procedure codes to qualify for inclusion in our outpatient data base.
 - Patient Accounts that should be included are:
 - Outpatient Surgery
 - Observation Care
 - Emergency Department
 - Mammography (Screening and Diagnostic)
 - CT Scan
 - MRI
 - PET
 - Radiation Therapy
 - Cardiac Catheterization (Diagnostic and Therapeutic)
 - All other procedure codes as specified in the regulation
 - All codes will be evaluated on an annual basis for possible new procedures reflection changes in CMS coding requirements and new technology

Data Submission Timetable

Hospitals and related ambulatory facilities are required to submit data to the Cabinet through Kentucky IPOP on a quarterly basis, at a minimum. Facilities may submit cases more frequently and KHA encourages a more frequent submission schedule.

Calendar quarters are:

January 1 through March 31
April 1 through June 30
July 1 through September 30
October 1 through December 31

- Initial submissions of Case Counts and Case Data are due no later than 45 days after the quarter close date. If the 45th day falls on a weekend or a holiday, the submission will be due on the next working day.
- Final submission for Case Counts and Case Data are due 75 days from the quarter close date. If the 75th day falls on a weekend or a holiday, the submission will be due on the next working day.

Through the above schedule, facilities are provided thirty (30) days in which to submit corrections. Submitting on a more-frequent schedule will allow facilities more lead time to identify and correct errors. A date-specific schedule will be available on the KY IPOP website.

Late Load Policy

KHA will charge \$500 per provider for each calendar quarter of data to be late loaded after a given quarter is closed (e.g. the fee to submit both inpatient and outpatient data for the same quarter would be \$1,000). The \$500 fee is in effect for late loaded data for any time period (e.g. one month of data) within a closed quarter.

Data is considered a "late load" after KHA has "closed" a calendar quarter and stopped accepting data for that given quarter.

To be considered "clean" – all data must pass each KENTUCKY IPOP edit and audit prior to loading into the KENTUCKY IPOP finished databases.

Late load data will be loaded into the KENTUCKY IPOP databases at one time each month. Late loaded data that is received by the 15th of a given month will become available for access on KENTUCKY IPOP on the last business day of that same month.

The following page contains the necessary form and instructions for submitting a late load request. The actual form is available at the KY IPOP website.

Case Count Submission

Your facility must report the actual number of both inpatient discharges and outpatient cases for each quarter. Please see the Discharge Case Count Online Entry section of this manual for step-by-step instructions on this process.

- Initial submissions of Case Counts and Case Data are due no later than 45 days after the quarter close date. If the 45th day falls on a weekend or a holiday, the submission will be due on the next working day.
- Final submission for Case Counts and Case Data are due 75 days from the quarter close date. If the 75th day falls on a weekend or a holiday, the submission will be due on the next working day.

Case counts may not be changed after the close of the quarter unless approved by the Office of Health Policy. Requests for changes in case counts (without late load submission) may be made by e-mail to the KY IPOP administrator.

Outpatient Counting Method

Data Coordinators must provide five separate monthly actual discharge counts for outpatient services. Each patient case is counted ONLY ONCE.

- Count 1 – includes all outpatient surgical cases, including Emerging Technology, regardless of whether they include ED, OC, Mammo, or OP services. OS takes primary precedence for count bucket.
- Count 2 – includes all NON-SURGICAL Outpatient Observation Care (OC) records, regardless of whether they include ED, MM, or OP services.
- Count 3 – includes all NON-SURGICAL Outpatient Emergency Dept. (ED) records, regardless of whether they include MM or OP services.
- Count 4 – includes cases that are Mammograms only or Mammograms plus Other Outpatient Procedures (OP)
- Count 5 – includes cases that contain only Other Procedures (OP)

Each time an account is created that is counted as 1 case no matter how many visits the patient is seen for. If the account is created then discharged and the patient returns and a new account are created that would be counted as 2 cases. If the patient was admitted as an inpatient as a result of an outpatient service, the patient is considered an inpatient admission.

Facility Verification Information

Each quarter, facilities will be asked to verify key information before the edited data can be final-submitted. The following information will be present on a verification screen:

- Data Collection ID (21xxxxxx or KASxxx)
- Facility Name
- Facility License Number
- Facility NPI (primary facility ID used in the data submission)
- Facility Mailing Address
- City, State ZIP Code
- Administrator (CEO) Name
- Administrator (CEO) Telephone Number
- Administrator (CEO) Fax

- Primary Data Coordinator Name
- Primary Data Coordinator Telephone Number
- Primary Data Coordinator Fax
- Primary Data Coordinator E-mail
- Secondary Data Coordinator Name
- Secondary Data Coordinator Telephone Number
- Secondary Data Coordinator Fax
- Secondary Data Coordinator E-mail

The facility is required to verify these elements and submit any changes to KHA. The verification screen will have a link to submit corrections.

A form for initial submission of the information is available at the KY IPOP website and is shown on the next page.

Appendix A - Zoned Decimal Representation

Flat file layouts use a zoned decimal in charge fields. This method of programming allows the use of the same amount of space for a positive or negative number. The table below illustrates the characters used in the last space in the field to designate a specific number as either a positive or a negative for the field:

Zoned Decimal Character	Numeric Value
A	1
B	2
C	3
D	4
E	5
F	6
G	7
H	8
I	9
{	0
J	-1
K	-2
L	-3
M	-4
N	-5
O	-6
P	-7
Q	-8
R	-9
}	-0

One of these characters would appear as the last digit of the charge field. Zoned decimals last digit indicates both the digit and the sign.

Record Edits

Each record submitted is screened for proper format and content. Details on the edits and cross edits performed are included so you may tailor your own system to perform these edits prior to submission, thereby reducing the number of records rejected. In certain cases, an entire batch can be rejected. The following pages contain a detail list of record edits.

Field Name	KY Edit #	Validation Intent/Logic	Message to End-User
ADAT	4200	Admission Date is after current date. Mark ADAT invalid if occurs after current date.	Admission Date cannot occur after current date.
ADAT	5010	Admission Date must be equal to Birth Date when Principal Diagnosis is V30-V37 with a fourth digit of "0". Mark ADAT invalid if Newborn has Admission Date prior to Date of Birth.	Admission Date must be equal to Birth Date when Principal Diagnosis is V30-V37 with a fifth digit of "0".
ADAT	5020	Admission Date and Date of Birth do not coincide with DXP. Mark ADAT to match Iowa's edit.	Admission Date can be no more than two days after Birth Date when Principal Diagnosis is V30-V37 with a fifth digit of "1".
ADAT	5050	Admission Date cannot occur before Discharge Date. Mark ADAT invalid if DDAT is before ADAT.	Discharge Date cannot occur before Admission Date.
ADMH	2130	Admission Hour is not valid. Mark ADMH invalid if populated with anything; needs to be an hour of the day (e.g. 01, 02, 03.....23).	Admit hour must be two-digit hour of the day (00 to 23).
ADMS	1060	Source of Admission NULL. Mark ADMS invalid if NULL.	Source of Admission is a required field.
ADMS	3050	Source of Admission not valid. Mark ADMS invalid if does not match lookup table.	Source of Admission does not correspond to accepted values.

Frequently Asked Questions (FAQs)

Batch Submission / Deletion Questions

1. What would cause my batch file to not process successfully?

There are 5 criterions needed for a batch to be processed:

- More than half of the records in the batch have Patient Control Numbers that have already been submitted (duplicates)
- Page Numbers missing – this is specific to the flat file submissions
- Less than 2500 characters – this is specific to the flat file submissions
- Missing Facility ID number
- More than half of the records have a DNR order

2. How do I know when the file has been processed?

During the uploading of a file you will briefly see an image that indicates the file is uploading. When the file upload is complete you will be redirected to the Batch Review page. The file that you have just uploaded will not reflect in the Batch Review screen until it has been processed.

When the file has been processed you will received an e-mail message advising whether the batch was successful or invalid. If the batch is successful the message will include the total number of records, total valid records and the total invalid records along with the batch number assigned to your file.

3. How long do I have to wait to submit after I mark a batch to be deleted?

Batches can be resubmitted immediately.

Editing Questions

4. How do I correct invalid records?

Return to the Batch Review screen to view the invalid records. Select View to see the Batch Detail. Click the “All Errors” window to see a listing of the types of errors that are present in the invalid records. Select the type of errors you want to correct. Select Edit next to the record line detail. The field(s) that contain errors are highlighted in yellow and have a diamond shaped icon next to the field. Highlight the field to be corrected and type in the correction and click “Update” or hit enter. If the record is correct the next invalid record will appear. Continue the process until all invalid records are moved to the valid file.

5. How are diagnoses / procedure/ revenue lines /codes deleted?

Click the red “X” next to the diagnosis/procedure/revenue line that you want to delete. Answer yes to the question “Are you sure you want to delete this line?” The entire line will be removed.

6. How do I correct POA edits?

POA edits have multiple reasons:

- Edit 3072 – POA code not valid. The POA indicator needs to match those codes as described in manual
- Edit 3074 – POA code on inpatient records only. Outpatient records do not require a POA code.
- Edit 3076 – POA is required for this inpatient diagnosis. All diagnoses on inpatient claims except those on the exempt list must have a valid POA.

7. How do I correct the error “Invalid physician ID number does not correspond to acceptable values?”

E-mail to KHA the invalid NPI number with the full name of the physician including middle initial and the credential (i.e. MD, DO, PA, etc.). KHA will add the information to the file and return an e-mail message to you stating the NPI has been added to the file.

Verification Process Questions

8. How do I notify KHA when the data submission is complete for the Quarter?

When you have submitted all the records for the quarter and all the edits are cleared click on the Ready to Verify Quarter button on the Batch Review screen. 14 Verification reports are automatically e-mailed to the Primary and General contacts. Review the reports for accuracy and completeness. Once you are sure the reports are correct, click on the Mark Complete button on the Batch Review Screen. This means that you attest to the data for that quarter.

9. What if I disagree with the information on the Verification Reports?

Contact KHA with your concern as soon as possible. There is a two-week period allowed to verify the quarterly information. If, during that time, you discover a problem we will fix the data prior to starting production for our output. Depending on the issue identified we will work with hospitals to ensure data accuracy and completeness. It may be that some data concerns will be noted in a README file that is sent to end users. Data discrepancies discovered after production steps have been completed and end users have access will be addressed on an individual basis for corrective action which may or may not result in a charge to the facility to fix inaccuracies.

Technical / IT Questions

10. Can I submit my inpatient data separately from my outpatient data?

As the file format is the same for both inpatient and outpatient data there is no need to submit separate files. However, the system will allow for separate inpatient and outpatient files to be submitted. Please note however, that once you mark the quarter complete which indicates you will not be submitting any more data for that quarter you will be unable to submit another batch for that quarter without contacting KHA for assistance.

11. Does this Web submission process ensure that my data is secure?

Security Application includes:

- i. User authentication is employed to verify the identity of users and determine access rights.
- ii. 128 Bit SSL certificate is present on the web server to encrypt communication with users.
