## 2005 Kentucky Annual Long-Term Care Report

### INTRODUCTION

The Office of Health Policy of the Division of Health Policy Development announces the release of the 2005 Kentucky Annual Long-Term Care Report. This branch is responsible for the utilization data collection and reporting required by 902 KAR 20:008 (rev. 2-16-01) and in support of the State Health Plan 902 KAR 17:041.

This report covers the period from January 1, 2005 to December 31, 2005. The files received from the Office of Inspector General (OIG), Division of Licensure and Regulation contained 410 Long Term Care Facilities. Correspondence or surveys were received from all licensed facilities. The number of facilities has decreased from 414 Long Term Care Facilities in 2004. There have been many facility changes of ownership, as well as facility name changes.

The number of Nursing Facility (NF) beds increased from 26,441 in 2004 to 26,622 in 2005. The 181 NF bed increase was due to conversion of other bed types to NF beds.

For the first time since this survey and report has been published, Licensure and Regulations report there are no licensed Skilled Nursing Facilities (SNF) in Kentucky, although there are skilled beds in certain facilities.

The 2005 overall occupancy rate for NF beds is 89.67%, an increase of 0.32% from the 2004 report. The 2004 NF occupancy rate was 89.35%. This rise in the occupancy rate halted the downward trend in occupancy rate that began in 1995 and trended downward through 2004, with the exception of 1999. The highest occupancy rate was 95.00% for the survey year 1995 and the lowest is the 2004 reporting year. The total net change from 1995 to 2005 was -5.33% for NF beds. Most probably, the rise in occupancy rate was partially due to the conversion of other licensure type beds to NF status.

The ending census, or the number of NF beds occupied December 31, 2005, was 23,769 compared to 23,671 occupied beds on December 31, 2004. These beds provided 8,671,853 patient days of care in 2005 compared to 8,573,076 patient days 2004.

**Payor Source for 2005.** The 2005 Payor Source, Section 2, for total patient days as reported by the NFs shows the following distribution. The total number of reimbursed days for nursing facilities is 8,673,797 days or 142,481 more than 2004. Medicare paid days decreased by 87,989 days from the 2004 report. Medicaid paid days were 31,373 less in 2005 than the previous report year. The number of Medicaid paid days has decreased by a substantial amount each of the last three years.

**\*NOTE:** When checking ending census for the previous year and the beginning census for the current year, there may be a discrepancy in the numbers.

**Disclaimer: The zero shown in the report does not affect the county, ADD or state occupancy rate because both the Total Patient Days and the Potential Days used to calculate the Occupancy Percentage is zero.**

The definitions of terms in this report are:

**Long-Term Care:**

A facility licensed by the state through the Division of Licensing and Regulation providing one or more of the following levels of care:

**Nursing Facility (NF)** - Long-term care facilities, formerly skilled nursing, nursing home, or intermediate care facilities prior to October 1, 1990, which meet the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) nursing home reform requirements. Nursing facilities must be certified to participate in the **Medicare program in order to be certified for participation in Medicaid**, with the exception of those who have obtained a Medicaid nursing requirement waiver.

**Skilled Nursing (SN)** - Permanent facilities that include medical staffing, inpatient beds with medical services, physician services and continuous nursing services; these facilities provide treatment for patients who require inpatient care but are not in an acute phase of illness but who currently require primarily convalescent or restorative services for those who have a variety of medical conditions. Per Licensure & Regulation files, as of December 31, 2005, there are no licensed skilled nursing facilities in Kentucky.

**Nursing Home (NH)** - Establishments with permanent facilities that include inpatient beds, and with medical services including continuous nursing service; that provide treatment for patients who require inpatient care but do not currently require continuous hospital services.

**Intermediate Care (IC)** - Establishments with permanent facilities and health related services for patients who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through institutional facilities on an inpatient basis.

**Alzheimer's Facility (ALZ)** - A long-term care facility constructed and operated pursuant to KRS.216B.071 that provides care to residents with a primary diagnosis of Alzheimer's disease or related disorders.

**Intermediate Care Facility for the Mentally Retarded (ICF/MR)** - A facility licensed by the state through the Division of Licensing and Regulation to provide care for the mentally retarded and developmentally disabled.

**Total Patient Days:**

The total days of patient care provided by the facility for the year based on its capacity. It is calculated by summing the daily patient census for each day in the reporting period.

**Days in Period:**

2005 had 365 days.

**Licensed Beds:** The number and type of beds for which the facility has been licensed at the end of the reporting period.

**Percent Occupancy:**

Total days divided by potential patient days.

**Potential Patient Days:**

Number of licensed beds multiplied by the number of days in the reporting period (adjusted to reflect changes in licensed beds during the reporting period. Example: 100 licensed beds X 365 (days in 2005) equals 36,500 potential days. This figure is not shown in the report but used to calculate occupancy percentages.

**Reporting Period:**

January 1, 2005 to December 31, 2005

**Nursing Facility Special Note:** If a facility converted Skilled Nursing (SN), Nursing Home (NH), or Intermediate Care (IC) beds to NF beds during this reporting period, all resident activity in these beds was considered to be NF for the entire period regardless of the date of the change.

This report now becomes the most recent official data on Long Term Care services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$15 made payable to the Kentucky State Treasurer to:

## TABLE OF CONTENTS

INTRODUCTION - TABLE OF CONTENTS .....	i - vi
DATA ANALYSIS - OCCUPANCY RATES .....	vii - x
SECTION I - CENSUS DATA .....	1 - 79
Includes Number of Licensed beds, Beginning Census, Admissions, Discharges, Ending Census, Total Patient Days, and Occupancy Percentage for each bed type.	
Licensed Nursing Facility Beds by Area Development District .....	1
Licensed Nursing Facility Beds .....	2
Licensed Personal Care Beds by Area Development District .....	41
Licensed Personal Care Beds .....	42
Licensed Nursing Home Beds .....	71
Licensed Intermediate Care Beds .....	75
Licensed Alzheimer's Facility Beds .....	78
Licensed ICF/MR Facilities .....	79
 SECTION II - PAYOR SOURCE DATA .....	 81-139
Includes primary payor source data in number of patient days for each bed type.	
Licensed Nursing Facility Beds .....	81
Licensed Personal Care Beds .....	114
Licensed Nursing Home Beds .....	131
Licensed Intermediate Care Beds .....	135
Licensed Alzheimer's Facility Beds .....	137
Licensed ICF/MR Facilities .....	138
 SECTION III - PATIENT AGE DISTRIBUTION DATA .....	 140-204
Includes the ages of patients residing in each facility on December 31, 2005.	
Licensed Nursing Facility Beds .....	140
Licensed Personal Care Beds .....	172
Licensed Nursing Home Beds .....	195
Licensed Intermediate Care Beds .....	199
Licensed Alzheimer's Facility Beds .....	202
Licensed ICF/MR Facilities .....	203

SECTION IV - PATIENT DEATH DISTRIBUTION DATA .....	205-265
Includes the ages of patient deaths in each facility during 2005	
Licensed Nursing Facility Beds .....	205
Licensed Personal Care Beds .....	235
Licensed Nursing Home Beds .....	259
Licensed Intermediate Care Beds .....	263
Licensed Alzheimer's Facility Beds .....	265
Licensed ICF/MR Facilities .....	266
 SECTION V – Nursing Facility by County .....	 268
SECTION VI – NOTES .....	293
SECTION VII – PATIENT ORIGIN DATA .....	1-74

## Data Analysis - Occupancy Rates

The following tables and graphs present statistics from the Kentucky Annual Long-Term Care Reports from 1995 to 2005. In the published reports for 1996 and 1997, the data was reported in Medicaid Managed Care Partnership Regions (MCPR) rather than in Area Development Districts (ADDs). The survey data were recalculated using the ADDs so that a linear comparison could be made. A map of the ADDs is included at the end of this section.

LTC facilities continue to be an important segment of the continuum of care in Kentucky. Hospital discharge data for 2005 shows a total of 358,983 patients age 41 and older were discharged from Kentucky Acute Care hospitals for all DRGs. Of the 205,221 females discharged 31,211 or 0.15% were discharged to a skilled or intermediate care beds. Males discharged to skilled or intermediate care beds were 0.10% of total male hospital discharges with 153,757 males discharged from acute care hospitals and 15,291 of these discharges placed in skilled or intermediate care beds.

The occupancy rate for licensed NF beds has decreased over the past ten years by 5.33% from 95% in 1995 to 89.67% in 2005. The following chart shows the decrease in occupancy for the last ten years. The decline has been continuous from 1995 through 1998 with a very small increase in 1999 (0.05%). Again, in 2005 the occupancy rate, increased by 0.32%. This was most likely due to the fact that NF beds increased by 181. The occupancy rate in following table shows data for each year by ADD. From 1995 to 2005, occupancy fell in four of the fifteen ADDs. An attached chart shows a graphical interpretation of the data.

The number of licensed Nursing Homes (NH) has decreased from 428 in 2004 to 412 (0.96%) NH in 2005 and patient's days have decreased from 127,288 to 121,669 days in 2005. The occupancy rate for NH beds decreased from 87.77% to 83.53% (91%) in 2005.

Further data on the occupancy rates by bed type are presented on the following charts and table.

Printed with state funds.
