2008 KENTUCKY AMBULATORY SURGICAL SERVICES REPORT

INTRODUCTION

The Office of Health Policy of the Cabinet for Health and Family Services is pleased to announce the release of the *2008 Kentucky Ambulatory Surgical Services Report*.

This report covers the period from January 1, 2008 to December 31, 2008, for all agencies in accordance with licensing and regulation reporting requirements. The data is submitted by the ambulatory services centers and hospitals throughout the state of Kentucky. These facilities include both freestanding and hospital based ambulatory surgical services.

The data is presented by Area Development Districts (ADD), and a map of the districts is included within the report. There are two main sections in this report:

- **Capacity Data** - shows the number of ambulatory operating rooms, cystology rooms and non-exclusive operating rooms. This section also contains a look at pain management.
- **Facility Utilization Data** – includes data submitted on the number of surgeries performed in each specialized area.

The numbers reported for pain management and endoscopic surgeries may reflect a significant difference than in previous survey years. The reporting requirements for ambulatory surgical services were strongly enforced for 2008. The survey instructions clearly state that only the ambulatory surgeries performed in an ambulatory operating room (OR) may be reported. Those performed in a procedure room must be excluded until further notice. An audit of previous years reporting show that some facilities have been reporting procedure room data for pain management and endoscopies in the ambulatory OR data. Certificate of Need decisions regarding ambulatory surgical services are based on OR data only. The Office of Health Policy recognizes that there is a trend among health care facilities to perform more of these procedures in a procedure room or suite rather than an ambulatory OR. The office is looking at the need to collect procedure room data for informational purposes only.

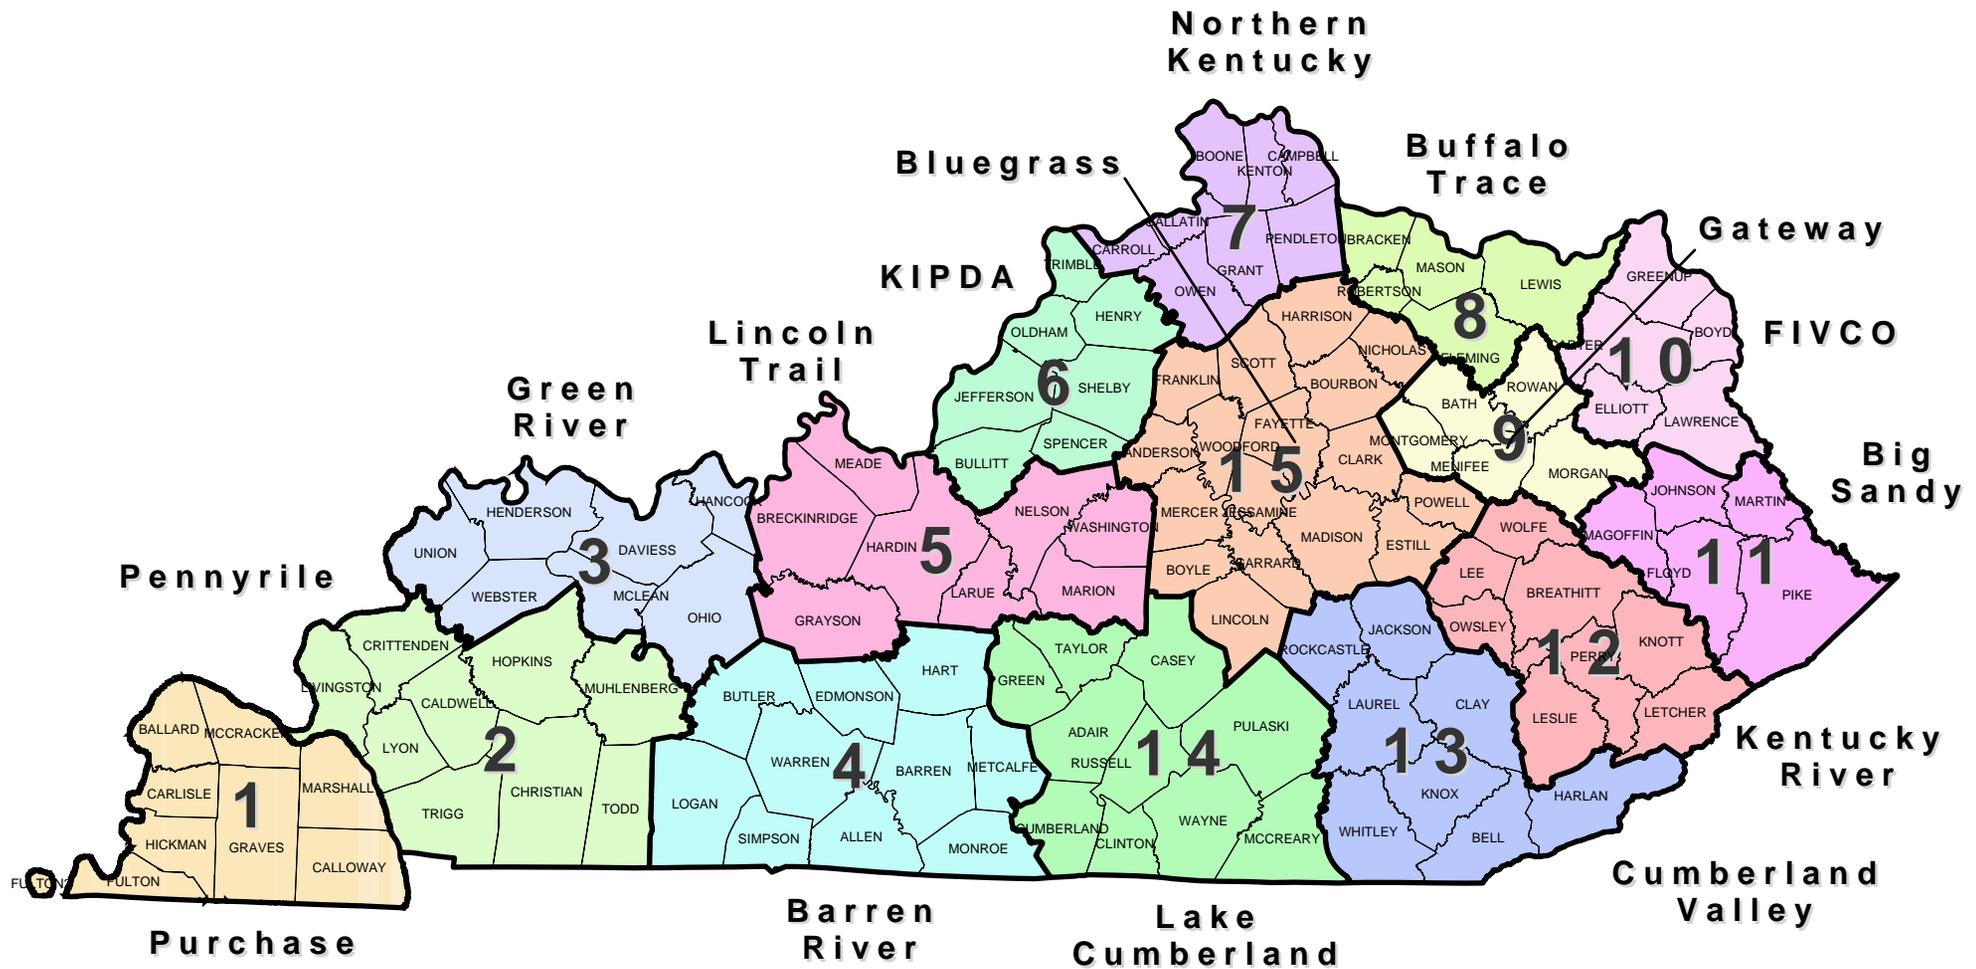

For any questions or comments regarding the data contained in this report, please contact Beth Morris at (502) 564-9592 ext.3954 or e-mail BethA.Morris@ky.gov.

The Office of Health Policy produces a number of utilization and services reports. In addition to the Ambulatory Surgical Services Report, the following reports are available: Long-Term Care Report; Home Health Services Report; Hospice Report; Kentucky Magnetic Resonance Imaging (MRI) Services Report; Megavoltage Services Report; Positron Emission Tomography (PET) Report; Annual Hospital Utilization and Services Report. These reports can be downloaded from the following web site: <http://chfs.ky.gov/ohp/dhppd/dataresgal.htm>. Hard copies of the report can be obtained by contacting the Office of Health Policy by mail, email, phone, or fax. This report becomes the most recent official data on Ambulatory Service Center (ASC) services utilization published by the Cabinet for Health and Family Services.
