## 2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

### INTRODUCTION

Thank you for your interest in the **2005 Annual Hospital Utilization and Services Report**. This report covers the utilization and services activities of licensed Kentucky hospitals for the calendar year, January 1, 2005 through December 31, 2005.

The report is divided into six sections:

- ◆ **Hospital Utilization & Services Decade Review**
- ◆ **Section I - Hospital Utilization Data by Licensed Bed Type**
- ◆ **Section II - Acute Bed Utilization**
- ◆ **Section III - Service Utilization**
- ◆ **Section IV - Inpatient Utilization Data of Medicare/Medicaid Patients**
- ◆ **Appendices - Definitions**

The Office of Health Policy produces a number of utilization and services reports. In addition to the Annual Hospital Utilization and Services Report, the following reports are available: Long-Term Care Report; Home Health Services Report; Hospice Report; Magnetic Resonance Imaging (MRI) Report; Megavoltage Radiation Services Report; Positron Emission Tomography (PET) Report; Ambulatory Surgical Services Report and the future State MRI Registry. These reports can be downloaded from the following web site: <http://chfs.ky.gov/ohp/dhppd/dataresgal.htm>. Hard copies of the report can be obtained by contacting the Office of Health Policy by mail, email, phone, or fax.

Many new elements have been added to the 2005 Utilization Report. Section I, Table 3 now contains expanded Psychiatric Bed Utilization. Table 1-A Critical Access Hospitals is now all inclusive. Due to an amendment in 902 KAR 20:008 regarding Critical Access Hospitals the tables in Section 1 will appear different. Table 1-B Long Term Acute Care Hospital beds is a new addition to the report. Please see Section I notes for complete details regarding all changes to this report.

The two observation data elements in Table 2 continue to be reported. However, there are facilities that have not made arrangements to report these elements. The first element is the number of “Observation Patients” seen during the calendar year. The second data element is the number of “Observation Patients Admitted” to the hospital during the calendar year.

Data regarding the performance of megavoltage radiation services has been removed from this report. Information regarding such services which are provided at free-standing facilities as well as hospitals is now set forth and published in the 2005 Kentucky Annual Megavoltage Radiation Services Report. That report can be found at [www.chfs.ky.gov/ohp/dhppd/dataresgal.htm](http://www.chfs.ky.gov/ohp/dhppd/dataresgal.htm). For purposes of compliance with the State Health Plan, the information contained in the Megavoltage Services Report is hereby adopted and incorporated by reference as if set forth fully herein.

Questions or comments regarding the data contained in this report should be directed to Beth Sanderson at (502) 564-9592, ext. 3954 or e-mail: [beth.sanderson@ky.gov](mailto:beth.sanderson@ky.gov).

This report becomes the most recent official data on hospital services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$10 made payable to the Kentucky State Treasurer to:

# *HOSPITAL UTILIZATION*

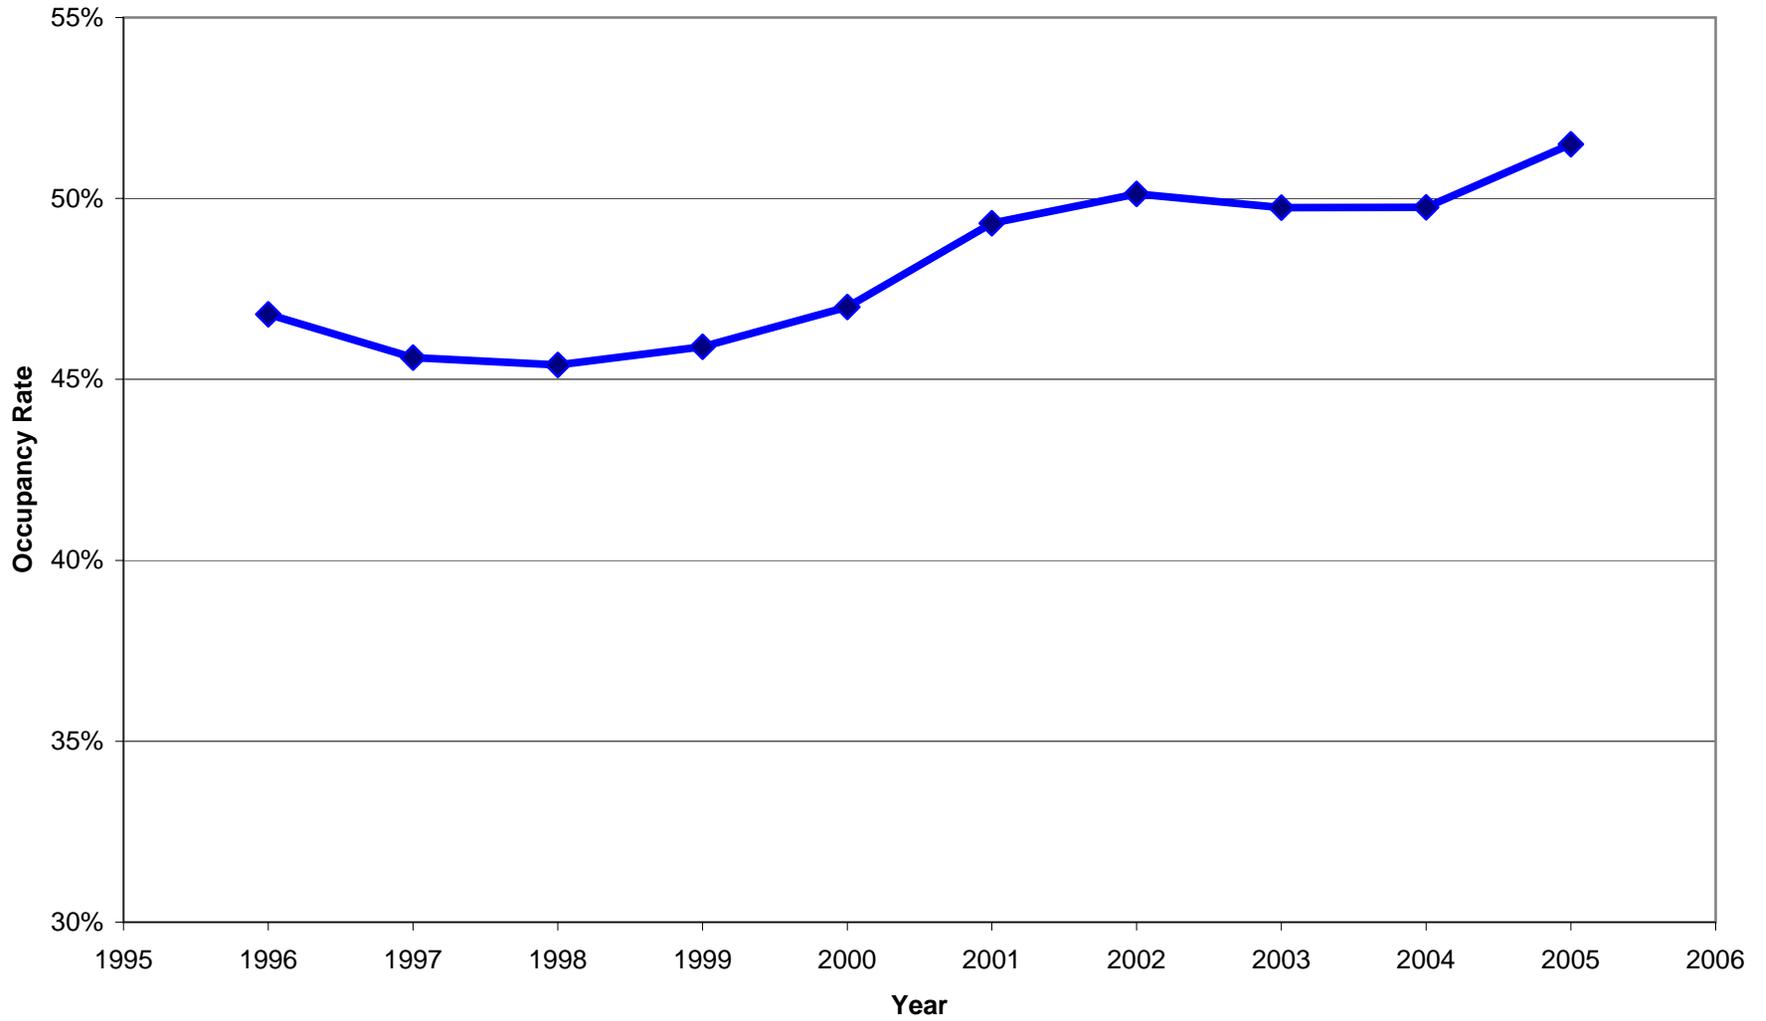

# *SERVICES DECADE REVIEW*

## Kentucky Acute and Psychiatric Hospitalizations 1996-2005

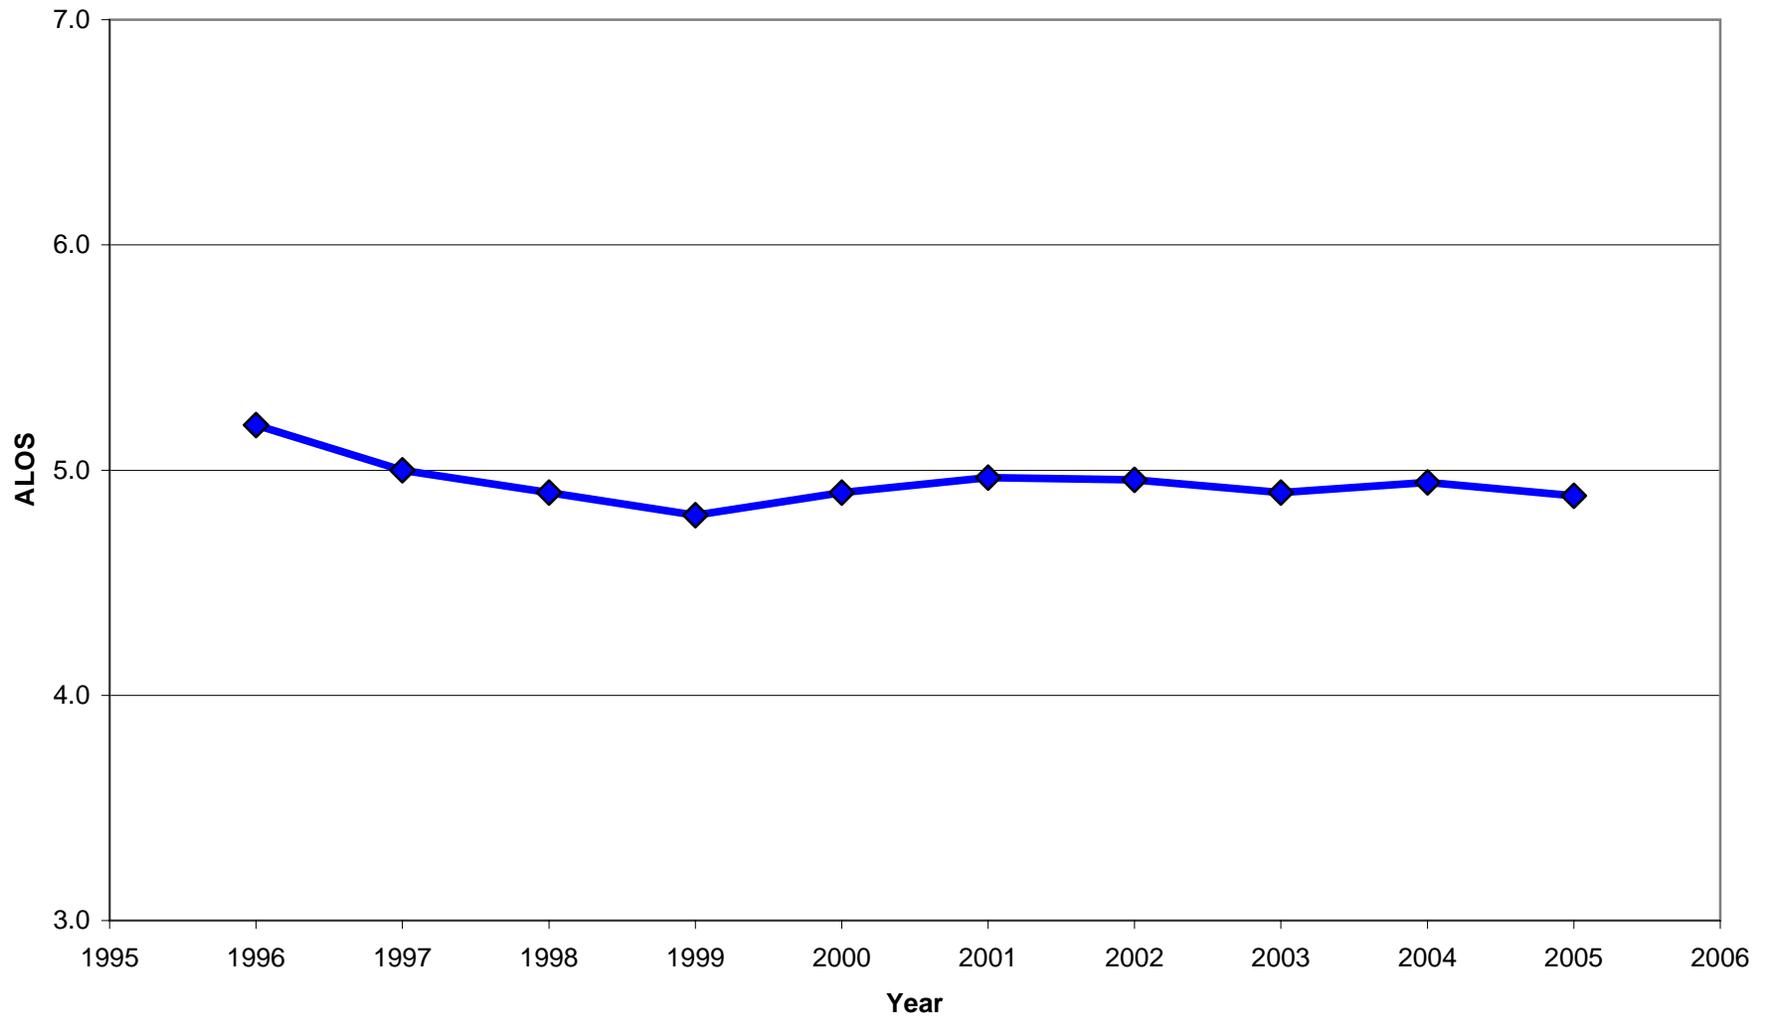

<b>Year</b>	<b>Admissions</b>	<b>Discharges</b>	<b>ALOS</b>	<b>Occupancy</b>	<b>Inpatient Days</b>
1996	537,596	531,575	5.2	46.8%	2,786,470
1997	535,354	534,178	5.0	45.6%	2,682,189
1998	539,070	536,317	4.9	45.4%	2,672,388
1999	542,255	544,397	4.8	45.9%	2,693,001
2000	563,643	562,058	4.9	47.0%	2,766,147
2001	585,708	587,430	5.0	49.3%	2,903,774
2002	607,511	609,148	5.0	50.1%	2,958,202
2003	591,958	592,970	4.9	49.8%	2,895,454
2004	568,228	569,572	4.9	49.8%	2,796,257
2005	602,456	602,596	4.9	51.5%	2,916,480

Footnote: These charts do not include state psychiatric hospital utilization. The Decade Review includes Critical Access Hospital data.

**Occupancy Rate  
Acute and Psychiatric Hospitals, 1996-2005**

**Average Length of Stay (ALOS)  
Acute and Psychiatric Hospitalizations, 1996-2005**

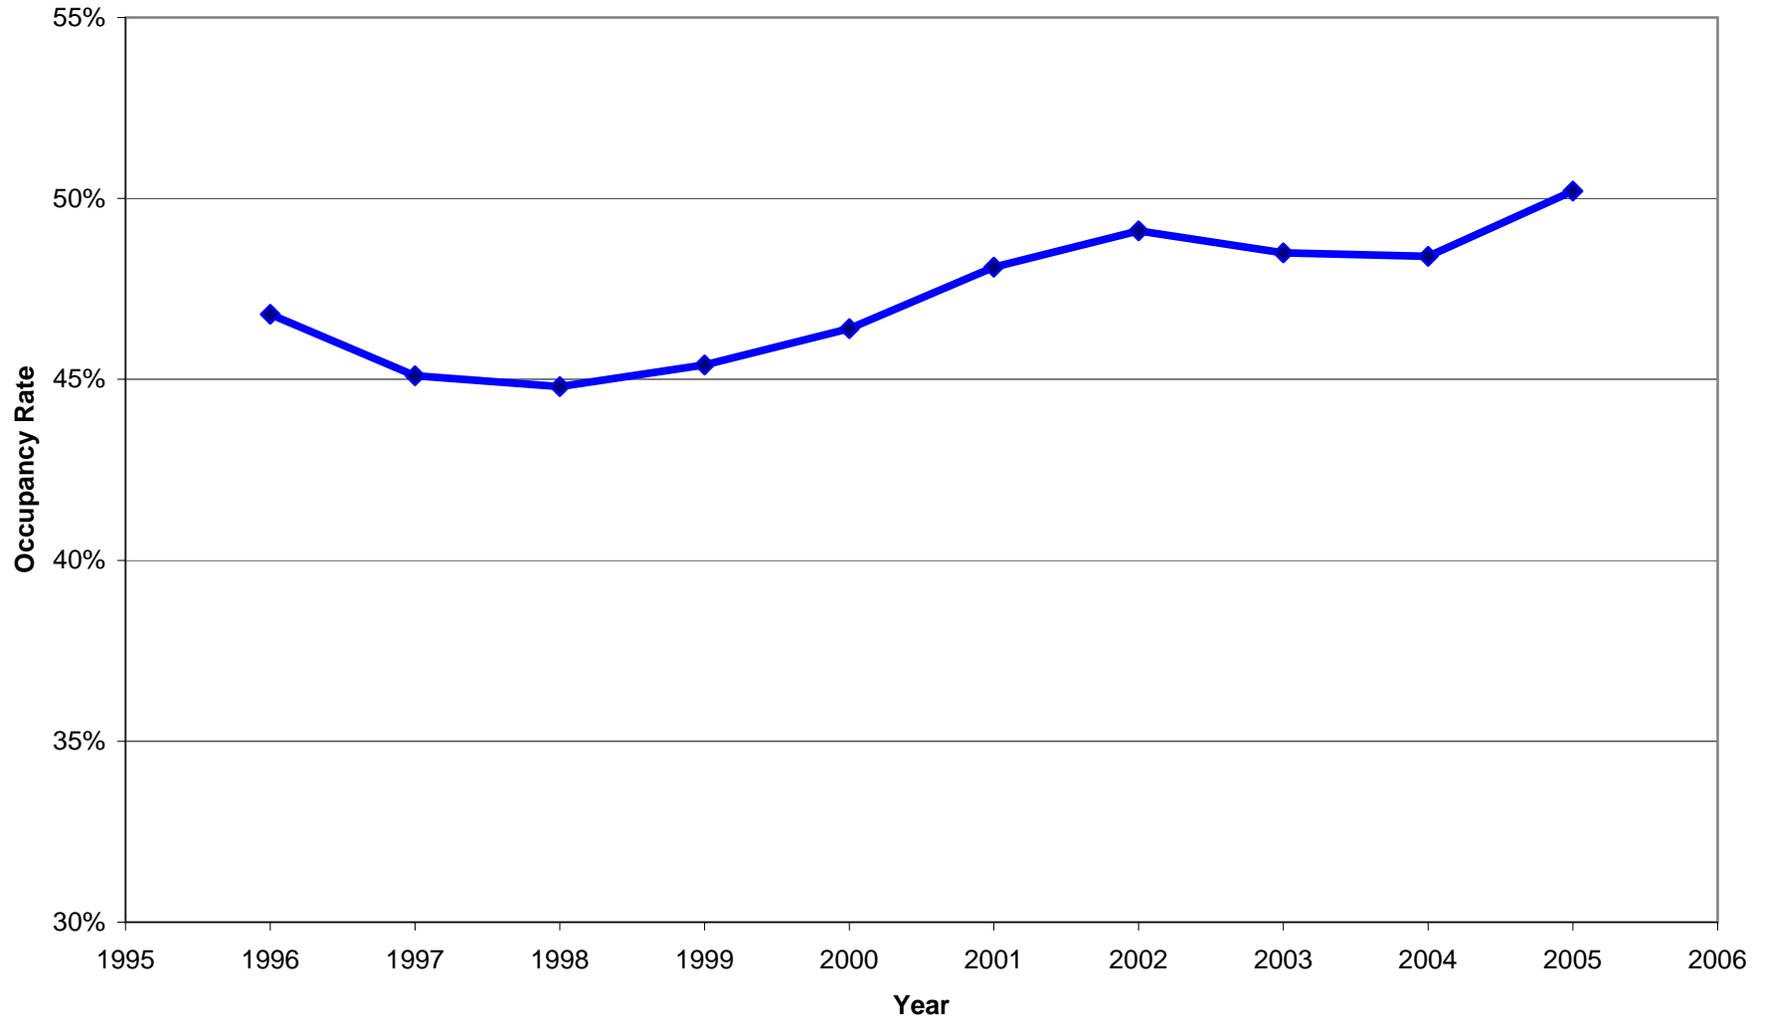

## Kentucky Acute Hospitalizations 1996-2005

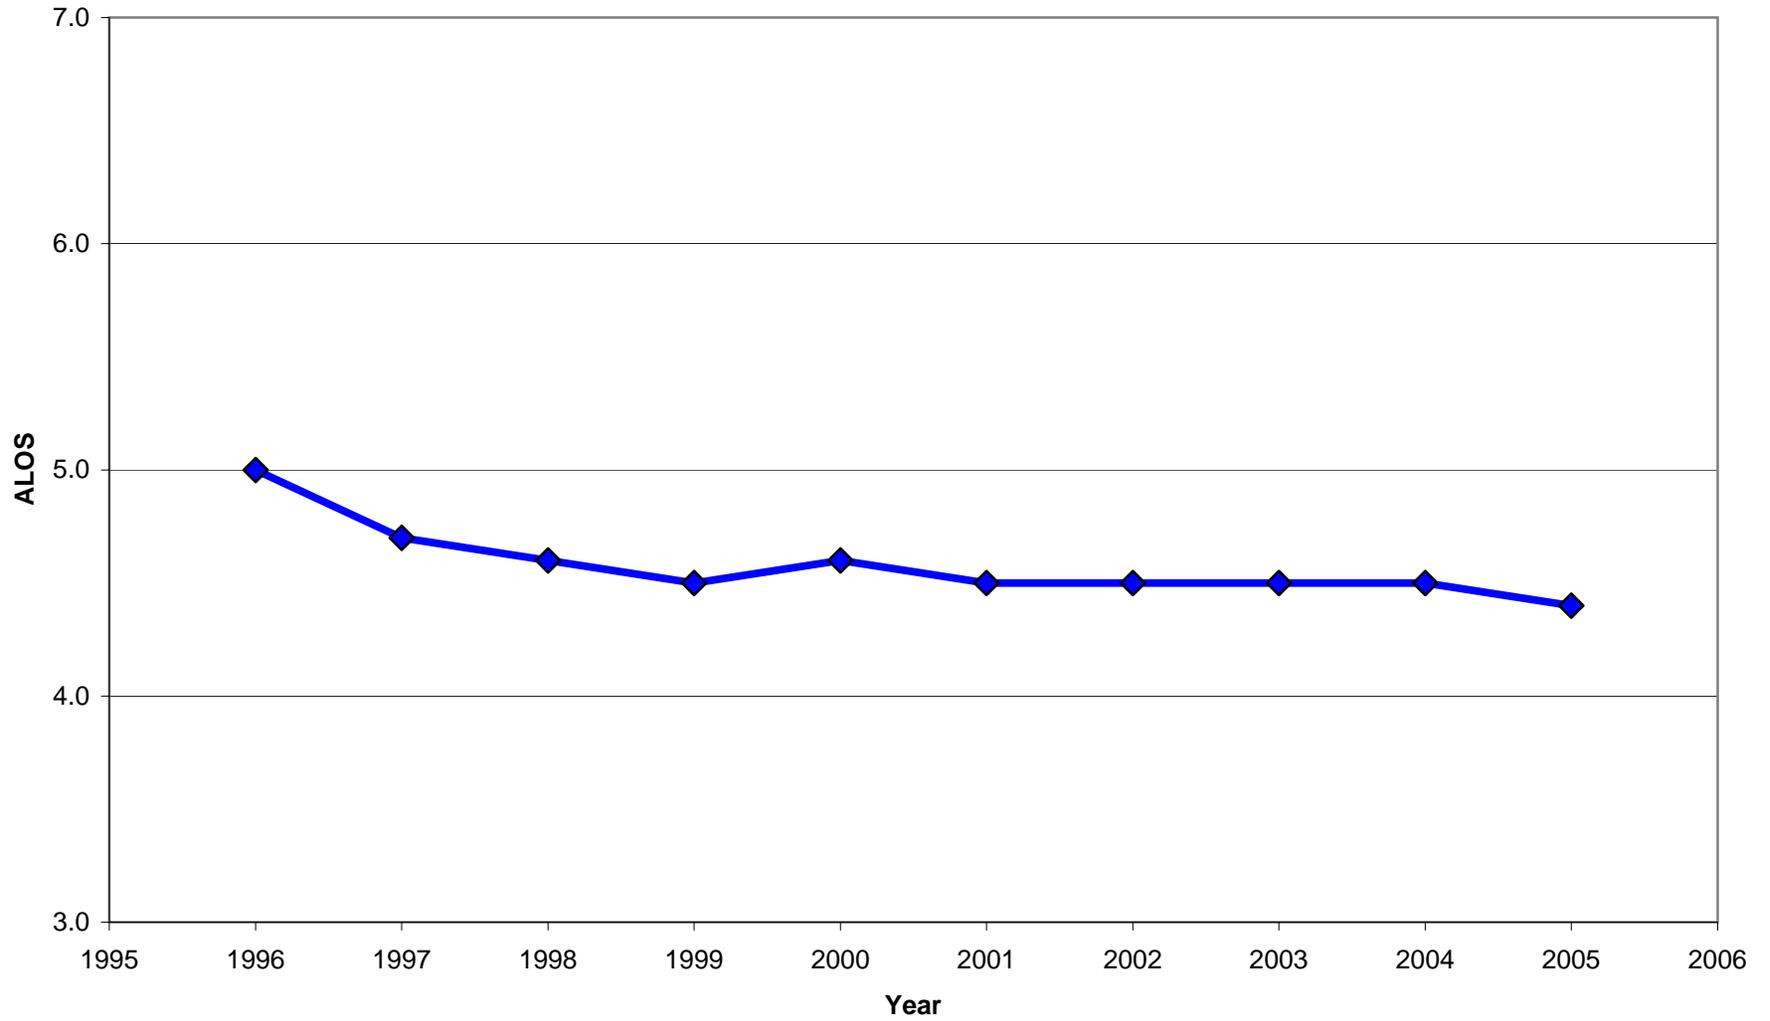

<b>Year</b>	<b>Admissions</b>	<b>Discharges</b>	<b>ALOS</b>	<b>Occupancy</b>	<b>Inpatient Days</b>
1996	505,090	498,658	5.0	46.8%	2,476,102
1997	504,211	503,497	4.7	45.1%	2,356,461
1998	505,724	502,943	4.6	44.8%	2,343,981
1999	510,516	512,193	4.5	45.4%	2,378,782
2000	529,451	528,436	4.6	46.4%	2,416,526
2001	548,255	549,854	4.5	48.1%	2,498,522
2002	568,347	569,936	4.5	49.1%	2,546,766
2003	553,458	554,950	4.5	48.5%	2,500,787
2004	531,239	532,062	4.5	48.4%	2,400,534
2005	564,200	563,897	4.4	50.2%	2,502,338

The Decade Review includes Critical Access Hospital data.

### Occupancy Rate Acute Non-Psychiatric Hospitals, 1996-2005

**Average Length of Stay (ALOS)  
Acute Non-Psychiatric Hospitalizations, 1996-2005**

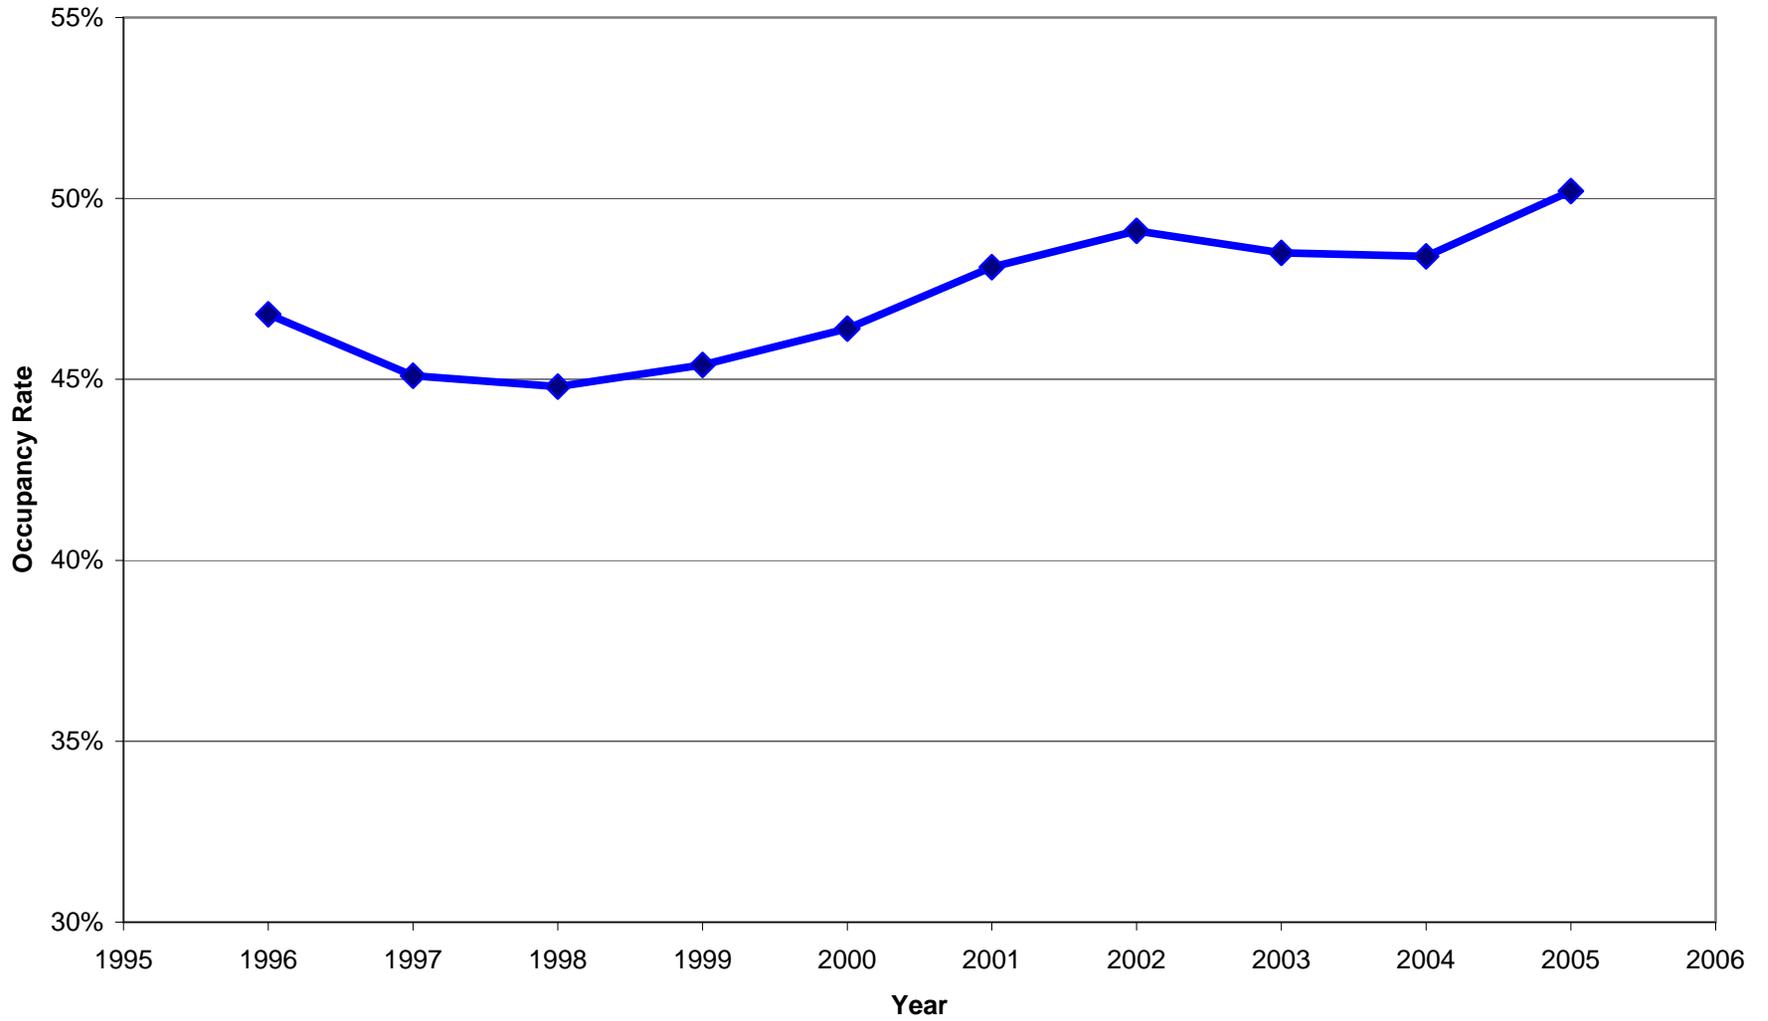

## Kentucky Psychiatric Hospitalizations 1996-2005

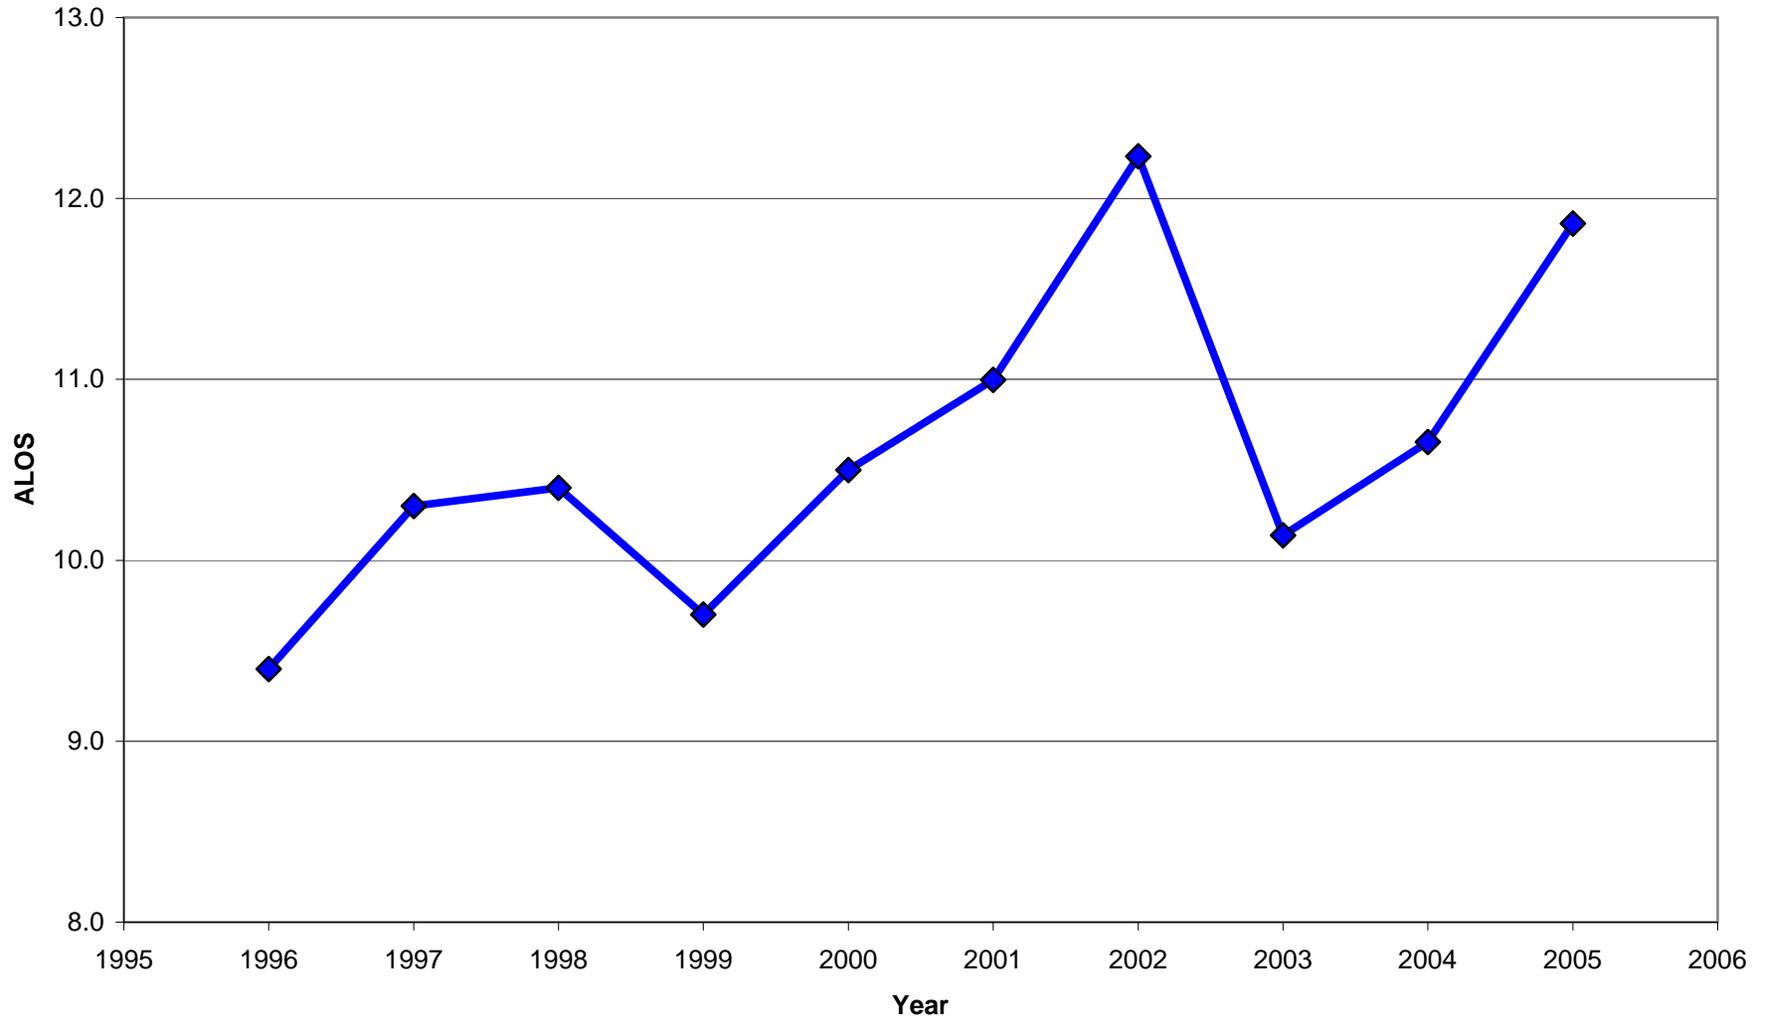

<b>Year</b>	<b>Admissions</b>	<b>Discharges</b>	<b>ALOS</b>	<b>Occupancy</b>	<b>Inpatient Days</b>
1996	32,506	32,917	9.4	46.8%	310,368
1997	31,143	30,681	10.3	49.8%	325,728
1998	33,346	33,374	10.4	50.6%	328,407
1999	31,739	32,204	9.7	50.1%	314,219
2000	34,192	33,622	10.5	52.1%	349,621
2001	37,303	37,386	11.0	56.9%	411,062
2002	38,116	38,125	12.2	56.7%	407,486
2003	38,387	37,815	10.1	59.1%	393,613
2004	36,989	37,510	10.7	59.5%	395,723
2005	37,044	37,504	11.9	61.2%	410,342

Footnote: Charts do not include state psychiatric hospital utilization. ALOS has been modified for 2001-2004 to reflect a change in discharges.

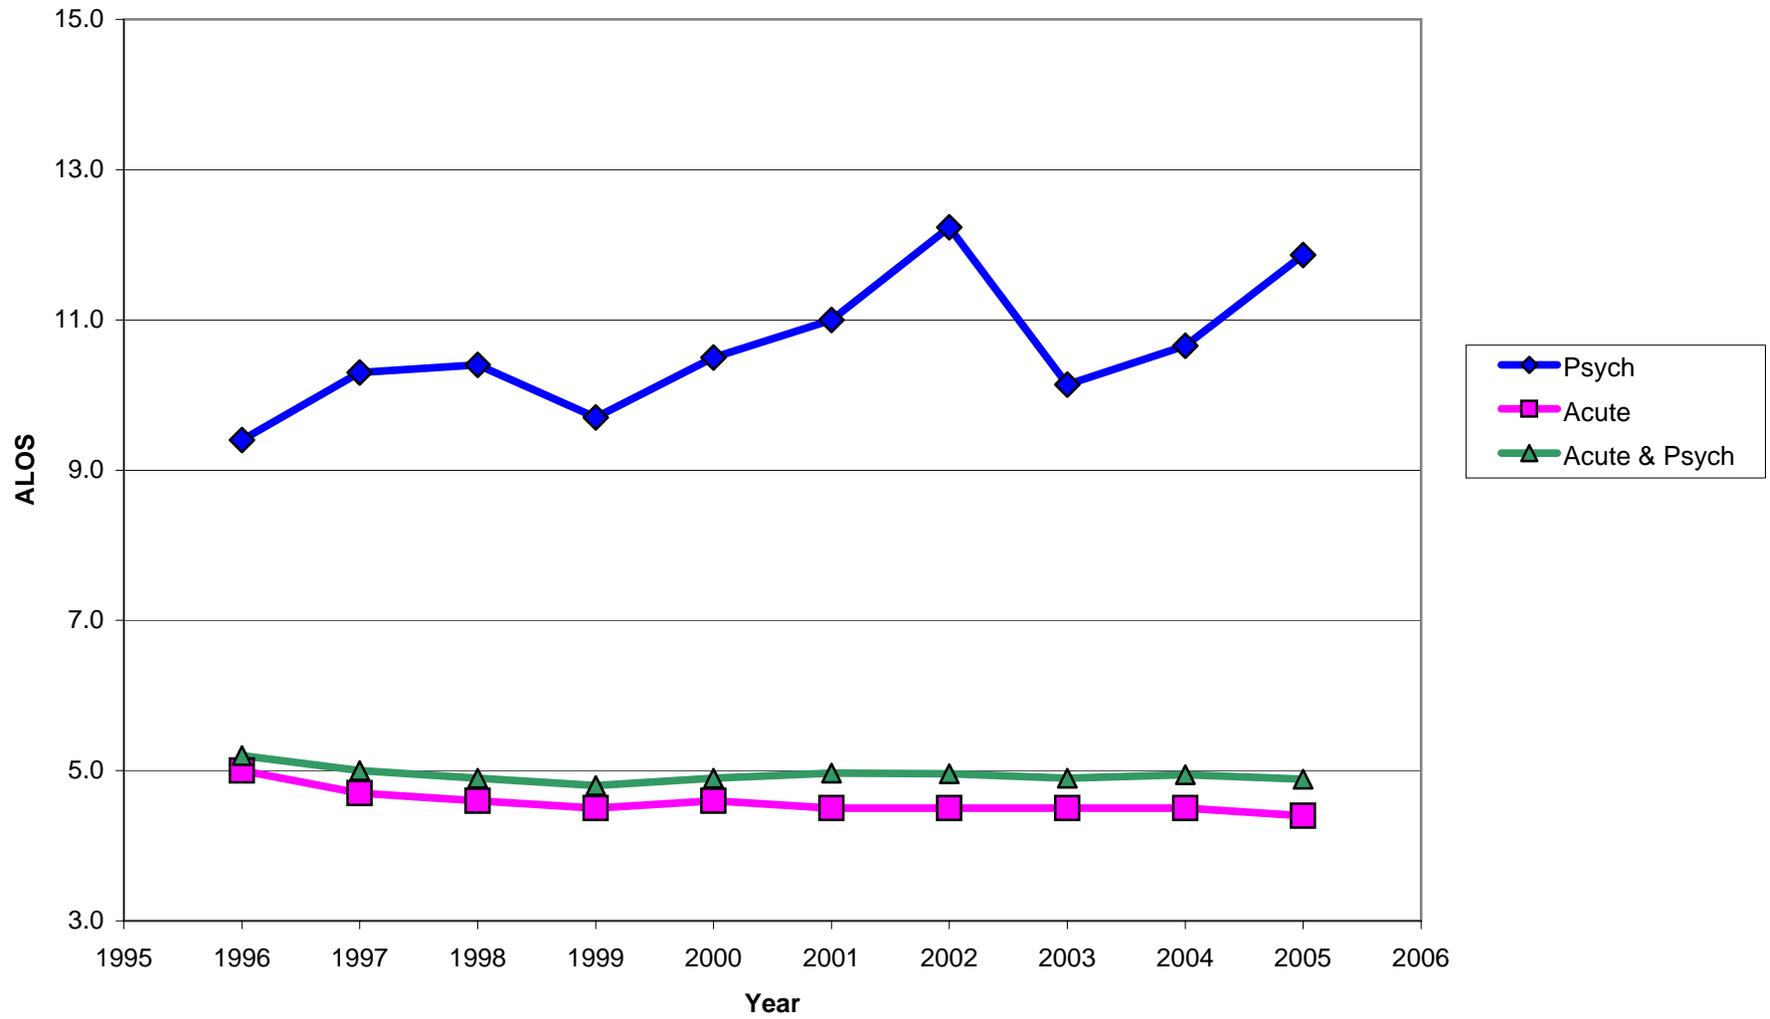

### Occupancy Rate Psychiatric Hospitalizations, 1996-2005

**Average Length of Stay (ALOS)  
Psychiatric Hospitalizations, 1996-2005**

### Average Length of Stay (ALOS) Acute and Psychiatric Hospitalizations, 1996-2005

# *SECTION I*

## *UTILIZATION OF LICENSED BEDS*

## 2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

### SECTION I

#### UTILIZATION BY LICENSED BED TYPE

Combined **Acute and Psychiatric** inpatient utilization data are in **Table 1** as in previous reports. Tables 1, 2 and 4 no longer include Critical Access Hospitals (CAH) due to regulation changes in 902 KAR 20:008, (rev. 7-16-01). **CAH's** are reflected in **Table 1-A**. In previous years these hospitals were characterized by having no more than 15 acute beds and up to 25 swing beds. The current regulation allows for CAH's to have all 25 beds as acute or swing beds. Table 1-A combines the swing and acute care beds. The total bed compliment for CAH is not allowed to exceed 25 beds.

Since the Kentucky State Health Plan review criteria and standards consider acute nonpsychiatric and psychiatric beds separately, utilization of these beds is also shown separately. **Acute Non-Psychiatric** bed data is detailed in **Table 2** and **Psychiatric** bed data in **Table 3**. Utilization of **Swing Beds** by long-term care patients is shown in **Table 4**. Utilization data for licensed long-term care beds is maintained in the Annual Long Term Care Report, which is available from this office. **Chemical Dependency** and **Physical Rehabilitation** data are in **Tables 5 and 6**.

**Table 1-B** Long Term Acute Care Hospitals (LTACH) continues to be included in this report. LTACH's are a hospital within a hospital. The beds are decertified by the host hospital, but not delicensed. These beds are certified as Long Term Acute Care Beds and are then leased to another entity.

**Table 3** Psychiatric Inpatient Utilization is now broken down into four additional tables. It includes Table 3-A Psychiatric Utilization 0-17, Table 3-B Psychiatric Utilization Child 0-12, Table 3-C Psychiatric Utilization Adolescents 13-17, and Table 3-D Psychiatric Utilization Adults 18 and over.

The following utilization indicators are used in this report: Licensed Beds, Beds in Operation, Total Admissions, Total Inpatient Days, Total Discharges, Total Discharge Days, Average Daily Census (ADC), Occupancy Percent, and Average Length of Stay (ALOS). Three of these measures - ADC, Occupancy Percent, and ALOS are the result of calculations.

The formulae for calculating indicators are:

**Average Daily Census (ADC)** = Total Inpatient Days / Days in the Reporting Period.

**Occupancy Percent** = [Total Inpatient Days / (Licensed Beds x Days in the reporting Period)]x 100. The occupancy percent is adjusted to account for bed changes during the reporting period. It also can be calculated by [Inpatient Days]/ ([Licensed Beds] \* 365).

**Average Length of Stay (ALOS)** = Total Discharge Days / Total Discharges.

**Acute Nonpsychiatric Care**, usually known as acute care, generally refers to those medical and/or surgical services provided for a period of time not to exceed thirty days. The higher the level of service - primary, secondary, or tertiary - the longer the patient may reside in a facility.

**Psychiatric Care** is provided in psychiatric hospitals or psychiatric units and encompasses a number of conditions. These conditions may require treatment beyond a thirty day period and, in some instances, require frequent follow-up care.

**Chemical Dependency** treatment service is a structured inpatient program providing medical, social, diagnostic, and treatment services to persons who suffer from illnesses related to the misuse or abuse of alcohol and other drugs. The setting of the service may be either in a general hospital itself or a facility devoted solely to providing chemical dependency services.

**Comprehensive Physical Rehabilitation** is the process of treating an individual who, through injury or disability, acquired or congenital, is in need of assistance for attainment of the maximum level of physical, educational, and vocational function.

# *SECTION II*

## *ACUTE BED UTILIZATION*

## 2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT

### SECTION II

#### ACUTE BED UTILIZATION

This section shows the distribution of acute and intensive care beds by inpatient service provided. **Table 7** covers inpatient services and utilization of acute care beds. The major categories are Medical/Surgical, Obstetrics, and Other (non-classified) services. The category Other (non-classified) services includes neonatal Level II and III beds, intensive care beds, transitional care beds, telemetry beds, etc. Data in these tables should be used with care as some hospitals were unable to submit data that distinguished between categories. Critical Access Hospitals have been removed from this table.

**Table 8** covers inpatient services and utilization of intensive care beds. The major divisions are ICU, CCU, and Burn Care. Other IC/Special Care beds are no longer included in these tables, since transitional care beds (special care, progressive care, step-down beds, etc.) are not recognized as a special category of intensive care beds. These beds are considered medical/surgical beds.

**Table 9** shows the utilization of newborn bassinets and Level II and Level III neonatal care beds by facility. Inpatient days for Level II and Level III neonatal beds have been added to the table. Please look closely as columns in this table have changed.

**Special Note:** The utilization of intensive care beds and neonatal care beds is included in **Table 7**. The data shown are beds in operation and inpatient days. The ICU and CCU data in **Table 8** and the Neonatal data in **Table 9** represent a subset of the total acute care data presented in **Table 7**. Therefore, the bed and utilization data from these tables should not be added together to obtain data on the total of acute care beds.

# *SECTION III*

# *SERVICE UTILIZATION*

## **2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT**

### **SECTION III**

#### **SERVICE UTILIZATION**

This section covers the services that hospitals provide to their patients, from the availability of services to the use of specialized services. These tables display data on selected services such as surgical operations, heart surgery, cardiac catheterization, and CT scans.

Megavoltage Radiation Table has been removed from the Annual Hospital Utilization Report. The data for megavoltage radiation can be found in a new report titled the Kentucky Annual Linear Accelerator Report. The report will contain both free standing and hospital based Linear Accelerators data. The new report can be located on the internet at <http://chfs.ky.gov/dph/surv.htm> once it has been published.

Ambulatory Surgical Services data can be found in Table 11. A complete view of Ambulatory Surgical Services data by all facilities in the state can be found in the 2005 Kentucky Annual Ambulatory Surgical Services Report. To obtain a copy of the Ambulatory Report contact the Commonwealth of Kentucky, Office of Health Policy, (502) 564-9592. The data can also be found at the following website: <http://chfs.ky.gov/dph/surv.htm>.

The 2005 Kentucky Annual Survey of Licensed Hospitals included the data collection for Positron Emission Tomography Services (PET). A new report will be published this season that will include free standing and hospital based PET scan services. The Kentucky Annual PET Scan Report will be available once published on the internet at <http://chfs.ky.gov/dph/surv.htm>.

## **2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT**

### **SECTION IV**

#### **MEDICARE (TITLE XVIII)/MEDICAID (TITLE XIX) UTILIZATION**

**TABLE 18:** Inpatient Hospitalization Days by Facility and Payor

**CHART 18.1:** Primary Payor, Kentucky Hospital Inpatient Days, 2005

**CHART 18.2:** Inpatient Days, Primary Payor vs. Kentucky Hospital ADD, 2005

**TABLE 19.1:** Leading Twenty-five DRGs, All Kentucky Hospitals

**TABLE 19.2:** Leading Twenty-five DRGs by Hospital ADD

**TABLE 20.1:** Selected Category Summary by Quarter, All Kentucky Hospitals

**TABLE 20.2:** Selected Category Summary by Quarter, Hospital ADDs

#### **Notes**

- 1) Data in Section IV was compiled from Kentucky hospital inpatient discharge claims as submitted on Universal Billing Form 92 (UB 92) prior to May 31, 2006. These data may not correspond with data in the self-reported survey sections of this report.
- 2) Table 18 and Charts 18.1 and 18.2 summarize hospitalizations by primary payor categories Medicaid, Medicare, and Other (Commercial, Other State or Federal Programs, and Passport MMC)
- 3) Tables 20.1 and 20.2 summarize quarterly hospitalizations by residence state, gender, age, source of admission, length of stay and primary payor.

# *APPENDIX*

## **2005 ANNUAL HOSPITAL UTILIZATION AND SERVICES REPORT**

### **APPENDIX A - DEFINITIONS**

**Admissions:** Number of patients, excluding newborns, accepted for inpatient service during the reporting period. Because of internal transfers, hospital admissions may be greater than total facility admissions.

**Alcoholism/Chemical Dependency Outpatient Services:** Hospital services for the medical care and/or rehabilitative treatment of outpatients for whom the primary diagnosis is alcoholism or other chemical dependency.

**Ambulatory Surgical Services:** Scheduled surgical services provided to patients who do not remain in the hospital overnight. The surgery may be performed in operating suites also used for inpatient surgery, specially designated surgical suites for ambulatory surgery, or procedure rooms within an ambulatory care facility.

**Average Daily Census (ADC):** Average number of inpatients, excluding newborns, receiving care each day during the reporting period. Derived by dividing the number of inpatient days by the number of days in the reporting period.

**Average Length of Stay (ALOS):** Average stay of inpatients during the reporting period. Derived by dividing the number of discharge days by the number of discharges.

**Bassinets:** Number of newborn infant bassinets set up and staffed for use at the end of the reporting period. Bassinets are not included in the bed total and do not include isolets or neonatal intensive care units, which are included under beds.

**Beds:** Number of beds, cribs, and pediatric and neonatal bassinets regularly maintained (set up and staffed for use) for inpatients during the reporting period; does not include bassinets for normal newborn infants.

**Births:** Total number of infants born in the hospital and accepted for service in a newborn infant bassinet during the reporting period; excludes stillbirths. Births do not include infants transferred from other institutions and are excluded from the admission and discharge figures.

**Burn Care Unit:** Provides care to severely burned patients that is of a more intensive nature than the usual acute nursing care provided in the medical and surgical units. Beds must be set up and staffed in a unit specifically designated for this purpose.

**Cardiac Catheterization Laboratory:** Facility for special diagnostic and therapeutic procedures necessary for the care of patients

with cardiac conditions. Available procedures must include, but need not be limited to, introduction of a catheter into the interior of the heart by way of a vein or artery or by direct needle puncture.

**Census:** The actual number of inpatients receiving care on any given day during the reporting period; does not include newborns.

**CT Scanner:** Computed tomographic scanner for head and/or whole body scans.

**Discharge Days:** Sum of the Length of Stay (LOS) of those discharged during reporting period.

**Emergency Department:** Organized hospital facility for the provision of unscheduled outpatient services to patients whose conditions require immediate care. Must be staffed 24 hours a day.

**Inpatient Days:** Number of adult and pediatric days of care, excluding newborn days of care, rendered during the entire reporting period.

**Intensive Care Unit (cardiac care only):** Provides patient care of a more specialized nature than the usual medical and surgical care, on the basis of physicians' orders and approved nursing care plans. The unit is staffed with specially trained nursing personnel and contains monitoring and specialized support or treatment equipment for patients who, because of heart seizures, open-heart surgery, or other life threatening conditions, require intensified, comprehensive observation and care. May include myocardial infarction, pulmonary care, and heart transplant units. Beds must be set up and staffed in a unit or units specifically designated for this purpose.

**Intensive Care Unit (mixed or other):** Provides nursing care to adult and/or pediatric patients of a more intensive nature than the usual medical, surgical, pediatric, and/or psychiatric care on the basis of physicians' orders and approved nursing care plans. Included are medical-surgical acute, pediatric, and psychiatric (isolation) units. These units are staffed with specially trained nursing personnel and contain monitoring and specialized support equipment for patients who, because of shock, trauma, or life-threatening conditions, require intensified, comprehensive observation and care. These units may also include cardiac care when such services are not provided in a distinct cardiac care unit.

**Long Term Acute Care Hospital Beds (LTACH):** An LTACH is a hospital within a hospital. These beds are decertified licensed beds in host facility that are then certified as LTACH beds to another facility. They contain long term acute care patients.

**Megavoltage Radiation Therapy:** The use of specialized equipment in the supervoltage and megavoltage (above one million volts) ranges for deep therapy treatment of cancer. This would include cobalt units, linear accelerators with or without electron beam

therapy capability, betatrons, and Van de Graff machines.

**Neonatal Intensive Care Unit:** Provides care to newborn infants of a more intensive nature than the usual nursing care provided in newborn acute care units, on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

**Obstetrics Unit:** Provides care to mothers following delivery, on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

**Occupancy:** Ratio of total inpatient days to total bed days in the reporting period. Bed days are the number of licensed beds times the number of days in the period, adjusted for changes in the number of beds during the period.

**Open-Heart Surgery Facility:** The equipment and staff necessary to perform open-heart surgery.

**Organ Transplant:** The necessary staff and equipment to perform the surgical removal of a viable human organ, other than the kidney, from either of living donor or a deceased person immediately after death, and the surgical grafting of the organ to the suitably evaluated and prepared patient.

**Organized Outpatient Department:** Organized hospital services (or clinics) for the provision of nonemergency medical and/or dental services for ambulatory patients.

**Outpatient Visits:** Visits by patients who are not lodged in the hospital while receiving medical, dental, or other services. A visit consists of one or more occasions of service. Each test, examination, treatment, or procedure rendered to an outpatient counts as one occasion of service.

**Pediatric Inpatient Unit:** Provides acute care to pediatric patients on the basis of physicians' orders and approved nursing care plans. Beds must be set up and staffed in a unit specifically designated for this purpose.

**Physical Therapy Services:** Services and use of facilities prescribed by physicians and administered by or under the direction of a qualified physical therapist.

**Psychiatric Inpatient Unit:** Provides acute care to emotionally disturbed patients, including patients admitted for diagnosis and those admitted for treatment of psychiatric problems, on the basis of physicians' orders and approved nursing care plans. May also

include the provision of medical care, nursing services, and supervision to the chronically mentally ill, mentally disordered, or other mentally incompetent persons. Beds must be set up and staffed in a unit(s) specifically designated for this service.

**Rehabilitation Inpatient Unit:** Provides coordinated multidisciplinary physical restorative services to ambulatory patients under the direction of a physician knowledgeable and experienced in rehabilitative medicine.

**Surgical Operations:** Those surgical operations, whether major or minor, performed in the operating room(s). A surgical operation can involve one or more surgical procedures, but is considered only one surgical operation.

**Swing Beds:** Licensed acute care beds designated to be used alternately for acute or skilled nursing care.

## Appendix B

### 2005 Annual Hospital Utilization And Services Report

#### Facility Comments By ADD

ADD	Section	Comments
1		
Lourdes Hospital	Census	The Observation Patients shown are patients that were not admitted. We do not track patients that were initially Observation status and subsequently admitted.
Marshall County Hospital	Census	Observation patients subsequently admitted data is not available.
Marshall County Hospital	Utilization	Changed to Critical Access Hospital status in December 1, 2005.
2		
Crittenden County Hospital	Utilization	10 acute beds are dually licensed as swing beds and therefore included in both acute and swing beds. Had 2 OB beds until August 2005, when services was discontinued.
Crittenden County Hospital	IntensiveCare	Obstetric services terminated in August 2005 due to OB physician retiring from practice.
Crittenden County Hospital	Census	Swing beds are dually licensed as swing and acute beds-there are 48 total beds. None of the above observation patients were admitted.
Crittenden County Hospital	AmbSurg	Non surgical procedures were endoscopies.
FHC Cumberland Hall	Chem2	No data is maintained to sort alcoholism, drugs & alcohol & drugs. Patients are not discharged and readmitted when detoxification ends and rehabilitation is initiated. Detox and rehab CD patients in excess of the 4 specifically licensed beds overflow and are housed on adult psychiatric unit.
FHC Cumberland Hall	Chem1	Chemical dependency occupancy rate was 138%. This rate was due to the utilization of emergency chemical dependency admissions to our general psychiatric beds. This increase was counted only one time in the total census number and thus did not exceed our overall occupancy rate. Our overall occupancy rate for the entire hospital for the year averaged 83.5%.
Livingston Hosp And Healthcare Svcs	SurgicalServices	Unable to extract Laboratory Outpatient Visits.
Regional Medical Center of Hopkins Co	Utilization	We have 20 beds for our Transitional Care unit, admissions there were 609, Inpt days 4936, discharges 612 and Number of d/c days 4936.

<b>ADD</b>	<b>Section</b>	<b>Comments</b>
Western State Hospital	Utilization	The reason that our discharge days are significantly larger this year is because we discharged a patient who was here since 1962. His total days were 15,571. If the total days were reduced by that number, they would be more in line with previous years.
3		
Methodist Hospital	AmbSurg	7 Vertebroplasties under flouroscopy and 42 procedures involving implantation of permanent spinal cord lead/leads and pulse generator.
Ohio County Hospital	Census	Unable to determine the number of observation patients admitted.

Jewish Hospital	IntensiveCare	ICU and CCU inpatient days are combined.
Jewish Hospital	Census	Jewish Hospital is unable to extrapolate observation patients subsequently admitted at this time. Jewish Hospital has licensed beds for 442. However, 30 of those beds have been certified as LTAC.
Jewish Hospital	Utilization	Jewish Hospital has 442 licensed beds, 30 of those beds are leased to Kindred Hospital for the LTAC unit.
Jewish Hospital Shelbyville	AmbSurg	We answered C-1 as if it applies to OR's used exclusively for ambulatory surgery. None of our OR's are used exclusively for inpatient or outpatient surgery. Also, we have a manual scheduling system and no way to determine an accurate number of total surgical hours.
Jewish Hospital Shelbyville	Census	We are licensed for 6 Skilled Nursing Facility beds, no swing beds, as is noted in the 2006 listing above.
Kindred Hospital Louisville	Utilization	Data submitted includes main campus of Kindred Hospital Louisville and excludes off-site satellite unit Kindred Hospital Louisville at Jewish Hospital.
Norton Audubon Hospital	AmbSurg	Anesthesia injection spinal canal, anesthesia inject joint
Norton Southwest Hospital	AmbSurg	Anesthetic injection spinal canal
Norton Suburban Hospital	IntensiveCare	Norton Suburban currently is licensed for 10 Level III beds and has utilized 15 additional continuing care nursery beds in the past. The excess occupancy rate for last year resulted due to an inability to transfer to another Level III unit.
Norton Suburban Hospital	AmbSurg	Anesthesia injection spinal canal, anesthetic inj periph nerve, anesthetic inj symph nerve
Ten Broeck Dupont	Chem2	The 12 beds for CD include both detox and rehabilitation. There are not separate beds for rehab.

<b>ADD</b>	<b>Section</b>	<b>Comments</b>
Ten Broeck Hospital	Chem1	Based on inpatient patient days for CD beds the occupancy rate was 112.6%. However, upon further review, we utilized psychiatric beds during the year for CD emergency admissions, and calculate that approximately 560 inpatient days of the 4933 were patients admitted to psych beds with a primary diagnosis of CD. We also review total inpatient days for the 2005, and the % of occupancy was 95.6% of total licensed beds of 94. Also, the total average daily census for 2005 was 90.15 broken down as follows: 76.69 psych and 13.46 CD. This means we had approximately 5 psych beds which were available for possible CD admissions if needed.
Ten Broeck Hospital	Chem2	We have a total of 12 beds for detox and rehabilitation for chemical dependency.
University Of Louisville Hospital	AmbSurg	Acute pain in OR - 606; epidurals - 770; blocks - 420; and injections - 1,047.
