1999 KENTUCKY ANNUAL LONG-TERM CARE REPORT

INTRODUCTION

The Health Policy Development Branch of the Division of Epidemiology and Health planning announces the release of the 1998 Kentucky Annual Long-Term Care Report. This branch, established in July 1996, is now responsible for utilization data collection and reporting required by 902 KAR 20:008.

This report covers the period from January 1, 1999 to December 31, 1999, for all facilities in compliance with licensing and regulation reporting requirements. Several facilities failed to report any data for this survey period. See "Notes" section at the end of this report.

Data in this report is organized by Area Development Districts (ADDs) and county where each facility is located.

The definitions of terms in this report are:

Long-Term Care:

A facility licensed by the state through the Division of Licensing and Regulation providing one or more of the following levels of care:

Nursing Facility (NF) - Long-term care facilities, formerly skilled nursing, nursing home, or intermediate care facilities prior to October 1, 1990, which meet the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) nursing home reform requirements. Nursing facilities must be certified to participate in the Medicare program in order to be certified for participation in Medicaid, with the exception of those who have obtained a Medicaid nursing requirement waiver.

Skilled Nursing (SN) - Establishments with medical staffs and permanent facilities that include inpatient beds, and with medical services, including physician services and continuous nursing services; that provide treatment for patients who require inpatient care but are not in an acute phase of illness and who currently require primarily convalescent or restorative services, and who have a variety of medical conditions.

Nursing Home (NH) - Establishments with permanent facilities that include inpatient beds, and with medical services including continuous nursing service; that provide treatment for patients who require inpatient care but do not currently require continuous hospital services.

Intermediate Care (IC) - Establishments with permanent facilities and health related services for patients who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through

institutional facilities on an inpatient basis.

Alzheimer's Facility (ALZ) - A long term care facility constructed and operated pursuant to KRS.216B.071 which provides care to residents with a primary diagnosis of Alzheimer's disease or related disorders.

ICF/MR - A facility licensed by the state through the Division of Licensing and Regulation to provide care for the mentally retarded and developmentally disabled.

Total Patient Days:

Sum of daily patient census.

Days in Period:

1999 had 365 days.

Licensed Beds:

Number and type of beds for which the facility has been licensed at the end of the reporting period.

Percent Occupancy:

Total days divided by potential patient days.

Potential Patient Days:

Number of licensed beds x the number of days in the reporting period (adjusted to reflect changes in licensed beds during the reporting period). This figure is not shown in the report but used to calculate occupancy percentages.

Reporting Period:

January 1, 1999 to December 31, 1999

Nursing Facility Special Note: If a facility converted Skilled Nursing (SN), Nursing Home (NH), or Intermediate Care (IC) beds to NF beds during this reporting period, all resident activity in these beds was considered to be NF for the entire period regardless of the date of the change.

This report now becomes the official data on long-term care utilization published by the Cabinet for Health Services.

TABLE OF CONTENTS

DATA ANALYSIS - OCCUPANCY RATES	iv - vi
SECTION I - CENSUS DATA.....	1 - 76
Includes Number of Licensed beds, Beginning Census, Admissions, Discharges, Ending Census, Total Patient Days, and Occupancy Percentage for each bed type.	
Licensed Nursing Facility Beds	1
Licensed Personal Care Beds.....	39
Licensed Skilled Nursing Facility Beds.....	70
Licensed Nursing Home Beds.....	71
Licensed Intermediate Care Beds	73
Licensed Alzheimer’s Facility Beds	74
Licensed ICF/MR Facilities	75
SECTION II - PAYOR SOURCE DATA.....	77-129
Includes primary payor source data in number of patients days for each bed type.	
Licensed Nursing Facility Beds	77
Licensed Personal Care Beds.....	104
Licensed Skilled Nursing Facility Beds.....	125
Licensed Nursing Home Beds.....	126
Licensed Intermediate Care Beds	128
Licensed Alzheimer’s Facility Beds	129
Licensed ICF/MR Facilities	130
SECTION III - PATIENT AGE DISTRIBUTION DATA	132-185
Includes the ages of patients residing in each facility on December 31, 1999.	
Licensed Nursing Facility Beds	132
Licensed Personal Care Beds.....	156
Licensed Skilled Nursing Facility Beds.....	179
Licensed Nursing Home Beds.....	180
Licensed Intermediate Care Beds	182
Licensed Alzheimer’s Facility Beds	183
Licensed ICF/MR Facilities	184
SECTION IV - NOTES	187-190

Data Analysis - Occupancy Rates

The following table and graphs present statistics from the Kentucky Annual Long-Term Care Reports from 1995 to 1999. In the published reports for 1996 and 1997, the data was reported in Medicaid Managed Care Partnership Regions rather than in Area Development Regions (ADDs) as they were in 1995, 1998, and 1999. The data extracted from the 1996 and 1997 reports was recalculated using the ADD regions rather than the MCPR regions so that a comparison could be made across these years. A map of the Area Development Districts is included at the end of this section.

The occupancy rate for licensed Nursing Facility beds has decreased over the past 5 years by 1.4% from 95% in 1995 to 93.6% in 1999. The following chart shows the decrease in occupancy for the last 5 years. The decline was continuous from 1995 through 1998 with a very small increase in 1999 (.05%) which is likely not statistically significant. The following table shows data for each year by ADD. Occupancy fell in all but 3 of the 15 ADDs and a chart shows a graphical interpretation of the data. The decline in occupancy ranged from 1.50% to 4.14%. The three ADDs that did show an increase in occupancy rose by .32% in the Lincoln Trail ADD, by 1.95% in the Bluegrass ADD and by 5.43% in the FIVCO ADD. However, in the FIVCO ADD showed occupancy for 1999 of 93.63% so the increase in occupancy has seemed not to have resulted in a nursing facility bed shortage in that area.

The occupancy rates for Personal Care beds has increased by 5.45% within this time period. The occupancy rates for licensed Skilled Nursing beds, licensed Intermediate Care beds and licensed Nursing Home beds has also increased. The highest occupancy rates were seen in the Intermediate Care beds with a rate of 99.16% and the lowest was in the Personal Care beds at 81.55%. In 1995 Personal Care bed occupancy was only 76.10%. Further data on the occupancy rates by bed type are presented on the following table.
