

# The Kentucky Laboratory Sentinel

November/December 2005

## Workshops 2006

We are currently in the planning stages for 2006 workshops. We plan to offer packaging and shipping and Sentinel workshops. To help us in our planning, we would like some input from you. Items that we are addressing are:

What months are convenient for travel?

Would participants be able to travel for more than one day? (Back to back workshops - Packaging/Sentinel workshop)

These workshops are for you!

Please email [leighann.bates@ky.gov](mailto:leighann.bates@ky.gov) with any suggestions for content and any ideas you may have.

Take time to relax during the holiday season. The top 10 Christmas movie picks from E-online are:

10. National Lampoon's Christmas Vacation
9. White Christmas
8. Black Christmas
7. A Charlie Brown Christmas
6. A Christmas Carol
5. The Nightmare Before Christmas
4. A Christmas Story
3. How the Grinch Stole Christmas
2. It's a Wonderful Life
1. **Miracle on 34th Street**

## Health Alert Network (HAN)

Please try to log on to the HAN system. Only 13 out of 66 labs have signed on. I will send out an alert sometime in January so everyone can see how the system works. If you are having problems logging on or have forgotten your log-in information please email me or the help desk.

Help Desk (877) 545-6175 or [chfs.kyephrs@ky.gov](mailto:chfs.kyephrs@ky.gov)

## IATA Job Aid

If you need a reference for packaging and shipping of infectious materials, go to <http://www.icao.int/icaonet/dcs/9284.html> and click on guidance document.

This guidance provides

1. Flow charts
2. Diagrams of packaging
3. Definitions
4. Covers exempt specimens
5. Classification examples

I hope this document will help clarify questions you may have.

Happy Holiday's from the KY Public Health Lab!
