2003 Kentucky Annual Long-Term Care Report

INTRODUCTION

The Health Policy Development Branch of the Division of Epidemiology and Health Planning announces the release of the 2003 Kentucky Annual Long-Term Care Report. This branch is responsible for the utilization data collection and reporting required by 902 KAR 20:008 (rev. 2-16-01) and in support of the State Health Plan 902 KAR 17:041.

This report covers the period from January 1, 2003 to December 31, 2003. The files received from the Office of Inspector General (OIG), Division of Licensure and Regulation contained 414 Long Term Care Facilities. Correspondence or surveys were received from all facilities. The number of facilities has decreased from 428 Long Term Care Facilities in 2002. One facility had a transfer of ownership on December 31, 2002 and no data was received from the former owner.

The 2003 overall occupancy rate for nursing facility beds is 90.36% down from 91.14% in 2002. This continued the trend that began in 1995, with the exception of 1999, of decreasing annual occupancy in the Nursing Facilities (NF). The highest occupancy rate was 95.00% for the survey year 1995.

The ending census or the number of NF beds occupied December 31, 2003, was 22,926 compared to 23,411 occupied beds on December 31, 2002. These beds provided 8,489,498 patient days of care in 2003 compared to 8,520,237 in 2002.

While NF Beds occupancy rate for 2003 was down by .78% and the total patient days for NF decreased by 30,339. The occupancy rate for Personal Care (PC) rose by 1.77% but the total patient days decreased by 95,778 days. The decrease in patient days was due to a decrease of 615 PC beds in 2003.

***Special Note:** The 2003 Payor Source, Section 2, for total patient days as reported by the NFs shows the following distribution. The total number of reimbursed days by primary payor source for nursing facilities is 8,466,574 days or (.8%) less than 2002. Medicare paid days increased by 68,319 from the 2002 report and Medicaid paid days were

143,127 (2.8%) less in 2003 than the previous report year. This is the second year that the number of Medicaid paid days has decreased by a substantial amount.

The definitions of terms in this report are:

Long-Term Care:

A facility licensed by the state through the Division of Licensing and Regulation providing one or more of the following levels of care:

Nursing Facility (NF) - Long-term care facilities, formerly skilled nursing, nursing home, or intermediate care facilities prior to October 1, 1990, which meet the Omnibus Budget Reconciliation Act of 1987 (OBRA 87) nursing home reform requirements. Nursing facilities must be certified to participate in the **Medicare program in order to be certified for participation in Medicaid**, with the exception of those who have obtained a Medicaid nursing requirement waiver.

Skilled Nursing (SN) - Establishments with medical staffs and permanent facilities that include inpatient beds, and with medical services, including physician services and continuous nursing services; that provide treatment for patients who require inpatient care but are not in an acute phase of illness and who currently require primarily convalescent or restorative services, and who have a variety of medical conditions.

Nursing Home (NH) - Establishments with permanent facilities that include inpatient beds, and with medical services including continuous nursing service; that provide treatment for patients who require inpatient care but do not currently require continuous hospital services.

Intermediate Care (IC) - Establishments with permanent facilities and health related services for patients who do not require the degree of care and treatment which a hospital or skilled nursing facility is designed to provide, but who, because of their mental or physical condition, require care and services (above the level of room and board) which can be made available to them only through institutional facilities on an inpatient basis.

Alzheimer's Facility (ALZ) - A long-term care facility constructed and operated pursuant to KRS.216B.071 that provides care to residents with a primary diagnosis of Alzheimer's disease or related disorders.

Intermediate Care Facility for the Mentally Retarded (ICF/MR) - A facility licensed by the state through the Division of Licensing and Regulation to provide care for the mentally retarded and developmentally disabled.

Total Patient Days:

The total days of patient care provided by the facility for the year based on its capacity. It is calculated by summing the daily patient census for each day in the reporting period.

Days in Period:

2003 had 365 days.

Licensed Beds: The number and type of beds for which the facility has been licensed at the end of the reporting period.

Percent Occupancy:

Total days divided by potential patient days.

Potential Patient Days:

Number of licensed beds x the number of days in the reporting period (adjusted to reflect changes in licensed beds during the reporting period. Example: 100 licensed beds X 365 (days in 2003) equals 36,500 potential days.

This figure is not shown in the report but used to calculate occupancy percentages.

Reporting Period:

January 1, 2003 to December 31, 2003

Nursing Facility Special Note: If a facility converted Skilled Nursing (SN), Nursing Home (NH), or Intermediate Care (IC) beds to NF beds during this reporting period, all resident activity in these beds was considered to be NF for the entire period regardless of the date of the change.

This report now becomes the most recent official data on Long Term Care services utilization published by the Cabinet for Health Services. For additional copies of this report, please submit a request in writing along with a check in the amount of \$15 made payable to the Kentucky State Treasurer to:

TABLE OF CONTENTS

DATA ANALYSIS - OCCUPANCY RATES	iv - x
SECTION I - CENSUS DATA	1 - 78
Includes Number of Licensed beds, Beginning Census, Admissions, Discharges, Ending Census, Total Patient Days, and Occupancy Percentage for each bed type.	
Licensed Nursing Facility Beds by Area Development District	1
Licensed Nursing Facility Beds.....	2
Licensed Personal Care Beds by Area Development District.....	40
Licensed Personal Care Beds	41
Licensed Skilled Nursing Facility Beds	70
Licensed Nursing Home Beds	71
Licensed Intermediate Care Beds	75
Licensed Alzheimer's Facility Beds	76
Licensed ICF/MR Facilities.....	77
 SECTION II - PAYOR SOURCE DATA.....	 79-136
Includes primary payor source data in number of patient days for each bed type.	
Licensed Nursing Facility Beds.....	79
Licensed Personal Care Beds.....	111
Licensed Skilled Nursing Facility Beds	128
Licensed Nursing Home Beds	129
Licensed Intermediate Care Beds	133
Licensed Alzheimer's Facility Beds	134
Licensed ICF/MR Facilities.....	135
 SECTION III - PATIENT AGE DISTRIBUTION DATA.....	 137-199
Includes the ages of patients residing in each facility on December 31, 2002.	
Licensed Nursing Facility Beds.....	137
Licensed Personal Care Beds.....	169
Licensed Skilled Nursing Facility Beds	191
Licensed Nursing Home Beds	192
Licensed Intermediate Care Beds	196

Licensed Alzheimer’s Facility Beds	197
Licensed ICF/MR Facilities.....	198
SECTION IV - PATIENT DEATH DISTRIBUTION DATA	200-260
Includes the ages of patient deaths in each facility on December 31, 2002.	
Licensed Nursing Facility Beds.....	200
Licensed Personal Care Beds.....	229
Licensed Skilled Nursing Facility Beds	252
Licensed Nursing Home Beds	253
Licensed Intermediate Care Beds	257
Licensed Alzheimer’s Facility Beds	258
Licensed ICF/MR Facilities.....	259
SECTION V – Nursing Facility by County	261
SECTION VI - NOTES	300
SECTION VII – PATIENT ORIGIN DATA	301

Data Analysis - Occupancy Rates

The following table and graphs present statistics from the Kentucky Annual Long-Term Care Reports from 1995 to 2003. In the published reports for 1996 and 1997, the data was reported in Medicaid Managed Care Partnership Regions (MCPR) rather than in Area Development Districts (ADDs). The survey data were recalculated using the ADDs so that a linear comparison could be made. A map of the ADDs is included at the end of this section.

LTC facilities continue to be an important segment of the continuum of care in Kentucky. Hospital discharge for 2003 shows a total of 275,868 patients age 44 and older were discharged from Kentucky Acute Care hospitals for all DRGs. Of the 157,946 females discharged 21,909 or 14% were discharged to a skilled or intermediate care facility. Males discharged to skilled or intermediate care facilities remained at 9% of total male hospital discharges with 117,918 males discharged from acute care hospitals and 10,951 of these discharges placed in skilled or intermediate care facilities.

The occupancy rate for licensed Nursing Facility beds has decreased over the past nine years by 4.64% from 95% in 1995 to 90.36% in 2003. The following chart shows the decrease in occupancy for the last eight years. The decline has been continuous from 1995 through 1998 with a very small increase in 1999 (.05%), which is likely not statistically significant. The occupancy rate declined from negative 3.9% to negative 4.64%. The following table shows data for each year by ADD. From 1995 to 2003, occupancy fell in all but two of the fifteen ADDs. An attached chart shows a graphical interpretation of the data.

The number of licensed Nursing Home (NH) has increased from 451 beds in 2002 to 580 (.78%) NH beds in 2003 and patient's days have increased from 144,597 to 165,463 in 2003. The occupancy for NH beds declined from 88.96% in 2002 to 81.76% (8.65%) for 2003.

Further data on the occupancy rates by bed type are presented on the following charts and table.

Printed with state funds.

An Equal Opportunity Employer
