

2006 State Fair

The Kentucky State Fair is Aug. 17-27 in Louisville, and the Cabinet is once again reaching out to its 700,000 visitors. This year, with the theme "Wellness – A Life Connection," staff will be encouraging guests to make healthy choices every day. Cardiovascular health, nutrition, physical activity and abuse prevention are a few of the several programs to be spotlighted. Look for the Cabinet's booth in the Fair and Exposition Center's South Wing. [Visit the Official Web site to learn more about what's going on at the fair.](#)
