### **Gov. Beshear Provides Update on COVID-19**

**FRANKFORT, Ky. (Dec. 30, 2020)** – On Wednesday, Gov. Andy Beshear updated Kentuckians on COVID-19 case information and encouraged safe and small New Year’s celebrations, ideally with just one household.

“Our report for today is higher than it has been for a number of days. The progress we have made is fragile. We have to keep working and making good decisions every day,” said Gov. Beshear. “We need everybody to be safe this New Year’s Eve. Do not gather in large groups.”

The Governor said the state’s elevated positivity rate today may be the result of some labs and public testing sites closing for the holidays this week, increasing the percentage of tests conducted in medical settings where patients are already experiencing symptoms and suspect they may have the virus.
