FORM ACF-696 PAGE 1 OF 1
Instructions for Completion of Form ACF-696 Financial Reporting Form for the Child Care and Development Fund (CCDF)

OVERVIEW

Pursuant to CCDF regulations at 45 CFR 98.65(g), and as part of the terms and conditions of the grant award, States and Territories are required to complete and submit a quarterly financial status report (ACF-696) in accordance with these instructions on behalf of the CCDF Lead Agency.

The ACF-696 form and instructions can be found on the Office of Child Care (OCC) website at: http://www.acf.hhs.gov/programs/occ/report/index.htm

SUBMISSION AND DUE DATES

This form must be submitted quarterly (reports are due 30 days after the end of the quarter) by January 31, April 30, July 31 and October 31.

States must submit quarterly reports for each fiscal year until all funds are expended. CCDF funds may be available for use in more than one fiscal year. As a result, a Lead Agency will likely submit separate ACF-696 forms for multiple grant award years simultaneously.

States are encouraged to submit their ACF-696 reporting forms electronically via the ACF On-Line Data Collection (OLDC) system. The web address is: https://extranet.acf.hhs.gov/ssi/

Grantees that elect not to submit electronically must submit two copies:

- One copy with an “original signature” submitted to:

  Administration for Children and Families  
  Office of Administration  
  Office of Grants Management  
  Division of Mandatory Grants (CCDF)  
  330 C Street SW  
  Washington, DC 20201
• A signed copy submitted to the ACF Regional Child Care Program Manager. Contact information can be found at: http://www.acf.hhs.gov/programs/occ/resource/regional-child-care-program-managers

GENERAL INSTRUCTIONS

• Round all entries to the nearest dollar.
• Enter State Name
• The term “State” as used in this document also includes Territories except when specifically referring to Mandatory and Matching funds. Territories do not receive Mandatory or Matching funds.
• Include costs of contracts and subcontracts in the appropriate reporting category based on their nature or function.
• Enter the Fiscal Year (the award year) for which this report is being submitted. Fiscal years will run simultaneously so it is important to indicate the year for which information is being reported.
• Enter the Grant Document Number.
• Indicate whether this is a new report, a revision of a report previously submitted for the same period or a final report.
• Enter the ending date for the report quarter (the quarter just ended which constitutes the report of cumulative obligations or expenditures).
• Enter the beginning date of the next quarter beginning after submission of this report, for which estimates are being provided on line 8. For example, if the report quarter ends on September 30, then the beginning date of the next quarter beginning after submission of this report will be January 1.
• Enter at the top of column (B) the Federal Medical Assistance Percentage (FMAP) Rate used by the State. FMAP tables can be found at the following website: https://aspe.hhs.gov/federal-medical-assistance-percentages-or-federal-financial-participation-state-assistance-expenditures

COLUMNS – CCDF FUNDING STREAMS

The CCDF program has a number of fiscal requirements associated with multiple funding streams that comprise the block grant. The ACF-696 form has separate columns for reporting of expenditures from each of these component funding streams. All amounts reported in columns
(A), (B), (C), and (D) must be actual obligations or expenditures made under the State's plan and in accordance with all applicable statutes and regulations.

- **Column (A): Mandatory Funds.** Appropriated under section 418(a)(3) of the Social Security Act (SSA), 42 USC 618(a)(3). Mandatory funds are 100% Federal funds and are available until expended.

- **Column (B): Matching Funds.** The Federal share of the Matching fund is the remaining amount appropriated under section 418(a)(3) of the SSA after Mandatory funds are allotted. In order to receive the full allotment of Matching funds for a fiscal year, a State must: (1) expend its Maintenance of Effort (MOE) requirement by the end of the award year fiscal year; and (2) obligate all Mandatory funds in the first year of the grant period. State expenditures in excess of the MOE requirement are matched at the Federal Medical Assistance Percentage (FMAP) Rate. The State share of Matching expenditures must be for allowable services or activities as described in the approved State Plan as appropriate, that meet the goals and purposes of the Child Care and Development Block Grant Act of 1990 (CCDBG Act). The same expenditure may not be counted as both State Match and State MOE.

- **Column (C): Discretionary Fund.** Authorized by the CCDBG Act, 42 USC 9858 et seq. Discretionary funds are 100% Federal funds and include Targeted funds.

States may transfer up to 30% of their TANF grants to CCDF and these funds are then treated as Discretionary CCDF funds. States wishing to transfer funds back to the TANF block grant must do so within the two-year obligation period for CCDF Discretionary funds (see obligation/liquidation table below).

- **Column (D): Maintenance-of-Effort (MOE).** Section 418(a)(2)(C) of the Social Security Act, 42 USC 618(a)(2)(C) requires States to spend a specified amount of non-Federal funds on child care in order to claim Federal match from the Matching Fund. This State MOE must be expended on allowable services or activities as described in the approved State Plan as appropriate, that meet the goals and purposes of the CCDBG Act. The same expenditure may not be counted as both State Match and State MOE.

---

1 As stated above, the Federal Medical Assistance Percentage (FMAP) Rate used by the State should be entered at the top of the column. FMAP tables can be found at the following website: https://aspe.hhs.gov/federal-medical-assistance-percentages-or-federal-financial-participation-state-assistance-expenditures

Lead Agencies must follow the applicable obligation and liquidation periods when expending and accounting for CCDF grant funds. The table below indicates obligation and liquidation requirements for each of the CCDF funding streams.

**CUMULATIVE FISCAL YEAR TOTALS**

All amounts reported must reflect expenditures of CCDF funds made in accordance with the approved State Plan and applicable statutes and regulations. Amounts should be reported on a cumulative basis.

* The State should only enter expenditures of State Match and MOE funds up to the required amount or maximum amount (the State share amounts indicated on the CCDF Funding Allocations tables available at: [http://www.acf.hhs.gov/programs/occ/resource/ccdf-state-and-territory-funding-allocations](http://www.acf.hhs.gov/programs/occ/resource/ccdf-state-and-territory-funding-allocations). The State should not report any additional or “excess” State funds above the required MOE amount or above the maximum State share amount in these columns.

**Line 1(a) - Child Care Administration**

Not more than 5% of the aggregate amount of Discretionary, Mandatory, and Federal and State shares of Matching fund expenditures from each fiscal year’s allotment may be used for administrative activities. Therefore, at the end of the liquidation period no more than 5% of Line 1 can be claimed for child care administration at Line 1(a). Expenditures reported in column (D) are not subject to the 5% limitation.

**By the end of the liquidation period, Line 1(a) columns A + B + C ≤ (must be less than or equal to) 5% of Line 1 columns A + B + C.**

Expenditures of Targeted funds do not count towards the minimum quality expenditure requirement included in Line 1(b). These are considered additional quality expenditures.

Examples of School-Age/ Resource and Referral targeted funds activities include:

- Scholarships/provider training;
- Technical assistance;
- Development of school-age care credentials;
- Hiring school-age child care specialists to help coordinating training and technical assistance or engage in funding issues and negotiating interagency agreements;
- Grants to start-up, expand or improve school-age child care;
- Contracts with community-based agencies to provide child care resource and referral services;

**Line 1(f) - Infant/Toddler Quality Activities**

Beginning with the FY 2017 CCDF award, at least 3% of the aggregate amount of Discretionary, Mandatory, and the Federal and State shares of Matching fund expenditures from each fiscal year’s allotment must be used for activities to improve the quality of care for infants and toddlers. Therefore, at the end of the liquidation period, no less than 3% of Line 1 (columns A + B + C) must be claimed for this activity.

Examples of infant/toddler quality activities: [Section 658G (b)]

- Establishing or expanding high-quality community or neighborhood-based family and child development centers, which may be a resource to child care providers to improve the quality of services available for infants and toddlers from low-income families and help providers improve their capacity to offer high-quality, age-appropriate care to infants and toddlers from low-income families;
- Establishing or expanding the operation of community or neighborhood-based family child care networks;
- Promoting and expanding child care providers’ ability to provide developmentally appropriate services for infants and toddlers;
- Developing infant and toddler components in the State’s quality rating and improvement system (QRIS), licensing regulations, and the early learning and development guidelines; Improving the ability for parents to access transparent and easy to understand consumer information about high-quality infant and toddler care; and,
• Providing health and safety training, including training in safe sleep practices, first aid, and cardiopulmonary resuscitation (CPR) for child care providers and caregivers working with infants and toddlers.

**Line 1(g) – Direct Services**

The direct services category consists solely of expenditures for child care subsidies to eligible children. Child care subsidies may be provided through certificates (or vouchers) or through grants or contracts to providers.

The costs of eligibility determination and re-determination are considered a non-direct service activity and should be reported at Line 1(h).

If the CCDF Lead Agency sub-contracts the operation of the child care program to another entity (whether a State or non-State entity) the Lead Agency continues to be responsible for reporting only the portion of the sub-contract or sub-award which was expended on child care subsidies in this category. Some Territorial Lead Agencies may run their own child care centers serving CCDF-eligible children and these expenditures (less any administrative, non-direct service, or quality activities costs) would also be considered direct services.

Line 1(h) – Non-Direct Services

Non-direct services are the costs of providing child care subsidies (operating a voucher program and eligibility determination) or other program activities that are not considered administrative costs under the definition at 45 CFR 98.52 of CCDF regulations.

Note that costs associated with State compliance with Subpart K – Error Rate Reporting of CCDF regulations are not subject to the administrative costs cap and should be reported as non-direct service expenditures on Lines 1(h) and 1(h)(2).

Line 2 - State Share of Expenditures

In order to receive their full allotment of Federal Matching funds for a fiscal year, States must expend their required Maintenance-of-Effort (MOE) amount and obligate the State share of Matching expenditures in the first year of the grant award.

In column (B) – Matching Funds, the amount reported may not exceed the total of the State’s share of the Matching fund required to draw down the full allotment of Federal Matching funds. This amount is based on the State’s FMAP rate.

Similarly, in column D – MOE, the amount reported may not exceed the amount of the State’s MOE requirement. Any additional State expenditures that exceed the State’s share of the Matching fund and the MOE requirement should not be reported on the ACF-696 form. (See CCDF allocation tables for the State share Match and MOE requirements at: http://www.acf.hhs.gov/programs/occ/resource/ccdf-state-and-territory-funding-allocations)

For each column (B and D), Line 2 is equal to 2(a)+2(b)+2(c)

The following sub-categories for State share of expenditures are included on the ACF-696 form reporting expenditures under Line 2:

**Line 2(a) – Regular:** All public funds used by the State as the State share of the Matching fund that are not privately donated funds or public pre-kindergarten (pre-K) expenditures are to be included in this category. State expenditures of non-Federal funds must be for allowable child care services or activities, as described in the approved State Plan. State share of expenditures may include public funds when the funds are appropriated directly to the Lead Agency or transferred from another public agency and under the Lead Agency’s administrative control, or certified by the contributing public agency as representing expenditures eligible for Federal match. The same expenditures may not be used to meet both the Match and MOE requirements under CCDF.

The following may **not** be used as State share of expenditures [See 45 CFR 98.53(i) & (g)]:

- Federal funds (unless authorized by Federal law to be used as match);
- Funds used to match other Federal funds;
- In-kind contributions;
- Family contributions to the cost of care (i.e., family co-payments); and
- Expenditures for which the use of Federal CCDF funds is prohibited.

**Line 2(b) - Private Donated Funds:** Private donated funds reported in column (D) must meet the requirements of CCDF regulations at 45 CFR 98.53(e)(2). Private donated funds may be used as State Match when the donated funds are made without any restriction that would require their use for a specific individual, organization, facility or institution; do not revert to the donor's facility or use; and are not used to match other federal funds.

The donated funds shall be certified as available and representing expenditures eligible for Federal match and shall be subject to audit requirements.

**Line 2(c) - Pre-K:** Public Pre-Kindergarten (Pre-K) expenditures on CCDF-eligible children may be used for up to 20% of the funds serving as MOE expenditures (column D) as long as the State has not reduced its expenditures for full day/full year child care services. A State may use other public Pre-K funds for up to 30% of the funds required for State Match (column B). States must include in the CCDF Plan, as provided in 98.16(q), a description of the efforts it will undertake to ensure that Pre-K programs meet the needs of working parents and, if the State uses Pre-K to meet more than 10% of either the MOE or Matching requirement, how the State will coordinate its pre-k and child care services to expand the availability of care.

Expenditures from State-funded public Pre-K services claimed as CCDF Match or MOE must be for services to children from families who meet CCDF eligibility criteria. ACF permits Lead Agencies that do not have child-specific information on children enrolled in Pre-K programs
to develop a methodology for calculating Pre-K expenditures for purposes of claiming Match and MOE. States may estimate the proportion of children served in the public Pre-K program who are also CCDF eligible (Also see 63 FR 39966). The methodology should take into consideration the number of children served by the Pre-K program who are from families who would be eligible for CCDF based on State income eligibility limits, participation in employment, training, or education activities, etc.

The Lead Agency is required to report the total unduplicated number of children served through the public Pre-K program that are determined to be CCDF eligible and for which CCDF Match and MOE expenditures were claimed, on the annual ACF-800 CCDF administrative data report. Additional information on the ACF-800 report can be found at: http://www.acf.hhs.gov/programs/occ/resource/acf-800-annual-aggregate-child-care-data-report

Line 6 - Transfer from TANF

States may transfer up to 30% of their TANF grant to CCDF. TANF funds transferred to CCDF are treated as Discretionary funds and are subject to the same requirements and restrictions (e.g.,
States must obligate their TANF transfers within two years and liquidate those obligations within three years. Funds reported in column (C) of Line 6 must also be reported in the categorical amounts entered in column (C) for other lines on the ACF-696.

States wishing to transfer funds back to the TANF block grant must do so within the two-year obligation period for CCDF Discretionary funds.

Amounts reported in column (B) – Matching funds, and remaining unobligated after the one-year obligation period will be returned to the Federal government and re-distributed. Amounts that are reported in column (C) – Discretionary funds, and remain unobligated after the two-year obligation period, will be returned to the Federal Government. [See obligation/liquidation period requirements on P.4]

Line 8 - Federal Funds Requested

This is the estimate of Federal funds being requested for the next reporting quarter. (This date is entered as the Next Quarter Beginning date in upper right hand corner of report.) All amounts reported on Line 8 are estimates of obligations or expenditures to be made during the quarter indicated based on the best information available to the State.

States may request up to 35% of their grant award allocation by the end of the 1st quarter, up to 70% of their allocation by the end of the 2nd quarter, and up to 85% of their allocation by the end of the 3rd quarter. Cash advances from PMS are limited to the minimum amounts needed and should be timed to be in accord with the actual immediate cash requirements of the State.

**RECONCILIATION OF PAYMENT INFORMATION**

Reconciliation of payment information will be required on all grants beginning with Federal Fiscal Year 2017.

To improve grant closeouts, financial transparency and financial management the On-Line Data Collection (OLDC) system will import payment data from the Payment Management System. These payment data will be displayed on the electronic version of the ACF-696 in OLDC and will allow the grantee to easily determine the difference, if any, between the amount of its reported expenditures and the amount of its reported cash receipts and disbursements.

Payment data can be updated in two ways: by the grantee’s designated Payment Management System (PMS) user which will then be transmitted to ACF on a regular basis; or an ACF Grants Management Specialist after reviewing the submission on an as needed basis. To submit a Final ACF-696 report via OLDC the Federal funds expended must be reconciled to Federal cash received and disbursed. Payment data is an aggregate of all mandatory, matching, discretionary, reallocated or redistributed funding. It is also cumulative.

The imported data from PMS will be from Form SF-425, the “Federal Financial Report (FFR):” Line 10a, Cash Receipts and Line 10b: Cash Disbursements.

From the instructions accompanying Form SF-425:

- Line 10a: Cash receipts line includes the cumulative amount of actual cash received from the Federal agency (PMS) as of the reporting period end date.

---

⁸ These estimated funds are for the quarter beginning after the submission of this report. For example, if the report quarter ends on September 30, then the beginning date of the next quarter beginning after submission of this report will be January 1.
Line 10b: Cash disbursements line includes the cumulative amount of Federal fund disbursements (such as cash or checks) as of the reporting period end date. Disbursements are the sum of actual cash disbursements for direct charges for goods and services, the amount of indirect expenses charged to the award, and the amount of the cash advances and payments made to subrecipients and contractors.

For the Final Form ACF-696 to be considered reconciled, Lines 10a and 10b from Form SF-425, and Line 3 column A plus Line 3 Column B and Line 3 column C from Form ACF-696 must each be the same amount.

An example is necessary for additional clarity.

Suppose that a grantee is awarded $10,000,000 in Mandatory funding, $5,000,000 in Matching funding and $7,000,000 in Discretionary funding.

**Case 1 Insufficient Reimbursement:** When the final report is due the grantee has received a total amount of payments (line 10a of the SF-425) in the amount of $19,000,000 and has reported disbursing $19,000,000 (line 10b of the SF-425). When the grantee sums their Mandatory, Matching, and Discretionary Federal share of expenditures the total amount is $22,000,000. The form is not reconciled. The grantee must request payment from their PMS account of an additional $3,000,000, so their Federal cash receipts and disbursements are sufficient to meet their reported Federal expenditures.

**Case 2 Excess Advance:** When the final report is due the grantee has received a total amount of payments (line 10a of the SF-425) in the amount of $19,000,000 and has reported disbursing $19,000,000 (line 10b of the SF-425). When the grantee sums their Mandatory, Matching, and Discretionary Federal share of expenditures the total amount is $18,000,000. The form is not reconciled. The grantee must return payment of the $1,000,000 to their PMS account to bring the payments in line with the expenditures.

**Case 3 and 4 Update Information:** When the final report is due the grantee has received a total amount of payments (line 10a of the SF-425) in the amount of $19,000,000 and has reported disbursing $22,000,000 (line 10b of the SF-425). When the grantee sums their Mandatory, Matching, and Discretionary Federal share of expenditures the total amount is $19,000,000. The form is not reconciled. The grantee must reconcile the different amounts being reported as received and as disbursed on Form SF-425 with the amount being reported as expended on Form ACF-696. This may require revising one or both reporting forms.

**Case 5 the Payments, Disbursements and Expenditures Match:** When the final report is due the grantee has received a total amount of payments (line 10a of the SF-425) in the amount of $22,000,000 and has reported disbursing $22,000,000 (line 10b of the SF-425). When the grantee sums their Mandatory, Matching, and Discretionary Federal share of expenditures the total amount is $22,000,000. The form is reconciled. Once submitted the form will confirm that the grant is reconciled and ready for closeout actions within the next 180 days.
REDISTRIBUTION AND REALLOTTMENT OF FUNDS

**Redistributed Matching Funds:** Any unobligated portion of a State’s Matching fund grant will be redistributed to requesting States that have met the requirements for Matching funds in the period for which the grant was first made. Redistributed Matching funds are considered part of the grant for the fiscal year in which the redistribution occurs, and are subject to obligation/liquidation requirements for that grant award year.

For the quarter ending September 30 report, States should mark **YES** if the State wants to request any redistributed Matching funds. A State requesting redistributed Matching funds may indicate if they wish to limit the amount received to a specific amount due to State funding limitations.

**Reallotted Discretionary Funds:** Any unobligated Discretionary funds will be reallotted to requesting States in proportion to the original allotments. Unlike reallotted Matching funds, reallotted Discretionary funds must be obligated and liquidated in the applicable periods for which they were originally awarded. For the quarter ending March 31 report, States should mark “**YES**” if the State would like to request any reallotted Discretionary funds should they become available.

**Please Note:** If reports are not received within 30 days after the end of the quarter (10/31 and 4/30 respectively), the State will **not** be eligible for reallotted funds.

**SIGNATURES**

This report must be signed and dated in the space provided, including the title, agency and phone number of the individual whose signature is shown.

**NOTE:** The individual who signs this report is certifying that: (a) the information provided on all parts of this form and all accompanying documents is accurate and correct; and (b) that any amount shown as the State share of obligations is or will be available to meet the non-Federal share as prescribed by law.

**SUPPLEMENTAL INFORMATION**

(45 CFR 98.66; 45 CFR 98.92)

Sanctions: In addition the imposition of penalties, HHS may impose sanctions to disqualify the Lead Agency from the receipt of further CCDF funding or an assessment of a penalty of not more than 4% of a Lead Agency’s Discretionary fund allotment for a fiscal year. (45 CFR 98.92(b))

Public reporting for this collection of information is estimated to average 5 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information.
