

# CABINET FOR HEALTH AND FAMILY SERVICES FATALITY/NEAR FATALITY REPORTING TABLE

---

## JUNE 2016

In accordance with the requirements of Section 106(b)(2)(B)(x), the state child welfare agency is required to publically disclose details related to fatalities or near fatalities caused by abuse or neglect.\*

In September 2012, the Children's Bureau (CB) issued revised policy establishing minimum requirements for disclosure regarding child fatalities and near fatalities that are a result of child abuse or neglect. (See Child Welfare Policy Manual Section 2.1A.4

[http://www.acf.hhs.gov/cwpm/programs/cb/laws\\_policies/laws/cwpm/policy\\_dsp.jsp?citID=68](http://www.acf.hhs.gov/cwpm/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=68))

States are now required to provide the following minimum information:

- The cause and circumstances regarding the child fatality or near fatality
- The age and gender of the child
- Information describing any previous reports of child abuse or neglect that are pertinent to the abuse or neglect that led to the child fatality or near fatality
- Information describing any previous investigations pertinent to the abuse or neglect that led to the child fatality or near fatality
- The results of any such investigations
- The services provided by the State and actions of the State on behalf of the child that are pertinent to the child abuse or neglect that led to the child fatality or near fatality

States are not required to identify the children, family, or household member associated with the fatality or near fatality.

\*This table is submitted annually with the APSR and posted on the Division of Protection and Permanency public web page (<http://chfs.ky.gov/dcbs/dpp/childandfamilyservicesplanning.htm>). The cases are reported on the State Fiscal Year (SFY) as they are resolved. Cases from the previous fiscal years that were not finalized at the time of submission in are added to subsequent year's tables and are noted with an asterisk (\*). Cases received after the child has died are coded as "F XX-XX". Cases that are received as a near fatality are coded as "NF XX-XX)

Number	Report Date(s)	Type of allegation(s)	Investigative Outcome(s)	Case Disposition(s)	Services Provided
<b>NF 03-15</b> A 14 year old male consumed a large volume of alcohol. The child was unmonitored for several hours. The foster parents waited several hours to seek medical attention.	07-05-2014	Neglect	Substantiated Death/Near Death	Closed	All foster children were removed from the home, and the private foster care agency closed their home. No other services were provided. There were no criminal charges.
	12-05-2008	Neglect	Unsubstantiated	Closed	Social work counseling related to appropriate supervision and having appropriate contact information for babysitters/alternate caregivers.
<b>NF 04-15</b> An 8 year old male suffered a fractured femur, fractured pelvis, and lacerated lip after being thrown from the bed of a pickup truck during a motor vehicle accident. The child's mother was driving while impaired at the time of the accident.	07-05-2014	Neglect	Substantiated Death/Near Death	Case opened  Closure on 9/17/2015	Individual therapy services Services in the community Social work counseling Substance abuse Substance abuse treatment Sole custody to non-offending parent
