

**What Does This Mean to Me?**

**Acquired Brain Injury – Long-Term Care (ABI-LTC) Waiver Amendment  
August 2024**

The Kentucky Department for Medicaid Services (DMS) completed a rate methodology study for most of its waiver services. As a result of this study, DMS is making amendments to all six 1915(c) waivers. In the ABI-LTC waiver, the changes in Appendix C relate to service units, the changes in Appendix I relate to updated rate methodologies, and the changes in Appendix J relate to updated cost estimates. To make changes to rates, DMS must hold a public comment period of at least 30 days before submitting the waiver amendment to CMS for approval.

To assist stakeholders in reviewing the waiver applications and making a public comment, we have included the key proposed updates included in the waiver application below. The full waiver application is available on the DMS Division of Long-Term Services and Supports website at <https://bit.ly/KYMedicaidLTSSInfo>. Instructions for submitting public comments are available in the [public comment notice](#).

DMS also recognizes that the current ABI-LTC waiver application includes a service that is not funded and / or available to participants per Kentucky Administrative Regulation. This service is *Community Guide*. DMS is required to keep this service in the waiver application temporarily to comply with federal Maintenance of Effort requirements as defined in Section 9817 of the American Rescue Plan Act. Once Maintenance of Effort requirements have expired, DMS plans to remove this service to address CMS’s feedback that this service is considered duplicative of other available waiver services. **In summary, this proposed amendment will not change the list of services that are funded and / or currently available to waiver participants.**

ABI – LTC Waiver Updates	
<b>Appendix A Waiver Administration and Operation</b>	No Changes
<b>Appendix B Participant Access and Eligibility</b>	No Changes
<b>Appendix C Covered Service</b>	Modified service limits and units to promote consistency across waiver programs and align with rate methodology study findings, including: <ul style="list-style-type: none"> <li>Updating the <i>Financial Management Services</i> units and service limit from 15-minute units with an 8 unit service limit to a “per month” unit.</li> </ul>
