The Department will establish the schedule for the meetings and may increase, cancel, or reduce the meetings, as needed, with prior notice to the Contractor.

9.4 Kentucky Health Information Exchange

The Contractor shall encourage its contracted Kentucky Providers to sign a Participation Agreement with the Kentucky Health Information Exchange (KHIE). The ultimate objective is to facilitate improved care coordination resulting in higher quality care and better outcomes. The data set required for submission is a Summary of Care Record.

Hospitals that contract with the Contractor should be encouraged to also submit ADTs (Admission, Discharge, Transfer messages) to KHIE.

If the provider does not have an electronic health record, they must sign a Participation Agreement with KHIE and sign up for Direct Secure Messaging services so that clinical information can be shared securely with other providers in their community of care.

10.0 CAPITATION PAYMENT INFORMATION

10.1 Monthly Payment

On or before the eighth (8th) day of each month during this Contract, the Department shall remit to the Contractor the Capitation Payment specified in **Section 11.1 “Calculation of Capitation Payment Rates”** (subject to approval of the rates by CMS) for each Enrollee determined to be enrolled for the upcoming month. The Contractor shall reconcile the Capitation Payment against the HIPAA 820. The Contractor shall receive a full month’s Capitation Payment for the month in which enrollment occurs except for an Enrollee enrolled based on a determination of eligibility due to being unemployed in accordance with 45 C.F.R. 233.100. The monthly Capitation Payment for such an Enrollee shall be pro-rated from the date of eligibility based on unemployment. The Commonwealth’s payment shall conform to KRS 45A.145. Payments are contingent upon the availability of appropriated funds.

The Department reserves the right, if needed, to delay the monthly payment due on or before June 8 to on or before July 8 or the next Business Day following July 8. If such delay is contemplated, the Department shall give notice of such intent forty-five (45) Days before June 8. Whether or not the Department exercises its right to delay the June Capitation Payment, the payment of all other monthly Capitation Payments shall be made on or before the eighth (8th) day of the month in which it is due.

10.2 Payment in Full

The Contractor shall accept the Capitation Payment and any adjustments made pursuant to **Section 11.2 “Rate Adjustments”** from the Department as payment in full for all services to be provided under this Contract and all administrative costs associated with performance of this Contract. Enrollees shall be entitled to receive all Covered Services for the entire period for which the Department has made payment. Any and all costs incurred by the Contractor in excess of the Capitation Payment shall be borne in full by the Contractor. Interest generated through the investment of funds paid to the Contractor under this Contract shall be the property of the Contractor to use for eligible expenditures under this Contract. The Contractor and Department acknowledge that contracts for Medicaid capitated rates and services are subject to approval by CMS.

The Contractor may pursue any unpaid Capitation Payment thirty (30) Business Days after when due from the Commonwealth in accordance with KRS 45A.245.

The Contractor shall report to the Department within sixty (60) calendar days when it has identified Capitation Payments or other payments above amounts specified in this Contract in accordance with 42 C.F.R. 438.608(c)(3).

10.3 Payment Adjustments

The Monthly Capitation Payments shall be adjusted for a period not to exceed twenty-four (24) months prior to the Monthly Capitation Payment to reflect corrections to the Enrollee Listing Report. Payments will be adjusted to reflect the automatic enrollment of eligible newborn infants. Claims for payment adjustments shall be deemed to have been waived by the Contractor if a payment request is not submitted in writing within twelve (12) months following the month for which an adjustment is requested. Waiver of a claim for payment shall not release the Contractor of its obligations to provide Covered Services pursuant to the Contract.

If an Enrollee is eligible and enrolled, but does not appear on the Enrollee Listing Report, the Contractor may submit a payment adjustment request. The Contractor shall submit the request in accordance with the DMS Medicaid Managed Care (MMC) Program Reporting Package for automated reporting requirements.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

If an Enrollee is eligible and enrolled and the Contractor believes the Capitation Payment was in error due to underpayment, overpayment, or duplicate payment, the Contractor may submit a payment adjustment request. The Contractor shall submit the request in accordance with the DMS MMC Program Reporting Package for automated reporting requirements.

If an Enrollee does not appear on the Enrollee Listing Report, but the Department has paid the Contractor for an Enrollee, the Department may request and obtain a refund of, or it may recoup from subsequent payments, any payment previously made to the Contractor.

If an Enrollee appears on the Enrollee Listing Report but is determined to be ineligible, the Department may request and obtain a refund of, or it may recoup from subsequent payments, any payment previously made to the Contractor. In such instances, for each Enrollee that is determined to be ineligible, the Contractor may recover payment from any Provider who rendered services to Enrollee during the period of ineligibility. The entity to which the Enrollee is retroactively added shall assume responsibility for payment of any services provided to Enrollees during the period of adjusted eligibility.

For cases involving Enrollee ineligibility due to Fraud, Waste, or Abuse, the Department shall only recoup the Capitation amount and the Contractor shall establish procedures pursuant to **Section 10.4 “Contractor Recoupment from Enrollee for Fraud, Waste and Abuse”** to recover paid Claims. Any adjustment by the Department for retroactive Disenrollment of Enrollees shall not exceed twelve (12) months from the effective date of Disenrollment.

10.4 Contractor Recoupment from Enrollee for Fraud, Waste and Abuse

If permitted by state and federal law, the Contractor shall request a refund from the Enrollee for all paid Claims if the Department has established that the Enrollee was not eligible to be enrolled through an administrative determination or adjudication of Fraud. The Contractor shall, upon receipt of a completed OIG investigation of a Contractor’s Enrollee that calls for administrative recoupment, send a request letter to the Enrollee seeking voluntary repayment of all Claims paid by the Contractor on behalf of the Enrollee during the period Enrollee was found to be ineligible to receive services. The request letter shall include the following as provided by the Department: the reason for the Enrollee’s ineligibility, time period of ineligibility, and amount paid during the period of ineligibility. The Contractor shall report, every month, to the Commonwealth any monies collected from administrative request letters during the previous month and provide a listing of all administrative request letters sent to Enrollees(s) during the previous month. The Contractor is only required to mail the initial letter to the Enrollee requesting repayment of funds and accept repayment on behalf of the Department. The Contractor is not required to address any due process issues should those arise. The Contractor shall work with Department’s agent to obtain monies collected through court-ordered payments. Any outstanding payments not collected within six (6) months shall be subject to collection by the Commonwealth and, if collected, shall be maintained by the Commonwealth. The foregoing provisions shall be construed to require Contractor’s reasonable cooperation with the Commonwealth in its efforts to recover payments made on behalf of ineligible persons, and shall not create any liability on the part of the Contractor to reimburse amounts paid due to Fraud that the Contractor has been unable to recover.

11.0 RATE COMPONENT

11.1 Calculation of Capitation Payment Rates

The Capitation Payment Rates are established in accordance with 42 C.F.R. 438. The Capitation Payment Rates are developed and certified by the Department’s actuaries and submitted to CMS for approval. If CMS fails to approve any component of the rates, the Capitation Payment Rates shall be adjusted to reflect that disapproval or failure to approve. DMS will work with its actuaries to develop

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

and certify new rates to CMS for approval. Those new rates shall be reconciled retroactively to the beginning of the rate period certified to CMS. In the event of a new rate, the Department will provide a Capitation Payment Rate Acknowledgement to be signed by the Contractor, which shall be deemed incorporated into this Contract and shall be binding to the Contractor and the Department.

11.2 Rate Adjustments

Prospective adjustments to the rates may be required if there are mandated changes in Medicaid services to the managed care population provided through this Contract as a result of legislative, executive, regulatory, or judicial action. Changes, including programmatic changes, applicable to this Contract mandated by state or federal legislation, or executive, regulatory, or judicial mandates, shall take effect on the dates specified in the legislation or mandate. In the event of such changes, any rate adjustments shall be made by execution of a Capitation Payment Rate Acknowledgement, which shall be deemed incorporated into this Contract and shall be binding to the Contractor and the Department.

The Contractor is free to negotiate provider rates and methodologies that are tied to Medicaid FFS reimbursement, but such ties shall not be considered to have any direct impact on rates. Changes to FFS provider reimbursement rates or methodologies mandated by legislative, executive, regulatory, or judicial action shall not be considered as an impact to the Contractor that must be considered in setting and/or adjusting rates unless those changes are explicitly required under this Contract.

11.3 Health Insurers' Premium Fee under the ACA

The Health Insurers' premium Fee (HIF) under the ACA is due in September each year based on the preceding calendar year premiums each year unless otherwise modified. If the Contractor is or will be subject to the HIF for the Capitation Payments being made under this or a previously existing Managed Care Contract with the Commonwealth, the Commonwealth shall compensate the Contractor for that fee and any federal taxes resulting from such compensation. To facilitate this payment, the Contractor shall provide the Department with the Insurer's Premium Fee assessment received from the Federal Government and the pro rata portion attributed to the Contractor's Capitation Payments under its Contract(s) for the preceding calendar year if available. In addition, the Contractor shall provide a certified statement from its Chief Financial Officer as to the effective Federal Tax Rate paid for the prior five (5) tax periods. These shall be submitted to the Department no later than September 1 of each year that the Insurer's premium fee is imposed. This payment method is contingent upon receipt of federal financial participation for the payment and CMS approval.

11.4 Medical Loss Ratio Adjustment

Beginning with calendar year 2021 and continuing annually on a calendar year basis thereafter, the Contractor shall calculate/report a MLR consistent with 42 C.F.R. 438.8 for the Medicaid populations covered under the managed care contract.

The MLR reporting process will begin ten (10) months after the end of each calendar year. If the Contract with the Contractor is not renewed at any time or is terminated at any time, the Medical Loss Ratio and Annual Statement will reflect an appropriately reduced number of months of experience instead of the full twelve (12) months.

The MLR information shall be conveyed from the Contractor to the Commonwealth through an MLR Reporting Template developed by the Commonwealth. An actuary and an office of the company shall attest to the accuracy of the MLR calculation and the information reported in the MLR Reporting Template. The MLR Reporting Template, and any other information the Contractor wants to submit

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

for consideration, shall be due to the Commonwealth no later than twelve (12) months after the end of the reporting period.

The Commonwealth shall then determine, within ninety (90) Days of receipt of all information from all Contractors, if any remittance is to be collected and notify the Contractor in writing. The Contractor shall then have fifteen (15) Days to review the Commonwealth's findings and remit payment to the Commonwealth. The Commonwealth may extend the timeframe for completing the MLR calculation up to twenty-four (24) months after the end of the reporting period if there is additional information available that may result in a material change.

The Contractor shall cooperate with the Department or its contractor by supplying all clarifications and answers to inquiries within the requested timeframe. If the Contractor fails to submit information or respond to a Department request regarding the MLR calculation within the requested timeframe, it shall be subject to a penalty of \$500.00 per day until the information or response is received.

The MLR calculation to be submitted to CMS for each Contractor shall be the ratio of the numerator (42 C.F.R. 438.8(e)) to the denominator (42 C.F.R. 438(f)). A separate MLR calculation (referred to as minimum MLR calculation) will be performed for calculating a potential MLR remittance based on the exclusion of separate payment term (SPT) state directed payments (SDPs) from both the numerator and denominator. An SPT is an SDP where the Contractor does not incur any insurance risk. The remittance from the Contractor to the Commonwealth shall occur if the minimum MLR calculation, excluding the SPT SDPs, is less than ninety (90) percent. The remittance amount shall be calculated as follows:

- 1.A. For a minimum MLR calculation of less than ninety percent (90%) but greater than or equal to eighty-six percent (86%), the Contractor shall submit a remittance to the Commonwealth for eighty-five percent (85%) of the difference between the dollar amount corresponding to actual minimum MLR calculation and the dollar amount corresponding to a ninety percent (90%) Medical Loss Ratio, excluding SPT SDPs.
- 1.B. For a minimum MLR calculation less than eighty-six percent (86%), the Contractor shall submit a remittance to the Commonwealth for the sum of: (1) eighty-five (85%) of the difference between the dollar amount corresponding to an eighty-six percent (86%) minimum MLR calculation and the dollar amount corresponding to a ninety percent (90%) minimum MLR calculation, excluding SPT SDPs; and (2) one hundred percent (100%) of the difference between the dollar amount corresponding to the actual minimum MLR calculation and the dollar amount corresponding to an eighty-six percent (86%) Medical Loss Ratio, excluding SPT SDPs.

The inclusion of Contractor provider incentive payments, as in **Section 11.5 "Physician Incentive Plans,"** in the numerator of the MLR calculation requires that Provider incentive payments must meet the requirements of 42 C.F.R. 438.3(i)(3):

- 2.A. Have defined performance periods that can be tied to the applicable MLR reporting period;
- 2.B. Have signed and dated incentive contracts that must be executed before the start of the performance period;
- 2.C. Include well-defined quality improvement or performance metrics that the Provider must meet to receive the incentive payment; and
- 2.D. Specify the dollar amount that is linked to the Provider's successful completion of the metrics and include a corresponding date of payment.

In accordance with 42 C.F.R. 438.3(i)(4)(i), the Contractor shall retain the following documentation

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

for each Provider incentive arrangement:

- 3.A. A signed copy of the contract between the Contractor and the network Provider that is executed prior to the start of the performance period;
- 3.B. Documentation supporting the results of the Provider's quality improvement or performance metrics and the determination if each metric has been met; and
- 3.C. Documentation supporting the payment to the Provider (such as a check or remittance) for meeting the required quality improvement or performance metrics and proof that the payment was made in accordance with contract terms.

Additionally, the Department specifically prohibits management attestation as the sole supporting documentation of a Provider incentive payment. The Contractor shall make the documentation required above available to the Department upon request at any time during the contract year.

Within thirty (30) days of the beginning of the contract year, for each incentive arrangement, the Contractor shall complete a Department-provided template to provide the necessary documentation required under 42 C.F.R. 438.3(i)(4). Concurrently with the completion of the MLR Reporting Templates for the MLR reporting period, the Contractor shall submit the payment amount associated with each previously documented incentive arrangement. To the extent the documentation for an incentive payment was not previously provided, the expenses associated with the payment will be disallowed from the MLR calculation.

The Department or its contractor will review the documentation submitted by the Contractor. The Department retains the right to request additional information to support its review. The Department reserves the right to audit the documentation of the Provider incentive arrangements to ensure compliance with 42 C.F.R. 438.3(i)(3). If the Department determines that an incentive arrangement does not meet these requirements, it may disallow the incentive payment from inclusion in the numerator of the minimum MLR calculation.

Expenses must be allocated in accordance with 42 C.F.R. 438.8(g), including the following provisions:

- 4.A. Each Contractor expense must be included under only one type of expense, unless a portion of the expense fits under the definition of, or criteria for, one type of expense and the remainder fits into a different type of expense, in which case the expense must be prorated between types of expenses.
- 4.B. Expenditures that benefit multiple contracts or populations, or contracts other than those being reported, must be reported on pro rata basis.
- 4.C. Expense allocation must be based on a generally accepted accounting method that is expected to yield the most accurate results.
- 4.D. Shared expenses, including expenses under the terms of a management contract, must be apportioned pro rata to the contract incurring the expense.
- 4.E. Expenses that relate solely to the operation of a reporting entity, such as personnel costs associated with the adjusting and paying of claims, must be borne solely by the reporting entity and are not to be apportioned to the other entities.

In accordance with 42 C.F.R. 438.8(k)(1)(vii), the methodology for allocation of expenditures must include a detailed description of the methods used to allocate expenses, including incurred claims, quality improvement expenses, Federal and State taxes and licensing or regulatory fees, and other non-claims costs, as described in 45 C.F.R. 158.170(b).

A credibility adjustment will be added to the MLR in accordance with 42 C.F.R. 438.8(h) should the

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

calculated MLR not meet the credibility thresholds in 42 C.F.R. 438.8(h)(4).

The Contractor shall meet all the reporting requirements in 42 C.F.R. 438.8, including but not limited to 42 C.F.R. 438.8(k).

The Contractor must require any third party vendor providing claims adjudication activities to provide all underlying data associated with the required MLR reporting (42 C.F.R. 438.8(k)) to the Contractor within one hundred and eighty (180) Days of the end of the MLR reporting year or within thirty (30) Days of being requested by the Contractor, whichever comes sooner, regardless of current contractual limitations, to calculate and validate the accuracy of the MLR reporting.

The Department may, at its discretion and subject to CMS approval, implement MLR incentive programs by which the Contractor may reduce its allowable MLR.

11.5 Physician Incentive Plans

A template for any compensation arrangement between the Contractor and a physician, or physician group as in 42 C.F.R. § 417.479(c); between the Contractor and any other PCPs within the meaning of this Contract; or between the Contractor and any other Subcontractor (or like entity) shall be submitted to the Department for approval prior to its implementation. Approval is preconditioned on compliance with all applicable federal and Commonwealth laws and regulations and subject to **Section 4.4 “Approval of Department.”** The Contractor shall provide information to any Enrollee upon request about any Physician Incentive Plan and/or any payments to Provider made pursuant to an incentive arrangement under this Section to a provider as required by applicable state or federal law.

If a Contractor includes a Physician Incentive Plan, the activities included shall comply with requirements in 42 C.F.R. 422.208 and 42 C.F.R. 422.210. The Contractor shall report disclosures to the Department for Physician Incentive Plans including the following:

- 1.A. Whether services not furnished by a physician/group are covered by the incentive plan. No further disclosure is required if the Physician Incentive Payment does not cover services not furnished by a physician/group.
- 1.B. The type of incentive arrangement, (e.g.,) withhold, bonus, Capitation.
- 1.C. Percent of withhold or bonus (if applicable).
- 1.D. Panel size, and if patients are pooled, the approved method used.
- 1.E. If the physician/group is at substantial financial risk, proof the physician/group has adequate stop loss coverage, including amount and type of stop-loss.

11.6 Co-Payments

The Contractor shall not set co-payment amounts that exceed the Department's FFS co-payments. The co-payment requirements for the Medicaid Program can be found in 907 KAR 1:604. Any cost sharing imposed by the Contractor shall be in accordance with 42 C.F.R. §§ 447.50 through 447.82.

The Department will calculate payments to the Contractor as in 42 C.F.R. 447.56(d).

The actuarial value of the co-payments will be reflected in the Capitation Rate.

The Department may exclude the collection of co-payments with at least ninety (90) Days written notice to the Contractor.

12.0 RISK ADJUSTMENTS

12.1 Purpose for Risk Adjustments

Risk adjustment uses information on an Enrollee's medical conditions, as reported in Claims data, and other factors to predict healthcare costs and adjust payments to MCOs. Risk adjustment helps ensure payments to MCOs are more equitable and mitigates the impact of selection bias, thus protecting MCO solvency and reducing incentives for plans to avoid high-risk individuals. Risk adjustment is designed to be revenue-neutral to the State.

12.2 Risk Adjustment Method

The Department will analyze the risk profile of each MCO's Enrollees using a risk adjustment model specified by the Department.

- 1.A. Enrollees will be assigned risk scores based on attributes including, but not limited to, demographics, disease conditions, rate cell, and duration of enrollment in the study period.
- 1.B. Not all Enrollees will be risk scored. Exclusions such as dual eligible Enrollees may exist.
- 1.C. Each MCO's proposed base Capitation rates will be risk adjusted based on its Enrollees' risk scores relative to the risk scores of other MCOs.
- 1.D. The Department will update risk scores at least one (1) time per State Fiscal Year, either in the form of a full Enrollee re-score or an update for changes in Enrollee distributions, with all calculations including a budget neutrality adjustment.

Supplemental Pass-Through Payments and Payments related to the HIF will not be risk-adjusted.

13.0 CONTRACTOR'S FINANCIAL SECURITY OBLIGATIONS

13.1 Solvency Requirements and Protections

The Contractor shall be subject to requirements contained in KRS Chapter 304 and related administrative regulations regarding protection against Insolvency and risk-based capital requirements. In addition, pursuant to KRS 304.3-125, the Commissioner of DOI has the authority to require additional capital and surplus if it appears that an Insurer is in a financially hazardous condition.

The Contractor shall cover the continuation of services to Enrollees during Insolvency, for the duration of the period for which payment has been made, as well as for inpatient admissions up until discharge.

In the event of the Contractor's Insolvency, the Contractor shall not hold its Enrollees liable, except in instances of Enrollee Fraud:

- 1.A. For the Contractor's debts;
- 1.B. For the Covered Services provided to the Enrollee, for which the Department does not pay the Contractor;
- 1.C. For the Covered Services provided to the Enrollee for which the Department or the Contractor does not pay the individual or healthcare provider that furnishes the services under a contractual, referral, or other arrangement; and
- 1.D. For Covered Services furnished under a contract, referral, or other arrangement, to the extent that those payments are more than the amount that the Enrollee would owe if the Contractor provided the services directly.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

13.2 Contractor Indemnity

In no event shall the Commonwealth, FAC, the Department, or an Enrollee be liable for the payment of any debt or fulfillment of any obligation of the Contractor or any Subcontractor to any Subcontractor, supplier, Out-of-Network Provider or any other party, for any reason whatsoever, including the Insolvency of the Contractor or any Subcontractor insolvency. The Contractor agrees that any Subcontract will contain a hold harmless provision.

The Contractor shall indemnify, defend, save and hold harmless the Commonwealth, FAC, the Department, its officers, agents, and employees (collectively, the "Indemnified Parties") from all claims, demands, liabilities, suits, judgments, or damages, including court costs and reasonable attorney fees made or asserted against or assessed to the Indemnified Parties (collectively the "Losses"), arising out of or connected in any way with this Contract or the performance or nonperformance by the Contractor, its officers, agents, employees; and suppliers, Subcontractors, or Providers, including without limitation any claim attributable to:

- 1.A. The improper performance of any service, or improper provision of any materials or supplies, irrespective of whether the Department knew or should have known such service, supplies, or materials were improper or defective;
- 1.B. The erroneous or negligent acts or omissions, including without limitation, disregard of federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such erroneous or negligent acts;
- 1.C. The publication, translation, reproduction, delivery, collection, data processing, use, or disposition of any information to which access is obtained pursuant to this Contract in a manner not authorized by this Contract or by federal or Commonwealth law or regulations, irrespective of whether the Department knew or should have known of such publication, translation, reproduction, delivery, collection, data processing, use, or disposition; or
- 1.D. Any failure to observe federal or Commonwealth law or regulations, including but not limited to, insurance and labor laws, irrespective of whether the Department knew or should have known of such failure.

Upon receiving notice, the Department shall give the Contractor written notice of any claim made against the Contractor for which the Indemnified Parties are entitled to indemnification, so that the Contractor shall have the opportunity to appear and defend such claim. The Indemnified Parties shall have the right to intervene in any proceeding or negotiation respecting a claim and to procure independent representation, all at the sole cost and expense of the Indemnified Parties. Under no circumstances shall the Contractor be deemed to have the right to represent the Commonwealth in any legal matter without express written permission from FAC. Notwithstanding the above, the Contractor shall have no obligation to indemnify the Indemnified Parties for any losses due to the negligent acts, omissions, or intentional misconduct of the Indemnified Parties.

13.3 Insurance

The Contractor shall secure and maintain during the entire term of the Contract, and for any additional periods following termination of the Contract during which it is obligated to perform any obligations under this Contract, original, prepaid policies of insurance, in amounts, form and substance satisfactory to FAC, and non-cancelable except upon thirty (30) Days prior written notice to FAC, providing coverage for property damage (all risks), business interruption, comprehensive general liability, motor vehicles, workers' compensation and such additional coverage as is reasonable or customary for the conduct of the Contractor's business in the Commonwealth.

13.4 Advances and Loans

The Contractor shall not, without thirty (30) Days prior written notice to and approval by the Department, make any advances to a related party or Subcontractor. The Contractor shall not,

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

without similar thirty (30) day prior written notice and approval, make any loan or loan guarantee to any entity, including another fund or line of business within its organization. Such approval is subject to **Section 4.4 "Approval of Department."** Written notice is to be submitted to the Department and if applicable to DOI. The prohibition on advances to Subcontractors contained in this subsection shall not apply to Capitation Payments or payments made by the Contractor to Contractor's Network for the provision of Covered Services.

13.5 Provider Risks

If a Provider assumes substantial financial risk for contracted services, the Contractor shall ensure that the Provider has adequate stop-loss protection. The Contractor shall provide the Department proof the Provider has adequate stop-loss coverage, including an amount and type of stop-loss.

14.0 THIRD PARTY RESOURCES

14.1 Coordination of Benefits (COB)

The Contractor shall actively pursue, collect, and retain all monies available from all available resources for services to Enrollees under this Contract except where the amount of reimbursement the Contractor can reasonably expect to receive is less than the estimated cost of recovery.

Cost effectiveness of recovery is determined by, but not limited to, time, effort, and capital outlay required in performing the activity. The Contractor shall specify the threshold amount or other guidelines used in determining whether to seek reimbursement from a liable third party, or describe the process by which the Contractor determines seeking reimbursement would not be cost effective. The Contractor shall provide the guidelines to the Department for review and approval.

COB collections are the responsibility of the Contractor or its Subcontractors. Subcontractors shall report COB information to the Contractor. Contractor and Subcontractors shall not pursue collection from the Enrollee but directly from the third party payer. The Contractor shall only recoup payments to providers if the third party payer is Medicare. Access to Covered Services shall not be restricted due to COB collection.

The Contractor shall maintain records of all COB collections. The Contractor shall demonstrate that appropriate collection efforts and appropriate recovery actions were pursued. The Department has the right to review all billing histories and other data related to COB activities for Enrollees. The Contractor shall seek information on other available resources from all Enrollees.

In order to comply with CMS reporting requirements, the Contractor shall submit a monthly COB Report for all Enrollee activity, which the Department or its agent shall audit no less than every six (6) months. Additionally, Contractor shall submit a report that includes but is not limited to subrogation collections from auto, homeowners, or malpractice insurance.

14.2 Third Party Liability

By law, Medicaid is the payer of last resort and as a result shall be used as a source of payment for Covered Services only after all other sources of payment have been exhausted. If an Enrollee has resources available for payment of expenses associated with the provision of Covered Services, other than those which are exempt under Title XIX of the Social Security Act, such resources are primary to the coverage provided by the Contractor, pursuant to this Contract, and must be exhausted prior to payment by the Contractor. The Capitation Rate in this Contract has been adjusted to account for the primary liability of third parties to pay such expenses. The Contractor shall be responsible for determining the legal liability of third parties to pay for services rendered to Enrollees under this Contract. The Contractor shall maintain a current TPL Resource File which contains the Enrollee's

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

current TPL information including coverage that has ended for the Enrollee. The Contractor shall share TPL information with Subcontractors that are responsible for payment of Covered Services for Enrollees. The Contractor shall also provide TPL information to the Department via a daily file.

All funds recovered by the Contractor from Third Party Resources shall be treated as income to the Contractor to be used for eligible expenses under this Contract. The Contractor and all Providers in the Contractor's Network are prohibited from directly receiving payment or any type of compensation from the Enrollee, except for Enrollee co-pays or deductibles from Enrollees for providing Covered Services. Enrollee co-payments, co-insurance, or deductible amounts cannot exceed amounts in 907 KAR 1:604. Co-payments, co-insurance, or deductible amounts may be increased only with Department approval.

42 C.F.R. 435.610 requires that as a condition of Medicaid eligibility each Enrollee will be required to:

- 1.A Assign, in writing, his/her rights to the Contractor for any medical support or other Third Party Payments for medical services paid for by the Contractor; and
- 1.B Cooperate in identifying and providing information to assist the Contractor in pursuing third parties that may be liable to pay for care and services.

42 C.F.R. 433.138 requires the Contractor to be responsible for actively seeking and identifying Third Party Resources (i.e., health or casualty insurance, liability insurance, and attorneys retained for tort action) through contact with the Enrollees, participating providers, and the Medicaid Agency. However, the Commonwealth may direct the Contractor to refrain from actively seeking and identifying Third Party Resources for services that are covered only by the Medicaid program, as identified by the Department.

42 C.F.R. 433.139 requires the Contractor to be responsible for ensuring that the Medicaid Program is the payer of last resort when other Third Party Resources are available to cover the costs of medical services provided to Medicaid Enrollees. When the Contractor is aware of other Third Party Resources, the Contractor shall avoid payment by "cost avoiding" (denying) the Claim and redirecting the provider to bill the other Third Party Resource as a primary payer. If the Contractor does not become aware of another Third Party Resource until after the payment for service, the Contractor is responsible for seeking recovery from the Third Party Resource on a post-payment basis. See **Appendix C "Third Party Payments/Coordination of Benefits."** The Department or its agent will audit the Contractor's Third Party practices and collections at least every six (6) months.

The Contractor shall respond to Enrollee and provider requests for COB or TPL updates according to the following timelines:

- 2.A. For dire needs/urgent requests, within forty-eight (48) hours; or
- 2.B. For routine requests, within three (3) Business Days.

The Contractor shall have a work plan for such system changes or system upgrades that includes a timeline, milestones, and adequate testing to be completed prior to implementation. The Contractor shall provide such plans to the Department upon request in the timeframe and manner specified by the Department after receiving notice from the Contractor of the planned change or upgrade. The Department may require status reports at a frequency determined by the Department.

15.2 Contractor MIS Requirements

The Contractor is not required to have actual subsystems as listed below, provided the requirements are met in other ways which may be mapped to the subsystem concept. The Contractor shall have the capacity to capture necessary data and provide it in formats and files that are consistent with the Commonwealth's functional subsystems as described below. The Contractor shall maintain flexibility to accommodate the Department's needs if a new system is implemented by the Commonwealth. These subsystems focus on the individual systems functions or capabilities, which provide support for the following areas:

It might include information from secondary sources to allow the tracking of population outcome data or other population information. At a minimum, there will be a Provider, Enrollee, Encounter Record, and Capitation interface. Specific requirements for the interface subsystem shall include such items as: defined data elements, formats, and file layouts, including input and output job schedule with backend reporting and data reconciliation.

15.5 Medicaid Claims Administration and Financial Solution (MCAFS)

The Department has procured a vendor to replace the legacy MMIS with MCAFS, a modern, cloud based MITA compliant solution for claims adjudication, encounter processing, third party liability and financial management functions. The MMIS modernization solution may result in changes to upstream and downstream systems. These changes may include but are not limited to enhancing the interfaces between the Contractor and the MCAFS to establish real-time and data transfers through the State Data Hub to support the Medicaid business functions and maintain information. Additional changes may involve workflow and reporting of information that will promote accuracy and efficiency.

The Department will keep the Contractor apprised of the anticipated go-live date and implementation activities and schedule for MCAFS. This applies to all systems, networks, and data that store, process, or transmit ePHI. The policy should be reviewed at least annually or upon significant changes to regulations, technology, or organizational processes.

1.A. Access Control (AC)

1. Implement controls to limit and control access to ePHI; and
2. Employ the principle of least privilege, ensuring that users have the minimum access necessary to perform their job functions.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

to focus on particular outcomes. The Department will provide the Contractor with at least ninety (90) Days' notice, when possible, to make administrative changes to comply with any new measurement requirement.

- 1.A. The Department will set specific quantitative performance targets and goals, and the Contractor shall be expected to achieve demonstrable and sustained improvement for each measure. Minimum performance levels shall be specified for each performance improvement area derived from regional or national standards or from standards established by an appropriate practice organization.
- 1.B. The Contractor shall report activities to address the performance measures in the QAPI Plan quarterly and shall submit an annual report after collection of performance data. The Contractor shall make comparisons across data for each measure by the Medicaid geographic regions, eligibility category, race ethnicity, gender, and age to the extent such information has been provided by the Department to the Contractor. The Contractor shall incorporate consideration of SDoH into the process for analyzing data to support population health management. Reported information may be used to determine disparities in healthcare. The Contractor shall submit a plan to the Department for initiatives and activities the Contractor will implement to address identified disparities.
- 1.C. The Contractor shall continually work to improve health outcomes from year to year and sustain such improvements. The Department shall assess the Contractor's achievement of performance improvement as evidenced by health outcome measurement results on an annual basis unless otherwise specified by the Department.
- 1.D. Where achievement is not showing progress towards meeting performance measure targets, as determined by the Department, the Department will consider the following:
 1. Opportunities across MCOs to collaborate to understand challenges and work with the MCOs to identify opportunities to coordinate efforts to work towards improvement. The Contractor shall actively participate in collaborative efforts, including providing data and other materials to help inform options.
 2. Need for the Contractor to develop and implement a CAP that addresses the lack of achievements and identifies steps that will lead toward improvements. The Contractor shall submit the plan to the Department within thirty (30) calendar days of receipt of notification of required corrective action.
 3. Implementation of penalties, as deemed appropriate by the Department, due to the Contractor's failure to make improvements. See **Appendix A "Remedies for Violation, Breach, or Non-Performance of Contract"** for information about penalties.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

shall make comparisons across each measure by Medicaid Region, Medicaid eligibility category, race, ethnicity, gender, and age.

Annually, the Contractor and the Department may select a subset of targeted performance measures from the HEDIS™ reported measures and Kentucky-specific measures on which the Department will evaluate the Contractor's performance. The Department shall inform the Contractor of its performance on each measure, whether the Contractor satisfied the goal established by the Department, and whether the Contractor shall be required to implement corrective action. The Contractor shall have sixty (60) Days to review and respond to the Department's performance report.

The Department reserves the right to evaluate the Contractor's performance on targeted measures based on the Contractor's submitted Encounter data. The Contractor shall have sixty (60) Days to review and respond to findings reported as a result of these activities.

17.6 Performance Improvement Projects (PIPs)

The purpose of healthcare quality PIPs is to assess and improve processes, and thereby outcomes, of care for Enrollees. For these projects to achieve real improvements and for interested parties to have confidence in the reported improvements, the Contractor shall follow CMS protocol when designing, conducting, and reporting on PIPs in a methodologically sound manner.

The Contractor shall comply with 42 C.F.R. 438.330(d) to conduct PIPs that focus on both clinical and non-clinical areas. PIPs focused on clinical areas, as designated by the Department, may address preventive and chronic healthcare needs of the whole Enrollee population and subpopulations, including, but not limited to Medicaid eligibility category, type of disability or special healthcare needs, race, ethnicity, gender, and age. PIPs focused on non-clinical areas, as designated by the Department, may address issues such as improving the quality, availability, and accessibility of services provided by the Contractor to Enrollees and Providers. Such aspects of service should include, but not be limited to availability, accessibility, cultural competency of services, and complaints, grievances, and Appeals.

The Department and its contracted EQRO shall determine PIP focus areas, and the Contractor shall implement PIPs as follows to achieve significant improvements that are sustained over time, in health outcomes and Enrollee satisfaction:

- 1.A. The Contractor shall design and implement PIPs that are focused on areas of concern to conduct on an ongoing basis.
- 1.B. The Department will work with the EQRO and the MCOs to identify regionally based collaborative PIPs that would be feasible and impactful for the Kentucky healthcare community. All parties will work together to develop strategies and detailed processes for implementing and coordinating efforts for regional collaborative PIPs. To support a collaborative process, the Contractor shall perform the following activities:
 1. Define the scope of the PIP, identify target populations, set improvement goals, and define comprehensive interventions;
 2. Coordinate with existing State or MCO initiatives, as applicable;
 3. Support the development of meeting agenda topics, writing quarterly reports, and identifying subject matter experts who should attend meetings based on the agenda items, and writing quarterly reports upon Department request;
 4. Provide adequate funding and staffing resources to execute the PIP; and
 5. Evaluate the successes and challenges of interventions on an ongoing basis, and provide quarterly progress reports and an annual findings report to the Department.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

DMS will give final approval for the collaborative PIP design and establish required timelines for ongoing meetings and coordination among the involved parties.

1.C. As required by the Department, the Contractor shall implement an additional PIP if findings from an EQR review or audit indicate need or if directed by CMS. The Contractor shall assist the Department by supplying readily available data, soliciting input, and supporting clinicians.

1.D. Implement PIPs as identified and requested by CMS.

The Contractor's PIPs shall include the following elements:

2.A. Measurement of performance using objective quality indicators and measures and minimum performance levels as defined collaboratively by the Department, the EQRO, and Contractor prior to the commencement of each PIP. In determining indicators and measures, the Department and Contractor shall work to confirm they are not misaligned with those being used in other projects and that they are measurable and can be tracked. The Department shall have final decision and approval of the required indicators and data definitions of each;

2.B. Implementation of interventions to achieve improvement in the access to and quality of care;

2.C. Evaluation of the effectiveness of the interventions based on the performance measures; and

2.D. Planning and initiation of activities for increasing or sustaining improvement.

The Contractor shall be committed to ongoing collaboration for service and clinical care improvements through efforts such as the development of best practices, use of Encounter data-driven performance measures and establishment of relationship with existing organizations engaged in provider performance improvement through education and training in best practices and data collection. The Contractor shall develop collaborative relationships with local health departments, behavioral health agencies, community-based health and social agencies, and healthcare delivery systems to achieve improvements in priority areas. Linkages with local public health agencies is essential for the achievement of public health objectives. Evidence of adequate partnerships should include formal documentation of meetings, input from stakeholders and shared responsibility in the design and implementation of PIP activities.

The Contractor shall complete each PIP in a period determined by the Department to allow information on the success of the project in the aggregate to produce new information on quality of care each year. Each PIP will use a study period approved by the Department.

The Contractor shall continuously monitor its performance on a variety of dimensions of care and services for Enrollees, identify areas for potential improvement, undertake system interventions to improve care and services, and monitor the effectiveness of those interventions.

The Contractor shall participate in the quarterly quality meetings or more frequent meetings with the Department to review progress in achieving the identified goals and targeted improvements for the PIP focus areas. The Department may request ad-hoc meetings as it deems necessary to, for example, address areas of non-compliance. The Department will provide the Contractor with reasonable advance notice of meetings, generally at least five (5) Business Days when possible. The Contractor shall provide to the Department, no later than fourteen (14) Business Days prior to each quarterly meeting, an electronic report detailing the Contractor's progress, successful strategies, and challenges in achieving improvements.

The Contractor shall report the status and results of all required PIPs to the Department as required in 42 C.F.R. 438.330(c)(3) with sufficient detail for the Department to evaluate the reliability and validity of the data and the conclusions drawn. The Contractor's final report shall follow a format as

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

approved by the Department, and must provide detailed information that addresses all items, as applicable, that are outlined in the CMS Protocol for Performance Improvement Projects, PIP Review Worksheet.

The Contractor shall validate if improvements were sustained through periodic audits of the relevant data and maintenance of the interventions that resulted in improvement.

While undertaking a PIP, no specific payments shall be made directly or indirectly to a provider or provider group as an inducement to reduce or limit Medically Necessary services furnished to an Enrollee.

17.7 Department for Public Health Initiatives

The Contractor is encouraged to work with DPH to support efforts to improve public health outcomes and to support DPH's key priorities, which include but are not limited to diabetes, obesity, cardiovascular disease, lung cancer, and substance use disorder. The Contractor is encouraged to work with the Department for Public Health to identify opportunities for the Contractor to collaborate and participate in initiatives such as, but not limited to, the following: the Diabetes Self-Management Program, and the Diabetes Prevention and Control Program. The Contractor shall work with DPH to identify opportunities for the Contractor to collaborate and participate in initiatives for the Tobacco Prevention and Cessation Program and to work with the DPH Quitline program.

17.8 Quality Management and Performance Improvement Monitoring and Evaluation

The Contractor, through the QAPI program, shall monitor and evaluate progress in improving the quality of healthcare and outcomes on an ongoing basis and provide updates to the Department on progress during quality meetings and at the Department's request on an ad hoc basis. Healthcare needs such as preventive care, acute or chronic physical or behavioral conditions, SDoH, and high volume, high risk, and special healthcare needs populations shall be studied and prioritized for performance measurement, performance improvement, and/or development of practice guidelines.

The Contractor's Quality Management and performance improvement activities shall demonstrate the linkage of quality initiatives and projects to findings from multiple quality evaluations, such as the EQR annual evaluation, opportunities for improvement identified through performance metrics (e.g., annual HEDIS™ indicators), results of consumer and provider surveys, internal surveillance and monitoring, as well as any findings identified by the Department or an accreditation body.

The Contractor shall use appropriate multidisciplinary teams to analyze and address data or systems issues. The Contractor shall collaborate with existing provider Quality Improvement activities and, to the extent possible, align with those activities to reduce duplication and maximize outcomes.

Providers shall be measured against practice guidelines and standards adopted by the Quality Improvement Committee. Areas identified for improvement shall be tracked and corrective actions taken as indicated. The effectiveness of corrective actions shall be monitored until problem resolution occurs. The Contractor shall perform reevaluations to ensure that improvement is sustained.

The Contractor shall annually review and evaluate the overall effectiveness of the QAPI program to determine whether the program has demonstrated improvement in the quality of care and service provided to Enrollees. The Contractor shall modify as necessary, the QAPI program, including Quality Improvement policies and procedures; clinical care standards; practice guidelines and patient protocols; utilization and access to Covered Services; and treatment outcomes to meet the needs of Enrollees. The Contractor shall prepare a written report to the Department detailing the annual review and shall include a review of completed and continuing QI activities that address the quality of clinical care and service; trending of measures to assess performance in quality of clinical care and quality

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

of service; any corrective actions implemented; corrective actions which are recommended or in progress; and any modifications to the program. There shall be evidence that QI activities have contributed to meaningful improvement in the quality of clinical care and quality of service, including preventive, behavioral healthcare, and health equity, provided to Enrollees. The Contractor shall submit this report as specified by the Department. The Department shall give the Contractor advance notice of the due date of the annual QAPI report. The Department may require interim reports more frequently than annually to demonstrate Contractor progress.

17.9 Value-Based Payment Program

The Contractor shall collaborate with the Department and other MCOs to implement and execute a Value-Based Payment (VBP) model that aligns incentives for Enrollees, Providers, Contractors, and the Commonwealth to achieve the Medicaid program's overarching goals for improvement in quality and healthcare outcomes. The impact of initiatives will be measured in terms of access, outcomes, quality of care, and savings.

In support of these goals, the Department has established a VBP Program supported by payment incentives that the Contractor may earn if certain conditions are met. The compensation under the VBP Program is subject to the Contractor's achievement of performance measures and related targets in alignment with Kentucky's Medicaid Managed Care Quality Strategy to support improved healthcare outcomes and financial savings.

The VBP Program is designed as a two percent (2%) withhold from the Contractor capitation amount that can be earned back in full or in part by the Contractor through the achievement of the designated performance measures. The program is designed with a set of Core Measure incentives that all Contractors are eligible to earn, as well as Bonus Pool incentives available to earn by those Contractors who attain the required performance on the Core Measures. Each measure is assigned a weight to earn a percentage of the total Core Measure withhold or Bonus Pool, respectively.

Contractors that maintain performance on all Core Measures in a measurement year compared to the baseline measurement period for that year and who meet or exceed the target for at least four (4) Core Measures, will also qualify to participate in the Bonus Pool for the current measurement year. To maintain performance, a Contractor must not demonstrate a decline in a VBP core measure from year to year. A one percent (1%) threshold will be applied to account for normal variation. For some measures, an increase in the measure score may represent a decline in performance. In such cases, the term "decline" refers to any change in the score that indicates worse performance, whether the score increases or decreases. The Bonus Pool is funded with the unearned Core Measure withhold dollars from all Contractors that were not earned through performance on Core Measures, meaning that an MCO potentially may earn withhold dollars originally available but unearned by a different MCO, if it qualifies for Bonus Pool participation.

The performance targets for both the Core Measures and the Bonus Pool Measures are set as pass or fail. No withhold is earned for a measure if the Contractor fails to achieve the required improvement for that measure. Performance on each Core Measure and Bonus Pool Measure will be evaluated based upon the Contractor's performance as reported through the External Quality Review (EQR) process. The Contractor will have no appeal rights or ability to submit additional performance documentation outside of this process.

The specific measures, weights, and targets for the VBP Program are detailed in **Appendix N "Value-Based Payment Measures"**. Withhold payments will be calculated as in **Appendix N "Value-Based Payment Measures"**.

The Department reserves the right to modify the VBP Program, its performance measures, weights, or targets, at its sole discretion and in consultation with the Contractor, on a year-to-year basis during the Contract Term as program priorities shift and as necessary to support continuous quality improvement. For any performance measures selected, the Department shall consult with the

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

Contractor regarding the methodology for qualifying the Contractor's success in achieving targets and related incentives. If a performance measure is retired during the performance period, the Department, at its sole discretion and in consultation with the Contractor, may replace the performance measure for that performance period. The performance measures, weights, and targets will be established annually by the Department and reflected in an amendment to the Contract. Should the Department remove or replace a performance measure, the Department shall notify the Contractor in writing of such a change at least sixty (60) Days prior to the start of the measurement year.

In accordance with 42 C.F.R. 438.6(b)(2)(i)-(v) and 42 C.F.R. 438.6(b)(3)(i)-(v), withhold and incentive arrangements are for a fixed period and are measured during the rating period under the Contract in which the arrangements are applied. Withhold and incentive arrangements are not renewed automatically, are available to both public and private contractors under the same terms of performance, and do not condition Contractor participation in the incentive arrangement on the Contractor entering into or adhering to intergovernmental transfer agreements. All withhold and incentive arrangements are necessary for the specified activities, targets, performance measures, or quality based outcomes that support program initiatives as specified in the State's quality strategy in accordance with 42 C.F.R. 438.340.

The Department will assess Contractor performance under the VBP Program as identified in the EQR reporting (as documented in section 19.2) within ninety (90) days after it becomes available and will make best efforts to calculate and distribute payments for the VBP program within the quarter that the EQR reporting is made available. For example, if EQR results for the measurement year 2024 are made available in October 2025, the Department will strive to make earnings for VBP before the end of December 2025. Delays in EQR reporting may impact the timing of VBP payments.

The Contractor shall develop and implement initiatives to achieve the performance measure targets. The Department may also specify required initiatives for the Contractor and other contracted MCOs to implement, which may coordinate with PIPs and focused studies. All contracted MCOs are encouraged to collaborate on initiatives, interventions, and solutions to be implemented. The Contractor may also implement its own strategies and incentives to encourage Enrollees' participation in addressing their own health needs, which may in turn support the achievement of identified performance measures. Enrollee incentives must be approved by the Department prior to use.

When the VBP model is implemented, the Contractor shall develop and implement initiatives to achieve the required targets, and shall track progress and outcomes on a monthly and quarterly basis. The Contractor shall submit reports to the Department annually based on agreed upon reporting requirements. The Contractor shall highlight the status and progress of initiatives, as well as successes and challenges. The Department will make the final decision as to data and information to be reported to the Department by the Contractor. The Contractor and the Department shall use findings to identify additional opportunities for improvement to the model and any need for modification of priorities, measures, and targets.

17.10 Conduct of Surveys

The Contractor shall conduct an annual survey of Enrollees' and Providers' satisfaction with the quality of services provided and their degree of access to services. The Enrollee satisfaction survey requirement shall be satisfied by the Contractor participating in the Agency for Health Research and Quality's (AHRQ) current Consumer Assessment of Healthcare Providers and Systems survey (CAHPS) for Medicaid Adults and Children with a separate sample and survey for CHIP Enrollees, administered by an NCQA certified survey vendor. The Contractor shall provide a copy of the current CAHPS survey tool to the Department. Annually, the Contractor shall assess the need for conducting special surveys to support quality/performance improvement initiatives that target subpopulations' perspectives and experience with access, treatment, and services. To meet the provider satisfaction survey requirement, the Contractor shall submit to the Department for review and approval the

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

Contractor's provider satisfaction survey tool within thirty (30) Days of signing the Contract, annually and prior to any revisions.

The Department shall review and approve any survey instruments and shall provide a written response to the Contractor within thirty (30) Days of receipt. The Contractor shall provide the Department a copy of all survey results. A description of the methodology to be used conducting surveys, the targeted audience, the number and percentage of stakeholders, Providers or Enrollees to be surveyed, response rates, and a sample survey instrument, shall be submitted to the Department along with the findings and interventions conducted or planned. All survey results must be reported to the Department, and upon request, disclosed to Enrollees.

17.11 Quality Rating System

The Department shall monitor for CMS development of a Medicaid Managed Care Quality Rating System to determine whether it will adopt the CMS system or develop its own. The Department shall implement CMS's Medicaid Managed Care Quality Rating System or develop its own within three (3) years of the date of a final notice published in the Federal Register. When implemented, the Contractor shall comply with requirements specified by the Department.

18.0 UTILIZATION MANAGEMENT

The Contractor shall establish processes that are designed to maintain the quality of services, control costs, and are consistent with its responsibilities to Enrollees. The Contractor shall develop methods and procedures to safeguard against unnecessary utilization of care and services. Appropriate limits may be placed on a service based on criteria applied under the Medicaid State Plan, and applicable regulations (e.g., Medical Necessity), and for utilization control provided the services furnished can reasonably be expected to achieve their purpose. Services supporting individuals with ongoing or chronic conditions or identified SDOHs, or who require long-term services and supports, are authorized in a manner that reflects the Enrollee's ongoing need for such services and supports. Family Planning Services are provided in a manner that protects and enables the Enrollee's freedom to choose the method of family planning.

18.1 Utilization Management Program

The Contractor shall implement a Utilization Management (UM) Program that meets the requirements in this section and that is documented in a Utilization review plan as defined in KRS 304.17A-600. The UM Program, processes, and timeframes shall be in accordance with 42 C.F.R. 456, 42 C.F.R. 431, 42 C.F.R. 438. If the Contractor utilizes a private review agent, as defined in KRS 304.17A-600, the agent shall comply with all applicable requirements of KRS 304.17A-600 to 304.17A-633. The Contractor's Medical Director and Behavioral Health Director shall supervise the UM Program and shall be accessible and available for consultation as needed. The Contractor shall be registered with DOI to perform utilization review services in accordance with KRS 304.17A-607.

The Contractor shall implement innovative and effective UM processes to ensure a high quality, clinically appropriate yet highly efficient and cost-effective delivery system. The Contractor shall continually evaluate the cost and quality of medical services delivered by Providers. The Contractor shall apply objective and evidence-based criteria that considers the individual Enrollee's circumstances when determining the Medical Necessity of healthcare services.

The Contractor shall have a written plan for the UM Program that details the program structure and, if delegated, includes a clear definition of authority and accountability for all activities between the Contractor and entities the Contractor delegates UM activities. The UM Program and Review Plan shall comply with KRS 304.17A-600 and KRS 304.17A-607 and include the following information, at a minimum:

If the Contractor continues or reinstates the Enrollee's benefits while the Appeal is pending, the benefits must be continued until one of the following occurs:

- 2.A. The Enrollee withdraws the Appeal or request for a State Fair Hearing;
- 2.B. The Enrollee does not request a State Fair Hearing with continuation of benefits within ten (10) Days from the date the Contractor mails an adverse appeal decision; or

All Grievance or Appeal files shall be maintained in a secure and designated area and be accessible to the Department, its designee, or CMS upon request, for review. Grievance or Appeal files shall be retained for ten (10) years following the final decision by the Contractor, an administrative law judge, judicial appeal, or closure of a file, whichever occurs later.

The Contractor shall have procedures for ensuring that files contain sufficient information, as outlined at 42 C.F.R. 438.416, to identify the Grievance or Appeal, the date it was received, the nature of the grievance or Appeal, notice to the Enrollee of receipt of the Grievance or Appeal, all correspondence between the Contractor and the Enrollee, the date the Grievance or Appeal is resolved, the resolution, the notices of final decision to the Enrollee, and all other pertinent information. Documentation regarding the Grievance shall be made available to the Enrollee, if requested.

22.3 State Fair Hearings for Enrollees

An Enrollee shall exhaust the internal Appeal process with the Contractor prior to requesting a State Fair Hearing. The Contractor, the Enrollee, or the Enrollee's representative or legal representative of the Enrollee's estate shall be parties to the hearing as provided in 907 KAR 17:010. An Enrollee may request a State Fair Hearing if he or she is dissatisfied with an Adverse Benefit Determination that has been taken by the Contractor within one hundred and twenty (120) Days of the final appeal decision by the Contractor as provided for in 42 C.F.R. 438.408. An Enrollee may request a State Fair Hearing for an Adverse Benefit Determination taken by the Contractor that denies or limits an authorization of a requested service or reduces, suspends, or terminates a previously authorized service. The standard timeframe for reaching a decision in a State Fair Hearing is found in KRS Chapter 13B.

Failure of the Contractor to comply with the State Fair Hearing requirements of the Commonwealth and federal Medicaid law regarding an Adverse Benefit Determination made by the Contractor or to appear and present evidence shall result in an automatic ruling in favor of the Enrollee.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

The Contractor shall authorize or provide the disputed services promptly and as expeditiously as the Enrollee's health condition requires, but not later than seventy-two (72) hours from the date the Contractor receives final notice reversing the determination, if the services were not furnished while the Appeal was pending and the State Fair Hearing results in a decision to reverse the Contractor's decision to deny, limit, or delay services. The Contractor shall pay for disputed services received by the Enrollee while the Appeal was pending if the State Fair Hearing reverses a decision to deny authorization of the services.

The Department shall provide for an expedited State Fair Hearing within three (3) Days of a request for an Appeal that meets the requirements of an expedited appeal after a Denial by the Contractor.

With the submission of these select F&U documents to the Department, the Contractor certifies that the marketing material complies with all applicable Contract standards as well as any superseding federal or state law. The Contractor is subject to penalty for marketing material use where the Department determines that the marketing material fails to comply with applicable Contract Standards, federal law, or state law.

The Contractor is responsible for ensuring any Enrollee gift card or value added benefit meets the requirements of Social Security Act §1128A, the Contract, and any other applicable federal and state laws. Approval of these benefits by the Department shall not be construed as superseding federal or state law.

Value Added Benefits are encouraged by the Department but must be approved by the Department prior to use.

24.0 ENROLLEE ELIGIBILITY, ENROLLMENT AND DISENROLLMENT

24.1 Eligibility Determination

The Department shall have the exclusive right to determine an individual's eligibility for the Medicaid Program and eligibility to become an Enrollee of the Contractor. The Contractor may include any charitable providers that serve Enrollees within a Medicaid Region, provided that such providers meet credentialing standards.

26.2.12 Bordering State Providers

The Contractor may include providers located within fifty (50) Miles of the Kentucky border. Border providers may be in Missouri, Illinois, Indiana, Ohio, West Virginia, Virginia, and Tennessee. Border providers that the Contractor includes in its network must be enrolled in Kentucky Medicaid and have a signed agreement with the Contractor. The Contractor shall follow all Kentucky Medicaid enrollment rules when contracting bordering state providers.

26.2.13 Out-of-Network Providers

If the Contractor is unable to provide within its network necessary Covered Services, it shall timely and adequately cover these services out of network for the Enrollee for as long as the Contractor is unable to provide the services in accordance with 42 C.F.R. 438.206.

The Department will provide the Contractor with an expedited enrollment process to assign provider numbers for providers not already enrolled in Medicaid for emergency situations only.

Such approval is subject to **Section 4.4 “Approval of Department.”**

The Contractor must offer participation agreements with currently enrolled Medicaid providers who have received electronic health record incentive funds and who are willing to meet the terms and conditions for participation established by the Contractor.

26.4 Provider Network Access and Adequacy

The Contractor shall meet the Provider Network access and adequacy standards consistent with KRS 304.17A-515 and established by the Department as described in this section, unless otherwise approved by the Department in accordance with the requirements in **Section 26.0 “Provider Network.”** Any exceptions shall be justified and documented by the Contractor in accordance with **Section 26.9 “Exceptions to Provider Network.”** Significant changes in the Contractor’s Network composition that reduce Enrollee access to services may be grounds for Contract termination.

The Department may amend these standards as deemed appropriate throughout the Contract Term. The Contractor shall comply with modified standards as directed, but with no less than a ninety (90) Day prior notice unless other timing is required by federal or state regulation.

The Contractor shall make available and accessible facilities, Service Locations, and personnel sufficient to provide Covered Services consistent with the requirements in this subsection.

- 1.B. For areas other than urban areas, a Provider Network that makes available PCP and hospital services within thirty (30) minutes or thirty (30) Miles of each Enrollee's place of residence or work, to the extent those services are available. All other providers shall be available to all Enrollees within fifty (50) minutes or fifty (50) Miles of each Enrollee's place of residence or work, to the extent those services are

In addition, the Contractor shall meet the following as required by the Department:

- 2.A. Enrollee to PCPs ratios shall not exceed 1500:1 FTE Provider for children under twenty-one (21) and adults;
- 2.B. Specific to voluntary family planning, counseling, and medical services as soon as possible within a maximum of thirty (30) Days.  3. General and pediatric dental services;
 4. General vision services; and
 5. Laboratory and radiology services.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

- 2.D. If either the Contractor or a Provider (including Behavioral Health) requires a referral before making an appointment for Specialty Care, any such appointment shall be made within thirty (30) Days for routine care or forty-eight (48) hours for Urgent Care;
- 2.E. Emergency medical and Behavioral Health Services shall be made available and accessible to Enrollees twenty-four (24) hours a day, seven (7) Days a week. Urgent care services by any provider in the Contractor's Network shall be made available and accessible within forty-eight (48) hours of request;
- 2.F. Immediate treatment for any Emergency Medical or Behavioral Health Services by a health provider that is most suitable for the type of injury, illness, or condition, regardless of whether the facility is in the Contractor's Network.
- 2.G. A ninety percent (90%) appointment wait time standard shall be achieved to ensure compliance with the above standards; and
- 2.H. The Contractor shall monitor appointment wait time compliance through Secret Shopper surveys.

The Contractor shall monitor Emergency Room usage in each Medicaid Region by Enrollees for non-emergent visits, provide sufficient alternate sites for twenty-four (24) hour care, and appropriate incentives to Enrollees to reduce unnecessary Emergency Room visits.

The Contractor shall develop and submit to the Department in the format and frequency required, reports listing Providers that have not submitted a claim for three hundred sixty-five (365) Days or longer. The Contractor shall collaborate with the Department and other contracted MCOs, as required by the Department, to establish a strategy for outreach to identified Providers to determine reasons the Providers have not filed claims. The Department shall review the providers' enrollment, all MCO contractors' reports, and direct the Contractors to outreach to specific providers to determine the providers reason for not billing for three hundred sixty-five (365) Days, to encourage increased participation, and to determine if they no longer want to participate and should be terminated from MCO networks.

The Contractor shall develop and provide GeoAccess reports to the Department in accordance with the DMS MMC Program Reporting Package and as directed by the Department. The Contractor shall utilize the most recent GeoAccess program versions available and update periodically and on a timeline defined by the Department. The Contractor shall use GeoCoder software along with the GeoAccess application package.

The Contractor shall only include in its Geographic Access data reports those Providers that have submitted claims within a three hundred sixty-five (365) Day period and that operate a Full-Time Provider location. For purposes of this requirement, a Full-Time Provider location is defined as a location operating for sixteen (16) or more hours in an office location each week. For Providers who have more than one (1) office, the Contractor must indicate each location by a separate record in the Provider file and divide the capacity of the Provider by the number of locations. For example, if the Provider capacity is one hundred fifty (150), and the Provider has two (2) offices, each office would have a capacity of seventy-five (75). The "individual capacity" option should be used when reporting PCPs.

For calculating distance (Miles), the Contractor shall use the maximums for the amount of time it takes an Enrollee using usual travel means in a direct route to travel from place of residence or work to the Provider's location. The Department recognizes that when using NEMT services, transportation may not always follow direct routes due to multiple passengers.

26.5 Provider Network Plan

The Contractor shall develop and submit to the Department a Provider Network Plan that demonstrates the Contractor's capacity to serve its anticipated enrollment in consideration of all required provider types and in accordance with **Section 26.4 "Provider Network Access and**

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

Adequacy,” Commonwealth and federal law, and the terms of the Contract. The Contractor shall submit to the Department for approval the Provider Network Plan with ongoing updates as follows:

- 1.A. Annually;
- 1.B. Within thirty (30) Days of a significant change in the Contractor’s Provider network that impacts network adequacy or the ability to provide services in a Medicaid Region (e.g., addition or loss of a large provider group); and
- 1.C. At other times as requested by the Department throughout the Contract Term.

The Provider Network Plan shall address the following at a minimum:

- 2.A. Overall approach, including:
 1. Activities to establish and maintain a Provider Network that meets the standards in **Section 26.4 “Provider Network Access and Adequacy,”** including a description of the Provider Network and factors and criteria the Contractor used to select Providers and build the Provider Network (e.g., objective quality standards);
 2. Process and methodology to understand the distribution of Enrollee healthcare needs against available Providers and Provider capacity to serve those needs;
 3. Methods to ensure that the Provider Network addresses the needs of all Enrollees, including those with limited English proficiency or illiteracy;
 4. Methods to ensure that Network Providers provide physical access, reasonable accommodations, and accessible equipment for Enrollees with physical or mental disabilities;
 5. Methods to support and sustain Network Providers, including hospitals, in Non-urban and other traditionally underserved areas;
 6. A quantifiable and measurable process for monitoring and ensuring the sufficiency of the Provider Network to meet the healthcare needs of all Enrollees on an ongoing basis;
 7. Methods the Contractor will implement when it or its Network Providers fail to comply with **Section 26.4 “Provider Network Access and Adequacy;”** and
 8. Methods the Contractor will use to analyze access to specific provider types upon Department request.
- 2.B. Quality assurance standards, consistent with the Department’s Quality Strategy and requirements, which must be adequate to identify, evaluate, and remedy problems relating to access, continuing care, and quality care;
- 2.C. Demonstration of level of compliance with the following:
 1. Appropriate range of preventive, primary care, and specialty services that is adequate for the anticipated number of Enrollees by Medicaid Region;
 2. A Provider Network that is sufficient in number, mix, and geographic distribution to meet the needs of the anticipated number of Medicaid Enrollees in the Medicaid Region.
- 2.D. Documentation to support information in the Provider Network Plan (e.g., GeoAccess reports showing geographical location by provider type in relationship to Enrollees’ locations and other data as agreed upon with the Department).

26.6 Provider Contracting

The Contractor shall offer to contract with providers in writing. All Network Provider contracts shall include the standard provisions in **Appendix B “Required Standard Provisions for Network Provider Contracts.”** Consistent with 42 C.F.R. Part 438, neither the Contractor nor its Subcontractors shall require a Provider to participate exclusively with its network to provide Covered Services under this Contract.

The Contractor shall ensure that all Network Providers have knowingly and willfully agreed to participate in the Contractor’s Network. The Contractor shall not acquire established networks without contacting each individual provider to ensure knowledge of the requirements of this Contract and the provider’s complete understanding and agreement to fulfill all terms of the Provider Network Contract.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

The Department reserves the right to confirm and validate, through both the collection of information and documentation from the Contractor and onsite visits to Providers, the existence of a direct relationship between the Contractor and the Providers.

The Contractor shall not require practitioners, as a condition of contracting, to agree to participate or accept other products offered by the Contractor nor shall the Contractor automatically enroll the provider in any other product offered by the Contractor.

Providers shall meet the credentialing standards in **Section 25.7 “Provider Credentialing and Recredentialing”** and be eligible to enroll with the Kentucky Medicaid Program. A provider joining the Contractor’s Network shall meet the Medicaid regulatory provider enrollment requirements and the Medicaid policy and procedures manual for FFS providers of the appropriate provider type. The Contractor is responsible for confirming all Network Providers are credentialed and enrolled in the Kentucky Medicaid Program. The Contractor may include Providers in its Provider Network who do not provide services to the Medicaid FFS population; however, such Providers must be enrolled in the Kentucky Medicaid program.

The Contractor shall have written policies and procedures regarding the selection and retention of the Contractor’s Provider Network. The policies and procedures shall not discriminate against Providers who service high-risk populations or who specialize in conditions that require costly treatment or based upon that Provider’s licensure or certification. The Contractor shall ensure that no incentive is provided, monetary or otherwise, to Providers for withholding Medically Necessary services from Enrollees.

The Contractor shall also make reasonable efforts to recruit providers based on Enrollee requests. When Enrollees ask to receive services from a provider not currently enrolled in the Contractor’s Network, the Contractor shall contact that provider to determine an interest in enrolling and willingness to meet the Contractor’s terms and conditions.

The Contractor shall send all newly contracted Providers a written network participation welcome letter that includes a contract effective date for which Providers are approved to begin providing medical services to Enrollees. The welcome letter shall also provide orientation information as in **Section 25.5 “Provider Orientation and Education.”**

The Contractor shall provide written notice to providers not accepted into the Provider Network along with the reasons for the non-acceptance. A provider cannot enroll or continue participation in the Contractor’s Provider Network if the provider has active sanctions imposed by Medicare, Medicaid, or SCHIP, if required licenses and certifications are not current, if money is owed to the Medicaid Program, or if the Kentucky Office of the Attorney General or other state Medicaid Fraud control unit has an active Fraud investigation involving the provider or the provider otherwise fails to satisfactorily complete the credentialing process. The Contractor shall obtain access to the National Practitioner Database as part of its credentialing process to verify the Provider’s eligibility for network participation. Federal Financial Participation is not available for amounts expended for providers excluded by Medicare, Medicaid, or SCHIP, except for Emergency Medical Services.

26.7 Medicaid Providers Files

The Department will provide the Contractor with access to the Department’s Medicaid provider master file by direct online inquiry access, electronic file transfer, or an extract developed by the Department. The Contractor shall use the Medicaid provider master file to obtain the ten (10)-digit provider number assigned to a medical provider by the Kentucky Medicaid Program, the provider’s status with the Medicaid program, CLIA certification, and other information. The Contractor shall use the Medicaid provider number as the provider identifier when transmitting information or communicating about any provider to the Department or its Fiscal Agent. The Contractor shall

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

transmit a file of provider data specified in this Contract for all credentialed Network Providers monthly and when any information changes.

26.8 Providers Not Participating in Medicaid Fee-for-Service

A provider is not required to participate in the Kentucky Medicaid FFS Program as a condition of participation with the Contractor's Provider Network but must be enrolled in the Kentucky Medicaid Program. If a potential provider has not had a Medicaid number assigned, the provider shall apply for enrollment with the Department. To be enrolled, the provider must meet the Medicaid regulatory provider enrollment requirements and the Medicaid policy and procedures manual for FFS providers of the appropriate provider type. Upon request of a provider, the Contractor shall provide support to the provider in the submission of required materials to the Department for processing of the enrollment. When the Contractor has submitted the required data in the transmission of the provider file indicating inclusion in the Contractor's Network, the Department will enter the provider number on the master provider file and the transmitted data will be loaded to the provider file. The Contractor will receive a report within two (2) weeks of transactions being accepted, suspended, or denied.

All documentation regarding a provider's qualifications and services provided shall be available for review by the Department or its agents when needed for the enrollment process at the Contractor's offices during business hours upon reasonable advance notice.

26.9 Exceptions to Provider Network Requirements

Network adequacy measures the Contractor's ability to deliver the Covered Services required under the terms of the Contract by providing reasonable access to a sufficient number of primary care, specialty, and other types of providers. Recognizing conditions exist in the Commonwealth that may create challenges in meeting network adequacy requirements (e.g., workforce shortages for specific provider types in specific counties, not all counties in Kentucky have a PCP or hospital), the Department will permit the Contractor to request exceptions to Provider Network requirements.

The Department will grant exceptions based on the evidence presented by the Contractor and exceptions granted will generally be time-limited. The Contractor shall partner with the Department and other contracted MCOs to understand the health needs of Kentucky and to develop innovative solutions to develop or foster provider capacity or otherwise meet the healthcare needs of Enrollees and the requirements of this Contract.

In accordance with 42 C.F.R. 438.68(d)(1), the Contractor may request Department approval for an exception to meeting Provider Network adequacy standards in a specific Region for a specific provider type. Requests must be made in writing and include the following:

- 1.A. Description of the Region(s) and specific provider type(s) for which the exception is being made;
- 1.B. Justification for the exception request;
- 1.C. Description of the Contractor's efforts to negotiate with providers in good faith, including detailed information about providers who have been contacted, challenges in contracting, and ongoing efforts to contract;
- 1.D. Description of how the Contractor will provide adequate services to meet the needs of Medicaid Enrollees for the specific Region and provider type; and
- 1.E. A detailed plan to address Enrollees' needs and to remedy the Provider Network deficiency, including an estimated timeline to close the network gap.

The Department will review the exception request and respond as in **Section 4.4 "Approval of Department."** The Department's response will request additional information or issue a decision of approval or Denial based on the evidence presented by the Contractor and other information as identified by the Department. If approved, the Department will include in its notice to the Contractor

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

a specified timeframe for which the approval is granted. The Contractor shall provide updates on the implementation of its plan to remedy the network deficiency as required by the Department.

Forty-five (45) Days before an exception is set to expire, the Contractor shall submit a new request for the exception or inform the Department the exception is no longer needed. Should the Department receive information at any time to question the exception, the Department may deem the Contractor to be out of compliance.

26.10 Termination of Network Providers

1.A. The Contractor shall terminate from participation any Provider who (i) engages in an activity that violates any law or regulation and results in suspension, termination, or exclusion from the Medicare, Medicaid, or KCHIP program; (ii) has a license, certification, or accreditation terminated, revoked, or suspended; (iii) has medical staff privileges at any hospital terminated, revoked, or suspended; or (iv) engages in behavior that is a danger to the health, safety, or welfare of Enrollees.

The Department reserves the right to direct the Contractor to terminate or modify any Provider agreement when the Department determines it to be in the best interest of the Commonwealth. The Department shall notify the Contractor of suspension, termination, and exclusion actions against Medicaid providers by the Kentucky Medicaid program within three (3) Business Days via SharePoint. The Contractor shall terminate the Provider upon receipt of notice by the Department.

1.B. The Contractor shall notify the Department via SharePoint of a Provider termination from the Contractor's Network within three (3) Business Days for any of the following reasons:

1. Adverse Medicare Action;
2. Adverse Action on Professional License;
3. Deceased;
4. Professional License Surrender; or
5. Other State Medicaid Adverse Action.

1.C. The Contractor may terminate from participation any Provider who materially breaches the Provider Agreement with the Contractor and fails to timely and adequately cure such breach in accordance with the terms of the Provider Agreement. The Contractor shall notify the Department via SharePoint of such a Provider termination within three (3) Business Days.

1.D. When a Provider elects to terminate its contract with the Contractor, the Contractor shall notify the Department via SharePoint of such a Provider termination, with or without cause, within three (3) Business Days of the contract termination date.

1.E. The Contractor shall survey all Providers who choose to exit the network and use the results of Provider exit surveys to improve Provider retention and recruitment. The Contractor shall use the Provider exit survey template that is developed through the Department and MCO collaboration process described in **Section 35.1 "General Reporting and Data Requirements."** The Contractor shall provide the Department with survey results upon request.

Contractor notifications to the Department about a Provider termination shall contain the reason, a brief description of the Provider's actions and/or applicable information leading to termination, the NPI, Medicaid ID, Entity Name, Provider Type (two digit) and complete mailing address. The Contractor's notification to the Department shall provide assurances of how the Contractor will maintain network adequacy and access to care despite the Provider termination.

For any terminations, the Contractor shall notify Enrollees who have received a service from the terminating Provider within the previous six (6) months. Such notice shall be mailed within fifteen (15) Days of the action taken if it is a PCP and within thirty (30) Days for any other Provider. As applicable, the notice shall include:

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

- 2.A. If the terminated provider was a contracted PCP, information about selecting or being Auto-Assigned to a new PCP and how the Contractor will assist the Enrollee to transition care to the newly assigned PCP;
- 2.B. If the terminated provider was a specialist, information about how the Contractor will assist the Enrollee to transition care to another specialist.

26.11 Provider Electronic Transmission of Data

The Contractor shall submit information, including any additions or changes to the Provider Network, to demonstrate that the Contractor has an adequate network that meets the Department's standards in **Section 26.4 "Provider Network Access and Adequacy."** The Department will provide the Contractor with the MCO Provider Network file layout, which will be stored on SharePoint and available for review and download for implementation. File submission will be monitored and errors with file processing will be communicated using SharePoint or as defined by the Department. The Department will transmit the Provider Master Extract file to the Contractor daily. The Provider Master Extract file is a full extract of Medicaid providers that have been active within the last six (6) months. The Provider Master Extract file layout is stored on SharePoint and available for review and download for implementation. The Contractor shall work collaboratively with the Department to ensure that the Contractor's file and submitted data complies with the requirements of this Contract. Additionally, the Contractor shall notify the Department, in writing, of any anticipated network changes that may impact Provider Network standards as defined herein.

The Contractor shall update this information to reflect changes in the Contractor's Provider Network monthly. Unless the request is as a result of a determination under **Section 26.13 "Monitoring Compliance with Network Adequacy and Access Requirements"** that the Contractor is not in compliance with the access standards, the Contractor shall have thirty (30) Days to produce documentation on changes to its Network.

Encounter Records containing provider numbers that are not on the Medicaid master provider file will not be accepted.

26.12 Maintaining Current Provider Network Information for Enrollees

The Contractor shall maintain electronic and paper Provider Directories and make those available to Enrollees as required in this Contract. The Contractor shall establish a process that is approved by the Department for monitoring and ensuring the accuracy of its Provider Directory.

In addition to providing changes to the Provider Network to the Department, the Contractor shall ensure that all changes to the Provider Network are communicated to Enrollees within fifteen (15) Days of the change if it is a PCP and within thirty (30) Days of the change for any other Provider. Correcting the Provider Directory maintained by the Contractor on its website within these required timeframes shall comply with this provision. The Contractor shall update a paper Provider Directory at least monthly.

In accordance with 42 C.F.R. 438.10(h), the Provider Directory shall include the following for physicians, hospitals, pharmacies, and behavioral health providers:

- 1.A. Provider's name and any group affiliation;
- 1.B. Street address(es);
- 1.C. Telephone number(s);
- 1.D. Website URL, as appropriate;
- 1.E. Specialty(ies), as appropriate;
- 1.F. Whether the Provider is accepting new Enrollees;
- 1.G. Provider's cultural and linguistic capabilities including languages (including American Sign

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

- Language) offered by the Provider or a skilled medical interpreter at the Provider's office, and whether the Provider has completed cultural competence training; and
- 1.H. Whether the Provider's office/facility has accommodations for people with physical disabilities including offices, exam rooms, and equipment.
 - 1.I. Information for Providers with telehealth capabilities and presentation sites.

For Pharmacy Network Providers, the Contractor will only be required to provide the information in the provider file as designated by the Department.

26.13 Monitoring Compliance with Network Adequacy and Access Requirements

The Contractor shall monitor Provider compliance with access requirements, including but not limited to appointment and wait time standards in **Section 26.4 "Provider Network Access and Adequacy"** and take corrective action for failure to comply. The Contractor shall conduct monitoring such as surveys and office visits to monitor compliance with appointment waiting time standards and shall report findings and corrective actions to the Department in accordance with **Section 35.0 "Contractor Reporting Requirements."**

The Department will monitor the Contractor's compliance with Provider Network requirements and standards on an ongoing basis. The Department will use data from the Contractor's monthly provider file, Geographic Access data reports, enrollment data, and other required Contractor reporting to verify compliance with the Provider Network requirements. The Department will monitor that the Contractor has a sufficient number and distribution of Providers for each provider type. The Department or its Agent may also periodically phone Providers to confirm the Provider is contracted with the Contractor. The Department will also monitor data such as provider satisfaction survey findings, complaints, and appeals data for indications that problems exist with access to Providers. Providers in the Contractor's Network who are not accepting Enrollees shall not be included in the assessment of network adequacy and access.

If at any time, the Contractor or the Department determines that the Contractor's Provider Network does not comply with the standards in **Section 26.4 "Provider Network Access and Adequacy"** for ninety-five percent (95%) of its Enrollees, the Contractor or Department shall notify the other and within fifteen (15) Business Days the Contractor shall submit a CAP to remedy the deficiency.

CAPs for lack of network adequacy shall include, at a minimum, the following:

- 1.A. A summary of the deficiency, including provider type, number of additional FTE providers needed to resolve the deficiency, and the Medicaid Region(s) in which the deficiency exists;
- 1.B. Specific actions and a timeline by which the Contractor anticipates addressing the deficiency;
- 1.C. A list of providers with name, location, and expected date of provider agreement execution with whom the Contractor is currently negotiating a provider agreement and, the number of FTEs that will be addressed by contracting with the provider;
- 1.D. If the Contractor is not in negotiations with providers to help resolve the deficiency, a detailed account of attempts to secure an agreement with each provider that would resolve the deficiency. This shall include the provider's name(s), address(es), date(s) contacted, and a detailed explanation as to why the Contractor is unable to secure an agreement (e.g., lack of provider willingness to participate in the Medicaid program, provider prefers to limit access to practice, rate requests);
- 1.E. A listing of Out-of-Network Providers, including name and location, who are being used to provide the deficient specialty provider services and the rates the Contractor is currently paying these Out-of-Network Providers;
- 1.F. Documentation of how these arrangements are communicated to the Enrollee; and
- 1.G. Documentation of how these arrangements are communicated to the PCPs.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

The Contractor shall also develop and maintain a contingency plan if a large Provider of services collapses or is otherwise unable to provide needed services.

The Department will review all CAPs and contingency plans and determine, based on the actions proposed by the Contractor, available data, and the supply of providers available to Medicaid Enrollees, whether the plan will be accepted. See **Section 37.3 “Requirement of Corrective Action.”**

27.0 PROVIDER PAYMENT PROVISIONS

27.1 Claims Payments

The Contractor shall accept only the uniform Claim forms submitted from providers that have been approved by the Department and completed according to Department guidelines. The Contractor shall accept Claims submitted directly to the Contractor by the Provider. The Contractor shall ensure that payments are made to the appropriate provider.

The Contractor shall allow the same time period for the filing of claims as the Department's FFS program.

27.2 Prompt Payment of Claims

In accordance with 42 C.F.R. 447.46, the Contractor shall comply with the timely Claims payment requirements of 42 C.F.R. 447.45. The Contractor shall consider timely claims filing to be within three-hundred sixty-five (365) Days of the date of service. The Contractor shall implement Claims payment procedures that ensure ninety percent (90%) of all Provider Claims, including to I/T/Us, for which no further written information or substantiation is required to make payment are paid or denied within thirty (30) Days of the date of receipt of such Claims and that ninety-nine percent (99%) of all Claims are processed within ninety (90) Days of the date of receipt of such Claims. In addition, the Contractor shall comply with the Prompt-Pay statute (KRS 304.17A-700-730), KRS 205.593, KRS 304.14-135, and KRS 304.99-123. The Contractor shall provide each Medicaid Provider the opportunity for an in-person meeting with a representative of the Contractor on any Clean Claim that remains unpaid in violation of KRS 304.17A-700 to 304.17A-730; and on any Claim that remains unpaid for forty-five (45) Days or more after the date on which the Claim is received by the Contractor; and that individually, or in the aggregate, exceeds twenty five hundred dollars (\$2,500.00).

The Contractor shall reprocess Claims that are incorrectly paid or denied in error, in compliance with KRS 304.17A-708. The Contractor shall not require a Medicaid Provider to rebill or resubmit such a Claim to obtain correct payment, and no Claim shall be denied for timely filing if the Claim was timely submitted.

The date of receipt is the date the MCO receives the Claim, as indicated by its date stamp on the Claim or other notation as appropriate to the medium used to file a Claim and the date of payment is the date of the check or other form of payment.

The Contractor shall notify the requesting provider of any decision to deny a Claim or to authorize a service in an amount, duration, or scope that is less than requested. Notifications shall include reason for the Denial and contact information for submission of Claims denied because a Subcontractor should have been billed. This information shall also be provided if the denying entity is a Subcontractor.

Any conflict between federal and Commonwealth law will default to the federal law unless the Commonwealth requirements are stricter.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

27.3 Payment to Out-of-Network Providers

The Contractor shall reimburse Out-of-Network Providers in accordance with **Section 27.1 “Claims Payments”** for the following Covered Services:

- 1.A. Specialty care for which the Contractor has approved an authorization for the Enrollee to receive services from an Out-of-Network Provider;
- 1.B. Emergency Care that could not be provided by the Contractor’s Network Provider because the time to reach the Contractor’s Network Provider would have resulted in risk of serious damage to the Enrollee’s health;
- 1.C. Services provided for family planning;
- 1.D. Services for children in Foster Care, if applicable; and
- 1.E. Pharmacy services.

The above listed Covered Services shall be reimbursed at no more than one hundred percent (100%) of the Medicaid fee schedule/rate unless the Covered Service falls under the EPSDT benefit.

27.4 Payment to Providers for Serving Dual Eligible Enrollees

The Contractor shall coordinate benefits for Dual Eligible Enrollees by paying the lesser amount of:

- 1.A. The Contractor’s allowed amount minus the Medicare payment, or
- 1.B. The Medicare co-insurance, deductible, and copayment up to Contractor’s allowed amount.

If Medicaid does not have a price for codes included on a crossover Claim, then the entire Medicare coinsurance and deductible shall be paid by the Contractor. The Contractor shall further assist Dual Eligible Enrollees in the coordination of benefits required under **Section 4.3 “Delegations of Authority.”**

27.5 Payment of Federally Qualified Health Centers (“FQHC”), Rural Health Clinics (“RHC”), and Certified Community Behavioral Health Clinics (“CCBHC”)

As required by the Department, the Contractor is responsible for reimbursing, by making payments directly to FQHCs and RHCs, no less than the amount established under Kentucky’s prospective payment system (PPS) rate for the federally certified facilities.

The Contractor shall ensure that payment for services provided to FQHCs and RHCs is not less than the level and amount of payment the Contractor would make for the services if the services were furnished by other clinics or PCPs. The Department shall reimburse, by making payments directly to FQHCs and RHCs, the difference if the rate is less than the amount paid under Kentucky’s established PPS rate for the federally certified facilities. The Department may not pay an FQHC and RHC in excess of the PPS rate. The Contractor may also limit payment to the PPS rate.

The Contractor shall report to the Department within forty-five (45) calendar Days of the end of each quarter the total amount paid to each FQHC and RHC per month. The report shall include the provider number, name, total number of paid Claims per month, total amount paid by Contractor, and any adjustments. The report shall include the provider number, name, total number of paid Claims per month, total amount paid by the Contractor, and any adjustments. 27.11 Independence of Provider Reimbursement Rates and Methodologies

Unless explicitly stated elsewhere in this Contract, the Department does not direct the Contractor's expenditures for services provided under this Contract, and reimbursement rates and methodologies for services provided under this Contract are at the sole discretion of the Contractor.

27.12 Notice to Providers on Change of Reimbursement

The Contractor shall give at least thirty (30) Days written notice to Providers prior to any change in payment structure or reimbursement amount. The written notice must contain clear and detailed information about the change. The changes shall not be retroactive.

28.0 COVERED SERVICES

28.1 Medicaid Covered Services

The Contractor shall provide Covered Services in an amount, duration, and scope that is no less than the amount, duration, and scope furnished to Medicaid recipients under the FFS program, and for Enrollees under the age of twenty-one (21) as in 42 C.F.R. 441 Subpart B; that are reasonably expected to achieve the purpose for which the services are furnished; enables the Enrollee to achieve age-appropriate growth and development; and enables the Enrollee to attain, maintain, or regain functional capacity. The Contractor shall not arbitrarily deny or reduce the amount, duration, or scope of a required service solely because of the diagnosis, type of illness, or condition.

The Contractor shall provide or arrange for the provision of Covered Services to Enrollees in

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

accordance with the state Medicaid plan, state laws and regulations, and policies and procedures applicable to each category of Covered Services.

The Contractor shall ensure that the care of new Enrollees is not disrupted or interrupted. The Contractor shall ensure continuity of care for new Enrollees receiving healthcare under FFS prior to Enrollment in the Plan. **Appendix E “Covered Services”** shall serve as a summary of currently Covered Services that the Contractor shall be responsible for providing to Enrollees. However, it is not intended, nor shall it serve as a substitute for the more detailed information relating to Covered Services, which is contained in the State Medicaid Plan, applicable administrative regulations governing Kentucky Medicaid services, and individual Medicaid program services manuals incorporated by reference in the administrative regulations.

After the Execution Date, to the extent a new or expanded Covered Service is added by the Department to Contractor’s responsibilities under this Contract (“New Covered Service”) the financial impact of such New Covered Service will be evaluated from an actuarial perspective by the Department, and Capitation Rates to be paid to Contractor will be adjusted, if necessary, according to **Sections 11.2 “Rate Adjustments”** and, if applicable, **38.3 “Amendments.”** The determination that a Covered Service is a New Covered Service or that it requires an amendment to the Contract is at the discretion of the Department. At least ninety (90) Days before the effective date of the addition of a New Covered Service, the Department will provide written notice to Contractor of any such New Covered Service and any adjustment to the Capitation Rates herein as a result of such New Covered Service. This notice shall include: (i) an explanation of the New Covered Service; (ii) the amount of any adjustment to Capitation Rates herein as a result of such New Covered Service; and (iii) the methodology for any such adjustment.

The Contractor may provide, or arrange to provide, services in addition to the services described above, provided that quality and access are not diminished, the services are Medically Necessary health services, and cost-effective. The cost for these additional services shall not be included in the Capitation Rate. The Contractor shall notify and obtain approval from the Department for any new services prior to implementation. The Contractor shall notify the Department by submitting a proposed plan for additional services and specify the level of services in the proposal.

For any Medicaid service provided by the Contractor that requires the completion of a specific form (e.g., hospice, sterilization, hysterectomy, or abortion), the form shall be completed according to the appropriate regulatory requirements. The Contractor shall require its Subcontractor or Provider to retain the form in the event of audit and a copy shall be submitted to the Department upon request.

The Contractor shall not prohibit or restrict a Provider from advising an Enrollee about his or her health status, medical care, or treatment, regardless of whether benefits for such care are provided under the Contract, if the Provider is acting within the lawful scope of practice.

If the Contractor is unable to provide necessary Covered Services within its network, it shall timely and adequately cover these services out of network for the Enrollee for as long as the Contractor is unable to provide the services in accordance with 42 C.F.R. 438.206. The Contractor shall coordinate with Out-of-Network Providers with respect to payment. The Contractor will ensure that the cost to the Enrollee is no greater than it would be if the services were provided within the Contractor’s Network.

An Enrollee who has received Prior Authorization from the Contractor for referral to a specialist physician or for inpatient care shall be allowed to choose from among all the available specialists and hospitals within the Contractor’s Network, to the extent reasonable and appropriate.

To the extent the Department may remove or carve out certain Covered Services from the Contractor’s responsibilities, the financial impact of such removal or carve out will be evaluated

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

from an actuarial perspective by the Department, and Capitation Rates to be paid to the Contractor will be adjusted, if necessary, according to **Sections 11.2 “Rate Adjustments”** and, if applicable, **38.3 “Amendments.”** The Department will provide at least thirty (30) Days’ written notice prior to the removal or carve out of a Covered Service. The determination to remove or carve out a Covered Service or that such action requires an amendment to the Contract is at the discretion of the Department. However, an amendment will be required if the Department carves out a service category such as pharmacy, dental, or behavioral health.

28.2 Direct Access Services

The Contractor shall make Covered Services available and accessible to Enrollees as specified in this Contract. The Contractor shall routinely evaluate Out-of-Network utilization and shall contact high-volume providers to determine if they are qualified and interested in enrolling in the Contractor’s Network. If so, the Contractor shall enroll the provider as soon as the necessary procedures have been completed. When an Enrollee wishes to receive a direct access service or receives a direct access service from an Out-of-Network Provider, the Contractor shall contact the provider to determine if it is qualified and interested in enrolling in the network. If so, the Contractor shall enroll the provider as soon as the necessary enrollment procedures have been completed.

The Contractor shall ensure direct access and may not restrict the choice of a qualified provider by an Enrollee for the following services within the Contractor’s Network:

28.5 Billing Enrollees for Covered Services

The Contractor and its Providers and Subcontractors shall not bill an Enrollee for Medically Necessary Covered Services except for applicable co-pays or other cost sharing requirements provided under this Contract. Any Provider who knowingly and willfully bills an Enrollee for a Medicaid Covered Service shall be guilty of a felony and upon conviction shall be fined, imprisoned, or both, as in 42 U.S.C. 1320a-7b. This provision shall remain in effect even if the Contractor becomes insolvent.

However, if an Enrollee agrees in advance in writing to pay for a Non-Medicaid covered service, then the Contractor, the Contractor's Provider, or Contractor's Subcontractor may bill the Enrollee. The standard release form signed by the Enrollee at the time of services does not relieve the Contractor, Providers, and Subcontractors from the prohibition against billing a Medicaid Enrollee in the absence of a knowing assumption of liability for a Non-Medicaid Covered Service. The form or other type of acknowledgement relevant to Medicaid Enrollee liability must specifically state the services or procedures that are not covered by Medicaid.

28.6 Referrals for Services Not Covered by Contractor

When it is necessary for an Enrollee to receive a Medicaid service that is outside the scope of the Covered Services provided by the Contractor, the Contractor shall refer the Enrollee to a provider enrolled in the Medicaid FFS program. The Contractor shall have written policies and procedures for the referral of Enrollees for Non-Covered Services that shall provide for the transition to a qualified healthcare provider and, where necessary, assistance to Enrollees in obtaining a new Primary Care Provider. The Contractor shall submit any desired changes to the established written referral policies and procedures to the Department for review and approval subject to **Section 4.4 "Approval of Department."**

28.7 Interface with State Behavioral Health Agency

The Contractor shall report all identified provider-preventable conditions in a form or frequency as specified by the Department.

28.9 Mental Health Parity

The Contractor and its providers must comply with the Mental Health Parity and Addiction Equity Act of 2008 and 42 C.F.R. 438 Subpart K, including the requirements that treatment limitations applicable to mental health or substance use disorder benefits are no more restrictive than the predominant treatment limitations applied to substantially all medical and surgical benefits covered by the Contractor and there are no separate treatment limitations that apply only to mental health or substance use disorder benefits.

28.10 CAA 2023 Required Reentry Services

The Department and the Contractor must comply with the Consolidated Appropriations Act of 2023 requiring Medicaid and Children's Health Insurance Program provisions under section 5121. This provision targets improving the health of justice-involved youth and takes effect on January 1, 2025.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

When implemented, the Contractor may cover for Enrollees, services or settings that are in lieu of services or settings covered under the State Plan. Contract provisions between the Department and the Contractor will address, but not be limited to, the following federal regulations set forth at 42 C.F.R. 438.3(e)(2) that allow for MCOs to cover ILOS:

- 1.A. The ILOS is a medically appropriate and cost effective substitute for the covered service or setting under the State Plan;
- 1.B. Enrollees are not required to use the ILOS, they retain all rights and protections afforded under 42 C.F.R. 438, and when choosing not to receive an ILOS they retain rights to receive the services or settings covered under the State Plan on the same terms as would apply if an ILOS was not an option;
- 1.C. The ILOS may not be used to reduce, discourage, or jeopardize an Enrollee's access to services and settings covered under the State Plan, and the MCO may not deny access to a service or setting covered under the State Plan on the basis that the Enrollee has been offered an ILOS as an optional substitute for a service or setting covered under the State Plan, is currently receiving an ILOS as a substitute for a service or setting covered under the State Plan, or has utilized an ILOS in the past;
- 1.D. The utilization and actual cost of the ILOS is taken into account in developing the component of the capitation rates that represents the covered State Plan services and settings, unless a statute or regulation explicitly requires otherwise; and
- 1.E. With the exception of a short term stay as specified in 42 C.F.R. 438.6(e) in an Institution for Mental Diseases (IMD), as defined in 42 C.F.R. 435.1010 for inpatient mental health or substance use disorder treatment, an ILOS must also comply with the requirements in 42 C.F.R. §438.16.

28.12 Institutions for Mental Disease (IMD) Expansion

In accordance with 42 C.F.R. 438.3(e)(2), the Contractor may cover services or settings in lieu of services or settings covered under the State Plan, including an inpatient stay in an IMD for psychiatric services for Enrollees aged twenty-one (21) through sixty-four (64) for a short term stay up to the number of days permitted by CMS.

- 1.A. The services and settings will be reimbursable and subject to the requirements of 42 C.F.R. Part 438.
- 1.B. Per 42 C.F.R. 438.3(e)(2)(v), the Contractor may not require an Enrollee to receive services in an IMD.
- 1.C. The Contractor shall track the number of days of the Enrollee's stay in an IMD during a calendar month. If the Enrollee's stay exceeds fifteen (15) Days in a month, the Contractor shall notify the Department as part of its ongoing reporting.
- 1.D. The Enrollee will remain in the Contractor's plan. For months when the Enrollee's stay exceeds fifteen (15) Days, the Contractor will receive a pro-rated Capitation Payment for the days the Enrollee is not in the IMD. 29.18 High Cost Drug Stop Loss Pool

DMS will establish a High Cost Drug Stop Loss Pool (Stop Loss Pool) for all managed care Contractors. Except for the dual eligible population, all Kentucky Medicaid managed care populations and regions are subject to the Stop Loss Pool. Funding and payment from the stop loss pool will be done in a one-time transaction among the MCOs following the end of each Calendar Year. The Stop Loss Pool will be budget-neutral to the Department.

For eligible claims, the Stop Loss Pool will reimburse an MCO based on the prescribed stop loss formula illustrated by the Department's actuaries. Six months after the end of CY 2021, a comparison will be made between each MCO's contributions to the Stop Loss Pool (via PMPM amounts in each rate cell) relative to eligible reimbursement. Based on Stop Loss Pool contributions and payments, either a recoupment will be required from the MCO or the MCO will receive additional revenue. Additional adjustments to the stop loss pool payment methodology when actual drug costs are above or below estimated amounts will be described by the Department's actuaries to all MCOs. Drug products eligible for the Stop Loss Pool will be determined by the Department and provided to all MCOs.

For claims to be eligible for Stop Loss Pool reimbursement, the Contractor must submit proof of the acquisition cost of the drug paid by the provider. Documentation must include: 1) the Medicaid member ID; 2) incurred date of the claims; 3) actual cost paid to the provider; 4) actual acquisition cost with the invoice amount from the manufacturer or buyer of the drug provided to the Contractor by the provider; 5) applicable NDC or J-code identifying the drug; 6) quantity of the drug. Note, as MCOs are not allowed to retain any pharmaceutical rebates, except for supplemental rebates for medically billed drugs, rebates do not need to be considered in the stop loss pool calculation. If a rebate is obtained, the amount must be reported to the Department.

A pharmacy benefits claim is required to have the NDC billed through a retail or specialty pharmacy. A medical benefits claim is required to be billed through a CMS 1500 form or 837P electronic claim. All medical benefits claims are required to have the NDC and its corresponding HCPCS code that begins with the letter "J" (drugs administered other than oral method, chemotherapy drugs).

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

The Department, at its discretion, may choose to carve-out certain drug therapies and/or therapeutic drug classes from managed care to be covered by the FFS pharmacy benefit or the FFS medical benefit. The MCOs will be notified in writing thirty (30) Days prior to the change in coverage of products moving from managed care to FFS.

In lieu of a carve out to FFS, the Department may identify certain drug therapies and/or therapeutic drug classes that are not part of the high cost drug pool that would be reimbursed by the Department directly to the Contractor through an invoice after the close of the calendar year. The Department will provide the Contractor with the criteria to identify the applicable drug as well as the process to request reimbursement.

If the Contractor does not provide and cover an appropriate community alternative, the Contractor shall remain financially responsible for the continued inpatient care of these individuals until the Contractor ensures availability and access to an appropriate community provider.

32.0 POPULATION HEALTH MANAGEMENT PROGRAM

32.1 Program Overview

The Department is working to transform the Medicaid program to drastically improve outcomes for a variety of healthcare conditions and to empower individuals to improve their health and engage in their healthcare. To support these goals, the Contractor shall implement an innovative Population Health Management (PHM) Program to improve the health of Enrollees through an innovative, person-centered approach that addresses medical and non-medical drivers of health while reducing inappropriate utilization and costs. Person-centered supports will focus on the whole person, addressing physical health, behavioral health, functional, equity, and SDoH.

To drive improved outcomes for its Enrollees, the Contractor shall establish and operate an integrated PHM Program that incorporates components of NCQA's PHM Program.

The Contractor shall implement a PHM Program that supports Enrollees across the care continuum, promoting healthy behaviors and self-management as well as providing, as needed, Care Coordination and Complex Care Management supported by evidence-based medicine and national best practices.

ATTACHMENT C - Medicaid Managed Care Contract and Appendices

The Contractor shall submit its written PHM Program Plan to the Department for review and approval annually no later than June 30 of each year. The PHM Program Plan must address all program elements in this Section and others based on the specific components of the Contractor's Program. The Department encourages the Contractor to incorporate innovations into its PHM Program that will have the highest potential for success within the Kentucky healthcare landscape. Therefore, the Contractor may also submit alternative approaches and innovations to the Department for review and approval.

In alignment with NCQA's PHM Model, the Contractor shall implement a PHM Program that incorporates the below three risk levels, at a minimum, in the most cost-effective manner possible.

1.A. Health Promotion and Wellness. The Contractor shall provide comprehensive wellness and prevention support to Enrollees with little or no risk factors. The Contractor shall provide services and supports to encourage Enrollees to become proactive participants in their health and well-being and promote healthy lifestyles.

The Contractor is encouraged to test and evaluate cost-effective Enrollee health promotion and wellness strategies, from high-touch, personal interactions to technology-based solutions. The Contractor shall collaborate with the Department and other entities, such as DPH, on joint preventive health and wellness initiatives, as appropriate.

1.B. Management of Chronic Conditions. The Contractor shall provide Care Coordination support to Enrollees who have been identified as having emerging risk factors and/or one (1) targeted chronic condition. The Contractor shall provide services to Enrollees that aim to reduce healthcare costs and improve quality of life for Enrollees who have a chronic condition through integrative care. Care Coordination should help Enrollees address potential co-morbidities or other complications and help avoid complications.

1.C. Complex Care Management provides support to Enrollees with complex clinical, behavioral, functional, and/or social needs, who have the highest risk factors such as multiple conditions, or multiple medications, served within multiple systems and often have the highest costs. Required interventions are more intensive.

The Contractor shall develop strategies and interventions to help manage the needs of these Enrollees, such as the development of a person-centered Care Plan, coordination of care to address all required needs and to support the Enrollee in obtaining the required care, and telephonic and face-to-face engagement with Enrollees as deemed necessary by the Care Plan. The Contractor shall assign care managers to these individuals to support the implementation of the Care Plan and to facilitate the receipt of necessary care and services.

Enrollees will have the option to participate in the Contractor's PHM Program based on the Contractor's identification of each Enrollee's needs for support. While the Contractor may not mandate participation, the Contractor shall implement innovative strategies to attain high levels of Enrollee participation.

For all risk levels, the Contractor's PHM Program Plan shall provide information about the following at a minimum:

32.3 Population Health Management Program Tools

The Contractor shall use a variety of tools to support the identification of and care for Enrollees for the PHM Program. The Contractor shall use the tools identified in this section, but is encouraged to use others as it deems appropriate to support implementation of its program to address Enrollee needs in a cost-effective manner.

1.A. Risk Stratification and Service Tiers

The Contractor shall implement a risk stratification methodology to determine the risk of its overall population and to identify individual Enrollee risk levels. The Contractor's methodology should include use of integrated data to support identification of an Enrollee's need for specific services. The risk stratification process should identify and predict which beneficiaries are at high risk. The Contractor should use disease, comorbidity, health assessments, healthcare costs, as well as other criteria (such as age and gender), to stratify members. The methodology should rely on claims and demographic data to determine risk score.

The Contractor may develop tiers of services within each risk level to address Enrollees with varying levels and intensity of care needs.

The Contractor shall conduct risk stratification on an ongoing basis on a schedule that is documented in the Contractor's PHM Program Plan.

1.B. Health Risk Assessments (HRA)

The Contractor shall utilize a standardized Health Risk Assessment (HRA) tool, as approved by the Department, to determine an Enrollee's general needs for participation in the PHM Program. The completion rate of an initial and annual HRA should be twenty percent (20%) or greater for each and identify Enrollees who may require an Enrollee Needs Assessment. The information to be collected shall include, at a minimum: 1) General characteristics and health needs; 2) Health status and behaviors; 3) Health education and cultural and linguistic needs; 4) Health Disparities; 5) SDoH; 6) Behavioral health status; 7) Any gaps in needed services and resources even if they are not Covered Services; and 8) race, ethnicity, and gender. As part of the HRA process, the Contractor shall explain the purpose to Enrollees and available PHM Program services should they be determined in need of such services.

The Contractor shall conduct HRAs as follows:

1. Initial HRAs, including SDoH, health equity, mental health, and substance use disorders screenings, of new Enrollees who have not been enrolled with the Contractor in the prior twelve (12) month period, to assess the Enrollees' healthcare needs within ninety (90) Days of Enrollment or earlier if the Enrollee is identified via other information or self identifies as having specific healthcare or social needs.

The Contractor shall make all reasonable efforts in accordance with this Contract to contact Enrollees in person, by telephone, email, or mail to complete the HRA. "Reasonable effort" is defined as making at least three (3) attempts to contact the Enrollee with at least one (1) of those attempts by telephone. The three (3) attempts by the Contractor may not be within the same day. Should the Contractor not have a usable telephone number for an Enrollee, the Contractor shall contact the Enrollee's PCP or other healthcare providers, if applicable, to try to obtain a usable number.

1.C. The Contractor shall use Government Alliance on Race and Equity (GARE) Tool or other

Additional evidence-based tools to assist in the development of strategies and actions that reduce access disparities among LGBTQIA+ individuals should also be explored and used, as appropriate.

1.D. Enrollee Needs Assessments

For Enrollees identified through HRA completion, referral, risk scoring, and stratification, or other methods as determined by the Contractor as potentially in need of a higher level of PHM Program services, the Contractor shall conduct a comprehensive Enrollee Needs Assessment to determine the Enrollee's PHM Program service needs.

The Contractor shall complete the Enrollee Needs Assessment with the Enrollee and/or designated representative via telephone, in person at a location that meets the Enrollee's needs, or by other methodologies as the Contractor deems appropriate for differing Enrollee demographics or needs. The Contractor shall make all reasonable efforts in accordance with this Contract to complete the Enrollee Needs Assessment within ninety (90) Days of identifying an Enrollee in potential need of care management services, or within an earlier timeframe for Enrollees identified as having more immediate needs. "Reasonable effort" is defined as making at least three (3) attempts to contact the Enrollee with at least one (1) of those attempts by telephone. The three attempts by the Contractor may not be within the same day. Should the Contractor not have a usable telephone number for an Enrollee, the Contractor shall contact the Enrollee's PCP or other healthcare providers, if applicable, to try to obtain a usable number.

Based on the Contractor's findings, the Contractor shall make a determination as to the Enrollee's need for care management services, as well as the intensity of services required. The Contractor shall have a process for determining level, or tier, of services the Enrollee requires based on the Enrollee's level of risk.

The Contractor shall share the findings of the Enrollee Needs Assessment with the Enrollee, the Enrollee's PCP or other referring provider, and other care management team members within fourteen (14) Days of completion and as consented to by the Enrollee to the extent required by law. Findings shall include the Contractor's recommendation for receipt of PHM Program services.

Third Party Liability (TPL) Subsystem

To ensure that federal third party liability requirements are met and to maximize savings from available Third Party Resources, identification and recovery of Third Party Resources must be a joint effort between the Department and the Contractor. The Department will provide Contractor with the Medicare effective dates.

The Third Party Liability (TPL) processing function permits the Contractor to utilize the private health, Medicare, and other third-party resources of its Members and ensures that the Contractor is the payer of last resort. This function works through a combination of cost avoidance (non-payment of billed amounts for which a third party may be liable) and post-payment recovery (post-payment collection of Contractor paid amounts for which a third party is liable).

Cost avoidance is the preferred method for processing claims with TPL. This method is implemented automatically by the MIS through the application of edits and audits which check claim information against various data fields on recipient, TPL, reference, or other MIS files. Post-payment recovery is primarily a back-up process to cost avoidance, and is also used in certain situations where cost avoidance is impractical or unallowable.

The TPL information maintained by the MIS must include Member TPL resource data, insurance carrier data, health plan coverage data, threshold information, and post payment recovery tracking data. The TPL

processing function will ensure the presence of this information for use by the Edit/Audit Processing, Financial Processing, and Claim Pricing functions, and will also use it to perform the functions described in this subsection for TPL Processing.

Utilization/Quality Improvement

The Contractor shall capture and maintain a patient-level record of each service provided to Members using CMS 1500, UBO4, NCPDP, HIPAA code sets, or other Claim or Claim formats that shall meet the reporting requirements in this Contract. The computerized database must contain and hold a complete and accurate representation of all services covered by the Contractor, and by all providers and Subcontractors rendering services for the contract period. The Contractor shall be responsible for monitoring the integrity of the database and facilitating its appropriate use for such required reports as encounter data, and targeted performance improvement studies.

Contractor shall comply with the requirements of 42 C.F.R. 455.20 (a) by employing a selected sample method approved by CMS and the Department of verifying with Members whether the services billed by the provider were received.

The utilization/quality improvement subsystem combines data from other subsystems, and/or external systems, to produce reports for analysis that focus on the review and assessment of access, availability and continuity of services, quality of care given, detection of over and underutilization of services, and the development of user-defined reporting criteria and standards. This system profiles utilization of Providers and Members and compares them against experience and norms for comparable individuals.

The subsystem shall support tracking utilization control function(s) and monitoring activities, including Geo Network for all Encounters in all settings particularly in-patient and outpatient care, emergency room use, outpatient drug therapy, EPSDT, and out-of-area services. It shall complete provider profiles; occurrence reporting, including adverse incidents and complications, monitoring and evaluation studies; Members and Providers aggregate Grievances and Appeals; effects of educational programs; and Member/Provider satisfaction survey compilations. The subsystem may integrate the Contractor's manual and automated processes or incorporate other software reporting and/or analysis programs.

The Contractor's utilization/quality improvement subsystem shall contain such items as: monitoring of primary care and specialty provider referral patterns processes to monitor and identify deviations in patterns of treatment from established standards or norms, performance and health outcome measures using standardized indicators. The quality improvement subsystem will be based upon nationally recognized standards and guidelines, including but not limited to, a measurement system based upon the most current version of HEDIS published by the National Committee for Quality Assurance.

Surveillance Utilization Review Subsystem (SURS)

In accordance with 42 C.F.R. 455, the Contractor shall establish a SURS function, which provides the capability to identify potential fraud and/or abuse of providers or Members. The SURS component supports profiling, random sampling, groupers (for example Episode Treatment Grouper), ad hoc, and targeted queries.

The utilization/quality improvement function combines data from other external systems, such as Geo Network to produce reports for analysis, which focus on the review and assessment of access and availability of services and quality of care given, detection of over and underutilization, and the development of user-defined reporting criteria and standards. This system profiles utilization of Providers and Members and compares them against experience and norms for comparable individuals.

This system supports tracking utilization control function(s) and monitoring activities for inpatient admissions, emergency room use, and out-of-area services. It completes Provider profiles, occurrence reporting, monitoring and evaluation studies, and Member/Provider satisfaction survey compilations. The subsystem may integrate the Contractor's manual and automated processes or incorporate other software reporting and/or analysis programs.

This system also supports and maintains information from Member surveys, Provider and Member Grievances, and Appeal processes.

10. Provide Fraud, Waste, and Abuse detection, monitoring and reporting.

C. Reports

Utilization/quality improvement reports are listed in Appendices K and L.

Claims Control and Entry

The Claims Control function ensures that all claims are captured at the earliest possible time and accurately. Claims must be adjudicated within the parameters of the Prompt Pay standards set by CMS and the American Recovery and Reinvestment Act (ARRA).

Edit/Audit Processing

The Claims processing subsystem collects, processes, and stores data on all health services delivered. The functions of this subsystem are Claims payment processing and capturing medical service utilization data. Claims are screened against the provider and Member subsystems. The Claims processing subsystem captures all medically related services, including medical supplies, using standard codes (e.g., HCPCS, ICD9-CM/ICD-10 CM/PCS diagnosis and procedure code, Revenue Codes, ADA Dental Codes,

and NDCs) rendered by medical providers to a Member regardless of remuneration arrangement (e.g. capitation/FFS). The Contractor shall be required to electronically transmit Encounter Records to the Department weekly or on a Department approved schedule determined by the Contractor's financial schedule.

The Contractor's Claims processing/encounter subsystem shall contain such items as: apply edit and audit criteria to verify timely, accurate, and complete Encounter Record; edit for prior-authorized Claims; identify error codes for Claims.

The Edit/Audit Processing function ensures that Claims are processed in accordance with Department and Contractor policy and the development of accurate encounters to be transmitted to the department. This processing includes application of non-history-related edits and history-related audits to the Claim. Claims are screened against Member and Provider eligibility information; pended and paid/denied claims history; and procedure, drug, diagnosis, and edit/audit information. Those Claims that exceed Program limitations or do not satisfy Program or processing requirements, suspend or deny with system assigned error messages related to the Claim.

Claims also need to be edited utilizing all components of the CMS mandated National Correct Coding Initiative (NCCI)

A. Inputs

The inputs to the Edit/Audit Processing function are:

1. The Claims that have been entered into the claims processing system from the claims entry function;
2. Member, Provider, reference data required to perform the edits and audits.

B. Processing Requirements

Basic editing necessary to pass the Claims onto subsequent processing requires that the MIS have the capabilities to:

1. Edit each data element on the Claim record for required presence, format, consistency, reasonableness, and/or allowable values.
2. Edit to ensure that the services for which payment is requested are covered.
3. Edit to ensure that all required attachments are present.
4. Maintain a function to process all Claims against an edit/audit criteria table and an error disposition file (maintained in the Reference Data Maintenance function) to provide flexibility in edit and audit processing.
5. Edit for prior authorization requirements and to ensure that a prior authorization number is present on the Claim and matches to an active Prior Authorization on the MIS.
6. Edit Prior-Authorized claims and cut back billed units or dollars, as appropriate, to remaining authorized units or dollars, including Claims and adjustments processed within the same cycle.
7. Maintain edit disposition to deny Claims for services that require Prior Authorization if no Prior Authorization is identified or active.
8. Update the Prior Authorization record to reflect the services paid on the Claim and the number of services remaining to be used.
9. Perform relationship and consistency edits on data within a single Claim for all Claims.
10. Edit for third party liability (TPL).
11. Perform automated audit processing (e.g., duplicate, conflict) using history Claims, suspended Claims, and same cycle Claims.
12. Edit for potential duplicate claims by taking into account group and rendering Provider, multiple Provider locations, and across Provider and Claim types.
13. Identify exact duplicate claims.
14. Perform automated audits using duplicate and suspect-duplicate criteria to validate against history and same cycle claims.
15. Perform all components of NCCI edits

16. Maintain audit trail of all error code occurrences linked to a specific Claim line or service, if appropriate.
17. Edit and suspend each line on a multi-line Claim independently.
18. Edit each Claim record completely during an edit or audit cycle, when appropriate, rather than ceasing the edit process when an edit failure is encountered.
19. Identify and track all edits and audits posted to the claim from suspense through adjudication.
20. Update Claim history files with both paid and denied Claims from the previous audit run.
21. Maintain a record of services needed for audit processing where the audit criterion covers a period longer than thirty-six (36) months (such as once-in-a-lifetime procedures).
22. Edit fields in Appendices D and E for validity (e.g., numerical field, appropriate dates, values).

Claims Pricing

The Claims Pricing function calculates the payment amount for each service according to the rules and limitations applicable to each Claim type, category of service, type of provider, and provider reimbursement code. This process considers the Contractor allowed amount, TPL payments, Medicare payments, Member age, prior authorized amounts, and any co-payment requirements. Prices are maintained on the Reference files (e.g., by service, procedure, supply, drug) or provider-specific rate files and are date-specific.

The Contractor MIS must process and pay Medicare Crossover Claims and adjustments.

- A. Inputs
The inputs into the Claims Pricing function are the Claims that have been passed from the edit/audit process.

The Reference and Provider files containing pricing information are also inputs to this function.
- B. Processing Requirements
The Claims Pricing function for the FFS contracts the vendor has with providers of the MIS must have the capabilities to:

then current Kentucky Medicaid State Plan and as required by federal and state regulations, guidelines, transmittals, and procedures.

This Appendix was developed to provide, for illustration purposes only, the Contractor with a summary of currently covered Kentucky Medicaid services and to communicate guidelines for the submission of specified Medicaid reports. The summary is not meant to act, nor serve as a substitute for the then-current administrative regulations and the more detailed information relating to services which is contained in administrative regulations governing the provision of Medicaid services and in individual Medicaid program services benefits summaries incorporated by reference in the administrative regulations. If the Contractor questions whether a service is a Covered Service or Non-Covered Service, the Department reserves the right to make the final determination, based on the then-current administrative regulations in effect at the time of the contract.

Administrative regulations and incorporated by reference Medicaid program services benefits summaries may be accessed by contacting:

Kentucky Cabinet for Health and Family Services
Department for Medicaid Services
275 East Main Street, 6th Floor

Kentucky's Medicaid State Plan, administrative regulations, and incorporated by reference materials are also accessible via the Internet at <http://www.chfs.ky.gov/dms/Regs.htm>.

Kentucky Medicaid covers only Medically Necessary services. These services are considered by the Department to be those that are reasonable and necessary to establish a diagnosis and provide preventive, palliative, curative, or restorative treatment for physical or mental conditions in accordance with the standards of healthcare generally accepted at the time services are provided, including but not limited to services for children in accordance with 42 U.S.C. 1396d(r). APPENDIX F. TRANSITION/COORDINATION OF CARE PLANS

Upon receipt of a HIPAA 834 indicating that a Member is transferring from one Medicaid Managed Care Organization (Former MCO) to another MCO (New MCO), the Former MCO shall be responsible for contacting the New MCO, the recipient and the recipient's providers to transition existing care. A Prior Authorization (PA) shall be honored by the New MCO for ninety (90) Days or until the recipient or provider is contacted by the New MCO regarding the PA. If the recipient and provider are not contacted by the New MCO, the existing Medicaid PA shall be honored until expired.

Inpatient Hospital Admission Prior to the Member's Transition.

If an enrolled Member is in-patient in an acute care hospital, critical care hospital, acute rehabilitation facility, psychiatric hospital or long term acute care facility at the time of transition, the entity responsible for the Member's care at the time of admission shall continue to provide coverage for the Member at that facility, including all Professional Services, until the recipient is discharged from the facility for the current admission. An inpatient admission within fourteen (14) calendar days of discharge for the same diagnosis shall be considered a "current admission." The "same diagnosis" is defined as the first five digits of a diagnosis code.

Outpatient Facility Services and Non-Facility Services

Effective on the Member's Transition date, the New MCO will be responsible for outpatient services both facility and non-facility. Outpatient reimbursement includes outpatient hospital, ambulatory surgery centers, and renal dialysis centers.

Nursing Homes

Eligibility for Long Term Care in a Nursing Facility (NF) includes some financial requirements not needed for basic Medicaid eligibility. When an eligible member enters an NF the facility must receive a Level of Care (LOC) determination to ensure the member meets medical criteria for Nursing Facility. That LOC is passed electronically to the DCBS eligibility worker, triggering the eligibility determination for this additional benefit. That determination can generally be completed within thirty Days. Once LTC eligible, worker entries exempt the member from managed care effective with the next feasible month. If the worker action is completed prior to cut off (eight Business Days before the end of the month), managed care ends on the last day of the current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for ancillary, physician, and pharmaceutical charges, and the Department will reimburse for those services billed by Nursing Facility. Once exempt from Managed Care, the Department will be responsible for all eligible services associated with this recipient.

Waiver Participation

1915(c) Home and Community Based Services Waiver programs are simply added benefits for eligible members; however, the action that exempts those members from being subject to Managed Care resides with the DCBS eligibility worker. These services require a Level of Care (LOC). The LOC is passed electronically to the DCBS eligibility worker; receipt of the LOC triggers the eligibility worker to complete entries within the eligibility system. Those entries exempt the member from managed care effective the next feasible month. If the worker action is completed prior to cut off eight (8) Business Days before the end of the month, managed care ends on the last day of the current month. If the action is after cut off, managed care ends the last day of the following month. During this transition, the MCO will be responsible for all services except the additional Waiver benefits. The Waiver Services will be paid by the Department as FFS. Coding in the billing system allows the Waiver Service to be processed during the transition period, once the eligibility worker has completed the necessary entries. Once exempt from Managed Care, the Department will be responsible for all services associated with this recipient.

Transplants

Follow up care provided on or after the Member's Transition that is billed outside the Global Charges, will be the responsibility of the New MCO.

Eligibility Issues

For a Member who loses eligibility during an inpatient stay, the Contractor is responsible for the care through discharge if the hospital is compensated under a DRG methodology or through the day of ineligibility if the hospital is compensated under a per diem methodology. If a member with no prior or other coverage becomes eligible during a hospital stay, the Contractor is responsible for the hospital stay on the day of eligibility.

B. CHFS Policy and Standards reflect a set of principles for information, technology, applications, and organization, which shall be followed for any solution that will be hosted and maintained by the Contractor. CHFS OATS also has standards any solution that will be hosted and maintained by the Contractor shall also adhere. These documents are located here:

- CHFS Standards: <https://chfs.ky.gov/agencies/os/oats/Pages/itstandards.aspx>
- CHFS Policies: <https://chfs.ky.gov/agencies/os/oats/Pages/ITpolicies.aspx>

C. If the Contractor solution components hosted and maintained by Contractor deviate from the Policies and Standards referenced above, the Contractor shall outline the reasons and benefits to the Commonwealth for that deviation. Any exceptions to these Policies and Standards must follow the CHFS OATS Policy 070-203.

Contractor shall comply with privacy policies established by governmental agencies or by state or federal law. Such privacy policy statements may be developed and amended periodically by the Commonwealth.

Information Security Requirements

CHFS requires security assurance for functional, technical, and infrastructure components to ensure the systems meet all information security requirements throughout the project lifecycle. This includes physical, technical, and administrative controls.

Security assessment scenarios and strategies shall be approved by the CHFS Security Team prior to execution and all evidentiary artifacts shall be provided to CHFS and the CHFS Security Team as required.

A security assessment shall be performed at the Contractor's key applicable milestones throughout the project lifecycle with subsequent evidentiary artifacts provided to CHFS and the CHFS Security Team.

POAM remediation timelines (from the date of Weakness, Vulnerability, or Gap Identified):

- High Risk POAM Items 30 Days
- Moderate Risk POAM Items 6 Months

HIPAA Risk Assessment

OATS must establish an acceptable level of security controls to be implemented through a risk assessment procedure. Following the guidance on risk assessment requirements under HIPAA Security Rules, 45C.F.R.164.308(a)(1)(ii)(A), states that all Electronic Personal Health Information (ePHI) that is created, received, maintained, or transmitted by CHFS, is subject to the Security Rule. The Security Rule requires agencies to evaluate risks and vulnerabilities in their environments and to implement reasonable and

appropriate security measures to protect against reasonably anticipated threats or hazards to the security or integrity of ePHI. This rule serves as the foundational element in the process of achieving compliance and establishes several objectives that any methodology adopted must achieve. Risk assessments are conducted to identify risks in a particular system, assess the risk, and take steps to reduce the risk to an acceptable level.

Critical systems that store HIPAA, IRS, Social Security Administration (SSA), and/or ePHI data require risk assessments on an annual basis. A risk assessment will also be conducted at the onset of any new development as part of the SDLC and systems that have major system change/modifications. These ongoing risk assessments are the responsibility of an appointed designee (Data Owner) within each program area to ensure compliance with applicable security controls. This process helps CHFS implement security best practices for conducting, reviewing, documenting, and tracking internal inspections.

Upon completion of a risk assessment, the Contractor will document and follow a mitigation plan for the identified risks.

Disaster Recovery (DR) drill suggestions

CHFS Information Security representatives will be invited to all meetings and provided key information that pertains to the actual performance of the drill.

Test processing in the DR environment with a realistic number of users. Testing must mirror the workload as closely to what would be needed in a true outage.

Identify metrics for DR success. By having specific goals and measuring if those goals were met will give a clearer overall view of whether the drill was a success.

Contractor must conduct create a Business Continuity Plan (BCP) and a DR plan. These plans must be tested and updated annually.

Provide a DR After Action Report (AAR). The report should detail what was a success, what did not succeed, what can be improved, and a plan to address those items and improve the exercise.

Incident Response (IR) suggestions

Contractor must create an Incident Response Plan (IRP) and it must align with the CHFS OATS IRP. The Contractor IRP must be updated and tested at least once a year.

Contractor shall report any Incident to CHFS along with a description of the Incident, the severity of the Incident (determined by a set of criteria, see Exhibit 1), and supporting information outlining the processes the Contractor was following when the Incident occurred and/or was detected.

Any pertinent documentation showing results or evidence of the Incident (the foregoing information and documentation collectively referred to as an "Incident Report"). This incident report should be provided to CHFS as soon as possible after an incident is determined but no longer than one hour after determination. This notification window to CHFS is to be as timely as possible to adhere to federal and state data breach reporting requirements (see Exhibit 2). An Incident Report shall include at a minimum the following information:

- What was the incident
- Investigation results
- Impact of the incident
- Remediation

- Prevention
- Steps to reproduce the Incident (if known by Contractor)
- Screen shots related to the Incident (if any)
- Information relating to the Contractor process affected by the Incident including any logs

The more comprehensive the Contractor Incident Report is, the better CHFS will be able to properly assess the severity of the Incident.

Exhibit 1:

Level	Definition
Level 1: Emergency Severity Incident	Defined as Incidents that have an Enterprise wide impact or pose a high risk to business operations resulting in financial impacts or failure to meet commitments to Customer patients or address significant security vulnerability.
Level 2: Urgent Severity Incident	Defined as Incidents that have an Enterprise wide impact or pose a high risk to business operations resulting in financial impacts or failure to meet commitments to Customer or address significant security vulnerability.
Level 3: Standard Severity Incidents	Defined as medium risk. Customer's business operations may be interrupted or delayed, but all Customer commitments can be met.
Level 4: Low Severity Incident	Incident poses no risk. Customer's business operations will not be affected.

Exhibit 2:

Governing entity	Breach reporting timeframe
Social Security Administration	Within 1 hour
Internal Revenue Service	Within 24 hours
Commonwealth of Kentucky	Within 72 hours

OATS reserves the right to update these policies at any time throughout the Contract. Written communication of any changes will be made to the MCO detailing the effective date of such change. Any requests for exemption or changes to the outlined policies would follow the contract modification procedures.
