**Disenrollment for Cause Report** 

August 2015

## Summary

The Disenrollment for Cause process is regulated by 907 KAR 17:010, Section 2 and 42 CFR438.56. Disenrollment requests information is based on members written requests and investigations conducted by the nurses at The Disease and Case Management Branch, Division of Quality and Outcomes. Investigation techniques include: interviewing the members/families who submit the requests, communicating with the health care providers, communicating with MCO (Managed Care Organization) representatives, conducting online research, as well as consulting with other medical professionals in DMS.

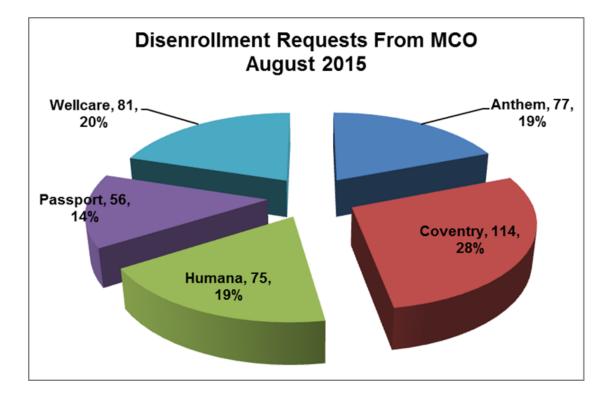

## **General Review Procedures**

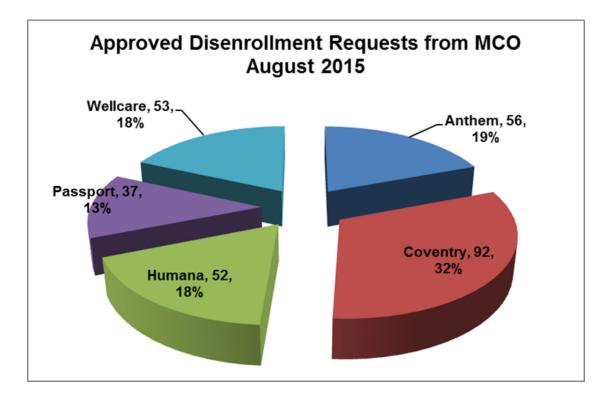

- > All cases with valid signatures were investigated by DMS medical professionals.
- DMS medical professionals issued an initial inquiry email for each case to the member's current MCO as soon as the cases were assigned to them.
- > MCOs were given appropriate timeframe to respond to DMS' inquiries.
- MCOs were given opportunities to resolve the problems before decisions for disenrollment requests were rendered.
- Physicians' offices were contacted to verify their participation in the MCO network(s).
- > Members were contacted by DMS medical professionals for further information.
- > All documentation was scanned and archived.
- All correspondence between DMS, providers, and members was documented and archived.
- > An approval/denial letter was mailed to the member when a decision was made.
- Members with complicated medical needs were referred to members' MCO for case management services.

## Statewide Data

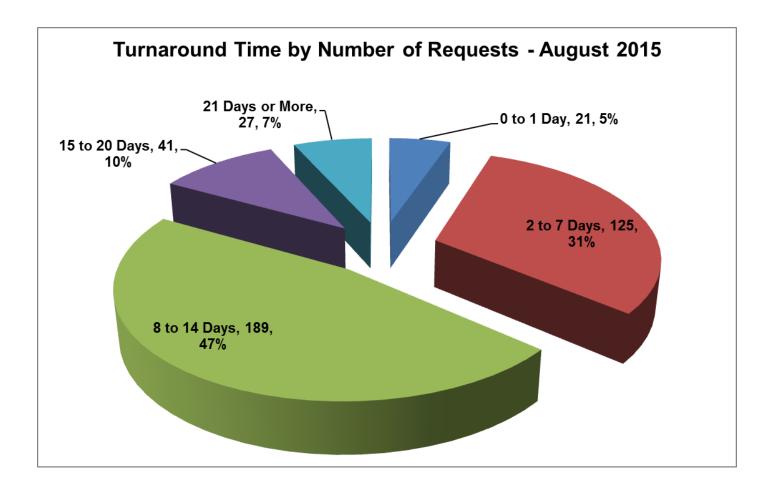

- Total Disenrollment for Cause requests received during the month of August 2015 was 403.
- > Of the 403 requests received, 72% (290) were approved, 113 were denied.
- Each MCO had less than 1% of their total membership submit a Disenrollment for Cause request during the month of August 2015.
- Highest percentage Anthem, approx. 0.1% of total membership requesting disenrollment.
- > The requests to disenroll from the member's current MCO were as follows:

|          | Number of<br>Requests From | Number of<br>Approval | Percentage of<br>Approval |
|----------|----------------------------|-----------------------|---------------------------|
| Anthem   | 77                         | 56                    | 72.73%                    |
| Coventry | 114                        | 92                    | 80.70%                    |
| Humana   | 75                         | 52                    | 69.33%                    |
| Passport | 56                         | 37                    | 66.07%                    |
| Wellcare | 81                         | 53                    | 65.43%                    |
| Total    | 403                        | 290                   | 71.96%                    |

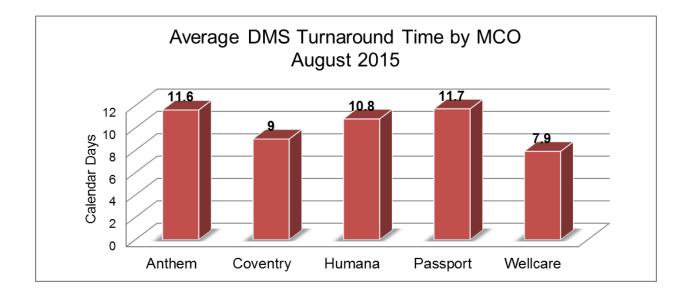

# Turnaround time

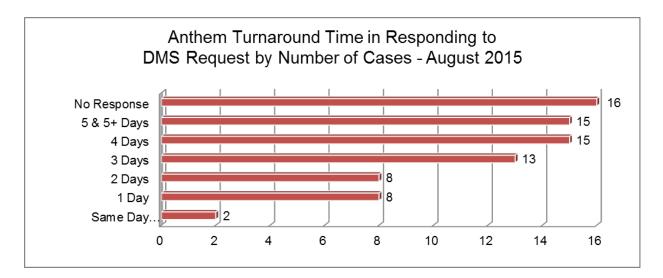

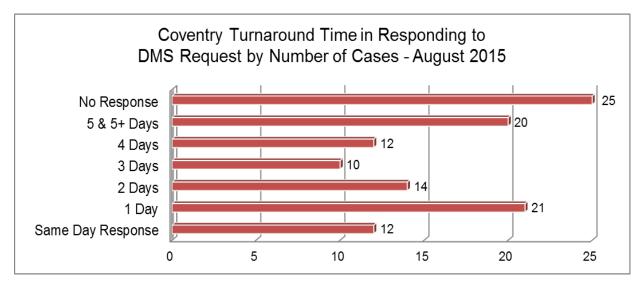

- About 31% of the disenrollment requests submitted in August 2015 were processed and disposed within 7 calendar days by DMS.
- Only 17% of the cases required more than 2 weeks to process, i.e., over 80% of the cases were closed in 2 weeks.
- > Possible factors that determine turnaround time
  - Dire need nature of the case.
  - Time required obtaining documentation from other State agencies, such as Department of Community Based Services (DCBS) and Guardianship at Department of Aging and Independent Living (DAIL).

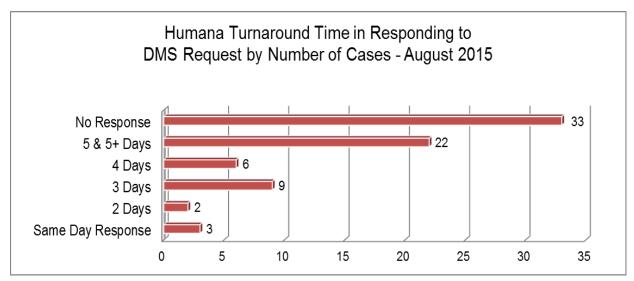

- The time it takes for the MCO to respond to State requests
- The time it takes for the members to submit additional document
- If the required responses from MCO are not received within the given timeframe, the decision of approval or denial will be rendered based on the information given to DMS at the time of decisions.
- Some cases that are automatically approved or denied due to predetermined and agreed factors, such as a regional big provider changing policy related to a certain MCO, require shorter turnaround time, as investigation is not necessary to approve or deny the cases.

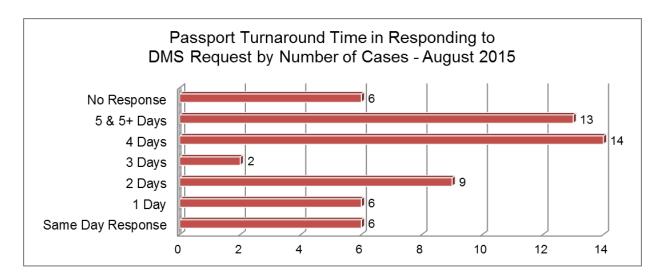

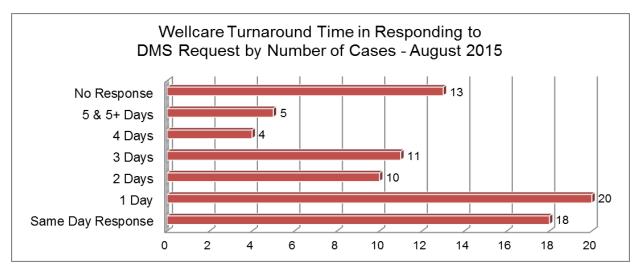

- Cases to disenroll from Wellcare have the shortest average turnaround time (around 8 days) in August 2015. Many factors determine turnaround times, such as how soon the MCO responds to DMS, the urgency of the cases, etc.
- > Turnaround time from each MCO in responding to DMS requests in August 2015:

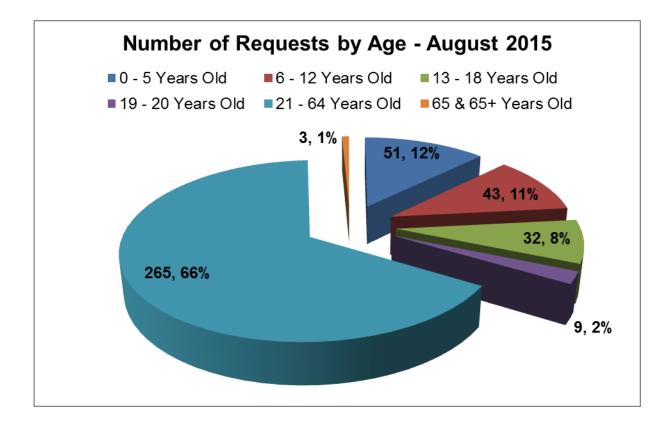

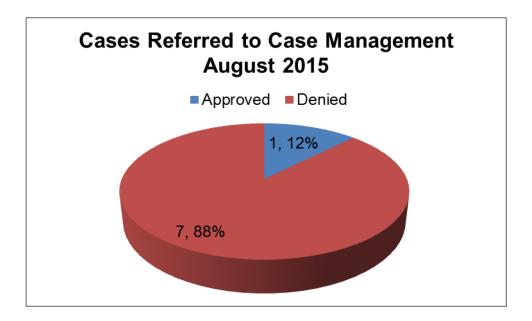

- > Typical timeframe given to MCO to respond to DMS request is 3 days.
- MCO Responding to DMS requests by the end of the same day or next business day is often required for dire need cases.
- Decisions for disenrollment requests might be rendered without MCO input if the requested responses are not received by DMS within the given timeframe.
- > A couple of reasons for no response from MCO:
  - Response from MCO is not required for cases approved or denied automatically due to pre-determined factors, such as DMS policies, system error, in-network providers' changes, etc.
  - MCO companies failed to respond to DMS requests.

## Age Distribution

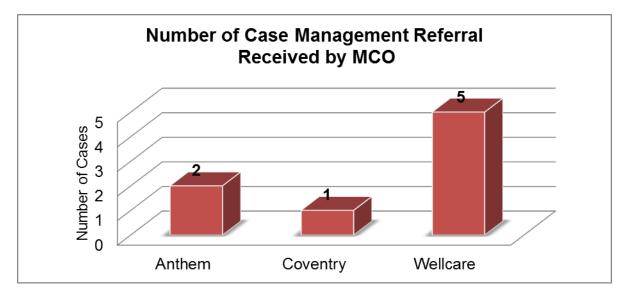

- Of 403 disenrollment requests submitted in August 2015, 126 cases are from population of age 18 or younger, slightly less than one third of the requests submitted in August 2015.
- One hundred thirty-five (135) members age 20 or younger who requested disenrollment in July 2015 are also eligible for EPSDT.
- Only three members requesting disenrollment in August 2015 are also receiving services from Medicare.

## **Case Mangement Referral**

- Eight (8) cases were referred to case management services. Only one of these disenrollment cases was approved, and the referral was sent to the member's new MCO. For the cases that were denied for disenrollment but needed case management assistance, members' current MCO were notified.
- Wellcare received highest number (5 cases) of case management referral in August 2015.

- Eleven (11) out of 13 cases related to denial of medication are associated with Suboxone.
- Twenty-five (25) cases are associated with the denied coverage of Suboxone film or other substance abuse medication, and/or the lack of access to substance abuse treatment provider.

- One of the main reasons of approval is that members were unable to take Zubsolv, a Wellcare preferred medication to substitute Suboxone.
- Another reason is that the providers that the members are familiar with do not accept Wellcare insurance.
- One of the main reasons of denial for Suboxone cases is that there is no evidence showing that the member has experienced adverse effect from Zubsolv, or that the member has tried Zubsolv – 5 denied cases.
- Kidz Club related cases 8 approved cases
