

The Kentucky Integrated Health Insurance Premium Payment (KI-HIPP) program helps eligible Medicaid members pay the cost of employer sponsored insurance (ESI).

## Benefits of the program include:

- Making family coverage more affordable by covering premium costs
- Widening healthcare networks by providing access to Medicaid and ESI providers
- Increasing participation in the commercial health insurance market, saving taxpayer dollars
- Allowing entire family to be on the same insurance plan

## Who is eligible for KI-HIPP?

Individuals or families may be eligible for KI-HIPP if they are:

- Medicaid eligible, or covering a Medicaid member on the health insurance plan
- Enrolled in (or have access to) insurance through current or past employment

## How does someone enroll in KI-HIPP?

In order to qualify for KI-HIPP, an individual must be a Medicaid member and have access to a group medical insurance plan. To enroll, follow this process:

## KI-HIPP Enrollment

As of June 18, 2019, the KI-HIPP team has processed 65 applications, approved 43 cases, and enrolled 77 members\* in the KI-HIPP program.

\*Number of enrolled members is higher than number of cases approved as many cases have enrollment at family or couple tier of coverage.
