Hospital Technical Advisory Committee  
Hospital Rate Improvement Program - 2022 Results**

**Angela W. Parker, RHIT, Director of Quality and Population Health  
February 27, 2024**

# Hospital Rate Improvement Program (HRIP)

- HRIP is a directed payment program that allows Kentucky Medicaid to make enhanced payments to providers through managed care organizations to advance the goals of the Medicaid program.
  - Based on the utilization and delivery of services.
  - Designed to advance at least one goal of Kentucky Medicaid's quality strategy with appropriate oversight to evaluate progress on the goals.
  - Evaluated at the end of each program year to measure progress on achieving outlined goals.
  - Submitted to CMS for approval annually.
  - Funded through a hospital assessment per KRS 205.6406.
- Directed payment programs are designed to achieve 2 main objectives:
  - Improve quality outcomes
  - Maintain access to services

# 2022 HRIP Program

- Kentucky's Department for Medicaid Services (DMS) works collaboratively with the Kentucky Hospital Association (KHA) to improve quality of care of hospital providers.
- In 2022 - 84% of the hospitals achieved at least 4 of the 5 hospital specific goals
- In 2022 - 50% of the hospitals achieved all 5 hospital specific goals

# CY 2022 Data Metrics

- CAUTI Standard Infection Ratio (SIR) \*
- CAUTI Low Volume (Catheter Utilization Ratio)\*\*
- C. diff Standard Infection Ratio (SIR)\*\*\*
- C. diff Low Volume (C. diff Rate)\*\*\*\*
- Hospital Readmissions (30 day All Cause)
- Sepsis (Screening at Triage and Bundle Compliance)

\*excludes psych, rehab, long term acute care hospital (LTACH), critical access hospital (CAH), low volume and low volume birthing hospitals

\*\*includes any hospital for which National Healthcare Safety Network (NHSN) is unable to calculate a SIR

\*\*\*excludes freestanding psych hospitals and low volume hospitals

\*\*\*\* excludes freestanding psych hospitals

## Psychiatric Specific Measures

Hours of Physical Restraint

Hours of Seclusion

Admission Screening

## Safe Use of Opioids – Concurrent e- Prescribing

Provider Education

## Rehab Specific Measure

Discharge to Community

## Social Determinants of Health Screening

2022 Quality Measure	KY Benchmark	Hospital Goal
CAUTI SIR (Catheter Assisted UTI)	0.74	10% Improvement from hospital baseline
Catheter Utilization Ratio	Established benchmark using CY 2022 data	Submit monthly data and attend small group activities and educational webinars
C diff SIR (Clostridium difficile; causes diarrhea and colitis (an inflammation of the colon).	0.62	10% Improvement from hospital baseline
C diff Rate	Established benchmark using CY 2022 data	Submit monthly data and attend small group activities and educational webinars
Sepsis Screening and Bundle Compliance		Submit monthly data for sepsis screening at triage and bundle compliance
Readmissions	10.10	5% Gap to Goal Improvement; 10% Gap to Goal Improvement from hospital baseline
Concurrent e-Prescribing	Establish KY benchmark using CY 2022 data	Submit monthly data
Provider Opioid Education	90%	Provide opioid prescribing education to all inpatient providers who prescribe opioids
SDOH Screening	Establish KY benchmark using CY 2023 data	Establish a plan to screen for all social determinants of health for Medicaid inpatients
Hours of Seclusion	Establish a KY Benchmark using CY 2022 data	Submit monthly data during CY 2022
Hours of Restraint	Establish a KY Benchmark using CY 2022 data	Submit monthly data during CY 2022
Admission Screening for Violence	Establish a KY Benchmark using CY 2022 data	Submit monthly data during CY 2022
Discharge to Community	Establish a KY Benchmark using CY 2022 data	Submit monthly data during CY 2022
