Current Efforts

- Ongoing member incentives (gift cards) for preventive care/well child exams
- Ongoing member and provider education through multiple avenues
- Birthday post-card reminders to members in advance of birthday
- Well child exam outreach calls to all EPSDT eligible members month prior to birth month; scheduling assistance provided if needed
- Member services representatives and CM staff act on care gap alerts; they educate caregiver/member on importance of preventive care and help schedule appointments/transportation if needed
- Care Connectors (APRN) can be dispatched to complete well child exams in the home when absolutely necessary
- Providers can refer members to CM for assistance with bringing a child back into compliance with well child exam schedule after a missed, scheduled appointment
- EPSDT Dashboard and HEDIS Dashboard allow for drill down on member/provider specific preventive care data
- QI Specialists work with provider offices around education and providing data on provider’s panel of members
- Pediatric VBP model include well child exams
EPSDT Population Covid-19 Vaccinations

Percent of Members Vaccinated within Age Range (years)

Note: Data as of 3/8/2022
