

Bluewater Dx Lab

**Your Trusted Partner
in COVID-19 Testing Services
for the 2021-22 School Year**

BLUEWATER Dx

WHY CHOOSE BLUEWATER Dx LAB?

Bluewater Dx Lab has provided over 400,000 COVID-19 tests to the Commonwealth since the start of the pandemic. Bluewater remains the sole COVID-19 testing partner for the University of Louisville students, staff, faculty and athletic programs. **We are committed to working with your administration toward the goal of continuing in-person learning for the entire 2021-22 school year.**

With a fleet of mobile testing units, top medical professionals, and experienced molecular scientists, Bluewater has proven to be a long-standing partner for the state of Kentucky. Bluewater is conveniently located in Mt. Washington, Kentucky, and is a high-complexity, full service, CLIA-certified laboratory.

WE OFFER TESTING OPTIONS BEST-SUITED FOR YOUR SCHOOL

RT-PCR testing (the gold standard) with the following collection options:

Oral rinse

85% sensitivity

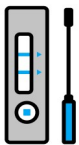

Nasopharyngeal swab

99% sensitivity

Oropharyngeal swab

99% sensitivity

Next-day results (or better!) across all collection methods.

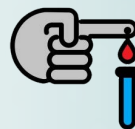

Rapid Antigen Testing

Nasal swab

85% sensitivity

Results in 10-15 minutes

Antibody Testing

Finger prick or blood draw determines whether you are immune to COVID-19

Bluewater offers testing via **drive-through, walk-up or classroom-based** collections. Our laboratory processes samples Monday-Saturday to accommodate your school's testing efforts during the week.

Bluewater will provide your COVID-19 response coordinator with access to our **client portal** where results will be available as they are released. Should you have questions, your **designated account manager** will be available to assist.

In the event an infection is detected, Bluewater can advise school administration per CDC guidelines surrounding quarantine and isolation practices. We will also provide access to qualified site staff knowledgeable about CDC infection control procedures, infection, and retesting timelines as currently understood by the medical community.

Bluewater welcomes your partnership in the year ahead!
