COVID-19 VACCINATION DECISION TREE
For individuals to remain Up-to Date

**Pfizer-BioNTech Vaccine**
- ≥12 years old: 0.3mL x 2 doses 3-8 weeks apart
- 5-11 years old: 0.2mL x 2 doses 21 days apart

**Modernart Vaccine**
- ≥18 years old: 0.5 mL X 2 doses 4-8 weeks apart

**mRNA vaccines are preferred for primary and booster doses**
- Janssen (J&J) Vaccine
- ≥18 years: 0.5 mL single dose

---

Moderate to severely Immunocompromised

**3rd Additional Dose**
- Moderna ≥18 year old
- Pfizer ≥ 5 years old
- ≥ 28 days after primary series completed.

  Same dose as primary series

*Pfizer-BioNtech Dose 0.3ml
- ≥ 5 months after primary series completed
- ≥ 12 years of age

*Providers may provide heterologous ("mix and match") booster doses to eligible individuals following completion of primary vaccination

**2nd Additional Dose**
- Moderna or Pfizer ≥18 year old
- ≥ 28 days after primary JJ vaccine.
- Moderna 0.5mL or
- Pfizer 0.3mL

*Moderna Dose 0.25ml
- ≥5 months after primary series completed
- ≥ 18 years of age

Janssen (JJ) Dose 0.5ml
- ≥2 months after primary series completed
- ≥ 18 years of age

---

CDC recommends that people remain up to date with their vaccines, which includes additional doses for individuals who are immunocompromised or booster doses at regular time points. Individuals who are moderately or severely immunocompromised should get an additional primary shot and a booster shot.

*Those individuals that received mRNA vaccines and are moderately or severely immunocompromised and ≥12 years old should receive a booster 3 months after completion of the primary series and may receive a total of four COVID-19 vaccine doses
