

Long-Term Care Facilities Update: April 27, 2020

We're working and planning every day to take care of the most vulnerable Kentuckians during this crisis. Individuals from across the Cabinet for Health and Family Services are working together to address the complexities of responding to COVID-19 in a manner that is in the best interests of residents and the capabilities of individual healthcare facilities and systems.

Long-term care facilities have been asked to prepare COVID-19 wings whereby patients may be moved, isolated and cared for in an appropriate manner. Other facilities are encouraged to take similar action to the best of their ability.

Medical personnel evaluate independent patients to determine the level of care needed. Some patients are being transported to hospitals, while other patients may be stable and able to be cared for in a specialized wing in the facility. Field hospitals will be used for overflow.

We will continue to be transparent as progress is made and guidance is issued.

Note: The presence of COVID-19 at a facility is in no way an indicator of a facility that is not following proper procedure.

The Cabinet for Health and Family Services has established a Long-Term Care Task Force to advise long-term care facilities on a range of issues, including testing strategies, infection control measures, Personal Protective Equipment (PPE) strategies, staffing, resident/staff cohorting based on COVID-19 status, financial needs, and resident transfers to acute care hospitals, when indicated. Facilities included on this list have responded to the state's plan and mechanism for communicating regularly with residents, family members, local health departments and other partners, disclosing when someone who has tested positive for COVID-19 has been inside the facility within 14 days prior to the date of the COVID-19 test.

Information is changing rapidly. The following reflects long-term care and other congregate facilities' data as of April 27, 2020.

Facilities Reporting at Least One Positive Case of COVID-19 in a Resident or Staff Member, alphabetized by county

Adair County

Summit Manor (Signature facility)

- 61 positive residents; 4 resident deaths; 16 positive staff; 1 staff death
