

AffinityEmpowering.com

### About the Company:

Operation Expanded Testing was designed and is funded by the Department of Health and Human Services to expand testing options and the availability of testing throughout the U.S. The program covers costs associated with testing supplies, and testing support with a target audience of K-12 schools both staff and students, underserved populations, congregate settings, correctional facilities both public and private, as well as detention centers. Affinity has been a leader in COVID-19 testing, partnering with schools, governments, and Fortune 100 companies to manage their testing needs.

## We take organizations from enrollment to testing within two weeks

Our teams work with each organization or school directly to figure out the best schedule and testing plan for them. We have expert trainers to train your staff or volunteers remotely. Each organization has a contact who is available for support surrounding each testing event and meets with them on a weekly basis to provide support. We use our own technology platform to track test results and give our clients secure access to those results.

### For additional information and to enroll in Operation ET, go to:

[safercommunities.affinitytesting.com](https://safercommunities.affinitytesting.com)
