

About Premier Medical Laboratory Services

Premier Medical Laboratory Services (PMLS) is an award-winning, highly complex laboratory fully certified by major accrediting organizations including Clinical Laboratory Improvement Amendments (CLIA) and COLA. As an industry leader in molecular diagnostics, our in-house team of PhD scientists, laboratory staff, and customer care team deliver accuracy and reliability that is unmatched. Since the onset of the COVID pandemic, we have processed over 2 million COVID-19 specimens by RT-PCR and are currently processing over 15,000 COVID-19 specimens daily. Throughout the pandemic PMLS has maintained 24-hour turnaround time for more than 98% of PCR test results regardless of testing volume. Our team processes specimens 24 hours/day, 7 days/week across 3 shifts, and provides consistent quality.
