## BACK-TO-SCHOOL TESTING & VACCINATIONS FOR K TO 12

### ABOUT WILD HEALTH:

Wild Health is a precision medicine company based in Lexington, Kentucky that believes in the transformative healing of patients. Our team of doctors, lab directors, and medical experts began COVID-19 testing early in the pandemic to contribute our resources and expertise to the Commonwealth of Kentucky's response. Since that time, we have serviced the University of Kentucky, University of Cincinnati, Eastern Kentucky University, Berea College, FCPS, Boone County, and JCPS.

### OUR EXPERIENCE:

We have experience setting up 400+ unique clinics (70 of which were in k-12 schools), providing 350,000+ COVID-19 tests, and administering 100,000+ COVID-19 vaccines all in the state of Kentucky.
