If the sub-awardee merely consumes or utilizes the goods, the commodities are not in and of themselves considered sub-awards.

Disclaimer for Conference/Meeting/Seminar Materials: Disclaimers for conferences/meetings, etc. and/or publications: If a conference/meeting/seminar is funded by a grant, cooperative agreement, sub-grant and/or a contract the grantee must include the following statement on conference materials, including promotional materials, agenda, and internet sites:

> Funding for this conference was made possible (in part) by the Centers for Disease Control and Prevention. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

Logo Use for Conference and Other Materials: Neither the Department of Health and Human Services (HHS) nor the CDC logo may be displayed if such display would cause confusion as to the funding source or give false appearance of Government endorsement. Use of the HHS name or logo is governed by U.S.C. Part 1320b-10, which prohibits misuse of the HHS name and emblem in written communication. A non-federal entity is unauthorized to use the HHS name or logo governed by U.S.C. Part 1320b-10. The appropriate use of the HHS logo is subject to review and approval of the HHS Office of the Assistant Secretary for Public Affairs (OASPA). Moreover, the HHS Office of the Inspector General has authority to impose civil monetary penalties for violations (42 CFR Part 1003).

Accordingly, neither the HHS nor the CDC logo can be used by the grantee without the express, written consent of CDC. The Project Officer or Grants Management Officer/Specialist detailed in the CDC Staff Contact section can assist with facilitating such a request. It is the responsibility of the grantee to request consent for use of the logo in sufficient detail to ensure a complete depiction and disclosure of all uses of the Government logos. In all cases for utilization of Government logos, the grantee must ensure written consent is received. Further, the HHS and CDC logo cannot be used by the grantee without a license agreement setting forth the terms and conditions of use.

Equipment and Products: To the greatest extent practical, all equipment and products purchased with CDC funds should be American-made. CDC defines equipment as tangible non-expendable personal property (including exempt property) charged directly to an award having a useful life of more than one year AND an acquisition cost of $5,000 or more per unit. However, consistent with grantee policy, a lower threshold may be established. Please provide the information to the Grants Management Officer to establish a lower equipment threshold to reflect your organization's policy.

The grantee may use its own property management standards and procedures, provided it observes provisions in applicable grant regulations found at 45 CFR Part 75.

Federal Information Security Management Act (FISMA): All information systems, electronic or hard copy, that contain federal data must be protected from unauthorized access. This standard also applies to information associated with CDC grants. Congress and the OMB have instituted laws, policies and directives that govern the creation and implementation of federal information security practices that pertain specifically to grants and contracts. The current regulations are pursuant to the Federal

Information Security Management Act (FISMA), Title III of the E-Government Act of 2002, PL 107-347.

FISMA applies to CDC grantees only when grantees collect, store, process, transmit or use information on behalf of HHS or any of its component organizations. In all other cases, FISMA is not applicable to recipients of grants, including cooperative agreements. Under FISMA, the grantee retains the original data and intellectual property, and is responsible for the security of these data, subject to all applicable laws protecting security, privacy, and research. If/When information collected by a grantee is provided to HHS, responsibility for the protection of the HHS copy of the information is transferred to HHS and it becomes the agency's responsibility to protect that information and any derivative copies as required by FISMA. For the full text of the requirements under Federal Information Security Management Act (FISMA), Title III of the E-Government Act of 2002 Pub. L. No. 107-347, please review the following website: https://www.gpo.gov/fdsys/pkg/PLAW-107publ347/pdf/PLAW-107publ347.pdf

Title: Behavioral Risk Factor Surveillance System (BRFSS)

Total Grantees Request: $389,929 Total Program Recommedation: $112,445

2017 Continuation Application Program Work Plan (Please use numbered bullets)
Annual Performance Report (APR) **Summary of Major Strengths**: • KY BRFSS oversampled the African American population in Kentucky. Kentucky has a great need to collect data through this surveillance since it is the sole source for information on prevalence of certain health risk behaviors and chronic diseases. • Kentucky also participated in asthma callback of children this year. • Continue soliciting input from the KyBRFS Data Users Group and continue the inclusive planning process. The group is chaired by the Commissioner of KDPH and she has ultimate authority to make final decisions. It is comprised of three groups - the Steering Committee, the Support Group and the Core Group. • After the annual state BRFSS data files have been created and released by CDC, KyBRFS staff generates a stratum- specific profile that has data tables analyzed by Kentucky strata of Area Development Districts (ADD). These profiles consist of KyBRFS data analyzed by the geographic strata ADD, information that is not available on the CDC interactive BRFSS website. These profiles contain data by stratum for all core variables that are published in the CDC website. These profiles are shared with all the Area Development District Executive Directors, Local Health Department Directors, all Division Directors in the Department for Public Health, KyBRFS data users, Kentucky Hospital Association (KHA), Kentucky Health Information Exchange (KHIE), listserv of stakeholders in asthma, arthritis, diabetes, heart disease & stroke, colon cancer programs, tobacco cessation and prevention program, and the obesity program. **Summary of Major Weaknesses** None Noted **Recommendations** (List a recommendation for each weakness): **Evaluation Comments (**Process / Outcome) • The evaluation is well written and provides detailed information on the program's process and outcome evaluation
