

The North Central District Health Department is accepting applications for Full-Time **Senior Epidemiologist.**

General Duties include: This position serves under the general direction of the Director. Responsibilities for this position include, but are not limited to;

- Conduct and supervise disease surveillance for the health department in collaboration with key community partners.
- Assist in the formulation of recommendations for interventions to reduce the occurrence and/or severity of disease of public health significance in the region/county.
- Conduct field investigations during periods of unusual occurrence of disease.
- Coordinate activities with other local and state agencies.
- Participate in various department communicable disease clinics such as SID and TB. Educate other staff and the public on the policies and procedures for effective disease surveillance and control.
- Assist with the development of operational drills and/or exercise scenarios.
- Design surveys and questionnaires to collect complex data on specific disease.
- Assist in the formulation of hypotheses to explain the differential occurrence of diseases in various population groups and locations in Kentucky. May supervise.

Minimum Education, Training or Experience: Masters Degree in Epidemiology, Public Health, Biostatistics or closely related field. Course work should include at least one course in epidemiology and a second course in a closely related subject area such as Biostatistics, Vital and Medical statistics, Informatics, Survey Sampling and Design, etc. Two (2) years of public health experience as Epidemiologist.

Special Requirements: Must be willing to be on-call twenty-four (24) hours a day, seven (7) days a week and have a Kentucky driver's license with reliable transportation.

Starting Salary: \$18.08 - \$23.00/hr. negotiable with additional experience. Grade 21
