

Kentucky Public Health
Prevent. Promote. Protect.

Monkeypox Vaccination Locations in Kentucky

Distribution of the monkeypox vaccine remains low to Kentucky due to the low number of cases of monkeypox in the state. The Kentucky Department for Public Health shares and appreciates the need and concern for expanded access. We are working to increase vaccination locations as quickly as supplies allow. If you are eligible for a monkeypox vaccine, please reach out to one of the locations below to discuss vaccination opportunities.

County	Vaccination Location	Address	How to Schedule Appointment	Website
