Very Important Info about the Log Tag

To Check Min/Max Temps:

- Press Review button
  - 1st press = max temp for the past 12 hours
  - 2nd press = min temp for the past 12 hours
  - 3rd press = max temp for the past 24 hours
  - 4th press = min temp for the past 24 hours

To go back to the current temp reading, press the Start/Stop button ONCE

- Do not hold down this button, if you see the words Stopping flashing on the screen, let go of the button
  - If you hold it down for too long and the word Stopped shows on the screen it will no longer record temps until it is downloaded.
