

Ingestible & Cosmetic Cannabinoid Labeling Guidance

ALL INGESTIBLE AND COSMETIC CANNABINOID-CONTAINING PRODUCT LABELS MUST INCLUDE:

- A statement of identity on the main label declaring what the product is. This should include the name of the hemp-derived cannabinoid.
 - Examples: “Delta-8 THC Gummies” or “CBD Seltzer Water”.
- Include the net quantity of the contents stating how much of the product the customer is buying.
 - Example: Net Wt. 1 lb (454g).
 - This information must be printed in the bottom 30% of the product label.
- An ingredients list that begins with “Ingredients:” and states every ingredient used in the product.
 - The ingredients list must be in descending order based on the weight of the ingredient.
 - Any ingredient that is composed of two or more sub ingredients must have the sub-ingredients broken out parenthetically behind the ingredient.
 - Example: Ingredient (sub ingredient 1, sub ingredient 2)
- A statement identifying the manufacturer’s business address, including the street address, city, state, and zip code.
- All SEVEN required warning labels or bear a QR code labeled as “Warning Statements” either directly above or below the code that links to the SEVEN required warnings. (Adult-use hemp-derived cannabinoid ingestible products)
- For ingestible and inhalable products, the container must label the total THC and the marketed cannabinoid in milligrams by serving and by container.
 - Serving sizes will need to be in whole units.
 - Example: 1 gummy
- All other hemp-derived cannabinoids must be labeled milligrams per gram (mg/g) per serving, excluding cosmetics, and milligrams per package, if listed on the label.
- The total THC and total CBD as percentages for concentrates.
- The total amount of cannabinoid per container and percentage must be displayed in milligrams per gram (mg/g) if by weight, or milligrams per milliliter (mg/ml) if by volume for all other hemp-derived cannabinoids, including cosmetics.

If the ingestible product contains any of the ingredients listed in the nine major allergens as defined by the FDA, the ingredient must be listed in the ingredients list on the package or in an allergen statement. The allergen statement must begin with “Contains:”

If any claims are made such as being organic, then these claims must be certified by either the U.S. Department of Agriculture or the Kentucky Department of Agriculture.

Product packaging must be free of and not include cartoon images, the likeness to images, characters, or phrases that are popularly used to advertise to children.

Packaging must not include likeness to or imitation of any commercially available candy, snack, baked good, or beverage packaging, the terms “candy” or “candies”.

Packaging must not include logos of a department, cabinet, or any seal, flag, crest, coat of arms, or other insignia that could reasonably mislead any person to believe that the product has been endorsed by any governmental agency.

If the product is an adult-use cannabinoid the product must have a tamper-evident seal and be in child-resistant packaging. If the product is a non-intoxicating cannabinoid product or cosmetic the product must have a tamper-evident seal.

Product must be free of all non-cannabinoid additive that increases toxicity or addictive potential such as alcohol, nicotine, or any other chemical that may increase carcinogenicity or cardiac effects.

Non-intoxicating cannabinoid products must have at least a 15 non-intoxicating cannabinoid to 1 adult-use cannabinoid ratio and contain 2.5 milligrams or less of adult-use cannabinoid per serving.

The total amount of hemp-derived cannabinoid per serving and the total amount per container shall accurately reflect testing results and shall not contain less than eighty (80) percent or more than 120% of the concentration of total cannabinoid content as listed on the product label.

Your firm must be registered on the Cannabis Retail Business Registry:
