MANDATORY REPORTING IN KENTUCKY

When Do We Step In?

By: Jennifer Pile RN, BSN, CEN, SANE-A, EMT-B
Kentucky has also been titled, according to the US Department for Health and Human Services, as #1 for child abuse and neglect.
YES, RIGHT HERE IN KENTUCKY.

If you think this is a “foreign” issue, think again.

The Department of Justice estimates that 300,000 American children are trafficked each year. Many of them right here in Kentucky.

If you have a suspicion, please trust your instincts. Because for minors under 18 exploited in commercial sex or forced labor, it’s not necessary to prove force, fraud or coercion. Anyone under 18 engaged in these activities is a victim of human trafficking.

• Kentucky law says there is a lack of consent if a person engages in a sexual act with another person by forcible compulsion or with a person who is incapable of consent because he or she is physically helpless, mentally defective or mentally incapacitated. “Mentally defective” means that a person suffers from a mental disease or defect that renders the person: incapable of understanding the nature and consequences of a sexual act; or unaware a sexual act is occurring. “Mentally incapacitated” means that a person is temporarily incapable of appreciating or controlling the person’s conduct as a result of the influence of a controlled or intoxicating substance: administered to the person without the person’s consent; or that renders the person unaware a sexual act is occurring. “Physically helpless” means that a person is: unconscious; physically unable to communicate a lack of consent; or rendered unaware that a sexual act is occurring.
