2018 ANNUAL ADMINISTRATIVE CLAIMS DATA REPORT – Emergency Department

INTRODUCTION

Thank you for your interest in the **2018 Annual Administrative Claims Data Report – Emergency Department**. This report covers the emergency department utilization by licensed Kentucky hospitals for the calendar year January 1, through December 31, 2018. The outpatient services records data submitted by hospitals as required by 900 KAR 7:030 – Data Reporting by Health Care Providers was used to produce the utilization information in this report. Emergency Department records are specifically identified by a service marker indicating an emergency department encounter.

Beginning with the 2017 Kentucky Annual Administrative Claims Data Reports, the Division of Analytics began using CCS diagnoses classifications for Section IV instead of individual diagnoses codes. The Clinical Classifications Software (CCS) for ICD-10-CM and PCS is based on the *International Classification of Diseases, 10th Revision (ICD-10)*, a uniform and standardized coding system. The ICD-10-CM/PCS's multitude of codes—over 69,800 diagnosis codes and 71,900 procedure codes—are collapsed into a smaller number of clinically meaningful categories that are sometimes more useful for presenting descriptive statistics than are individual ICD-10-CM/PCS codes. It can be a useful way to categorize conditions when exploring data and can serve as a tool for reporting statistical information on hospitalizations.

The report is divided into 5 sections:

- ◆ **Section I – Maps of Emergency Departments**
- ◆ **Section II – Trending Charts: 2014 - 2018**
- ◆ **Section III – Emergency Department Encounters by Facility and Payor**
- ◆ **Section IV – Emergency Department Leading Twenty-five CCS Diagnoses**
- ◆ **Section V – Emergency Department Summary of Categories by Quarter and Hospital ADD**

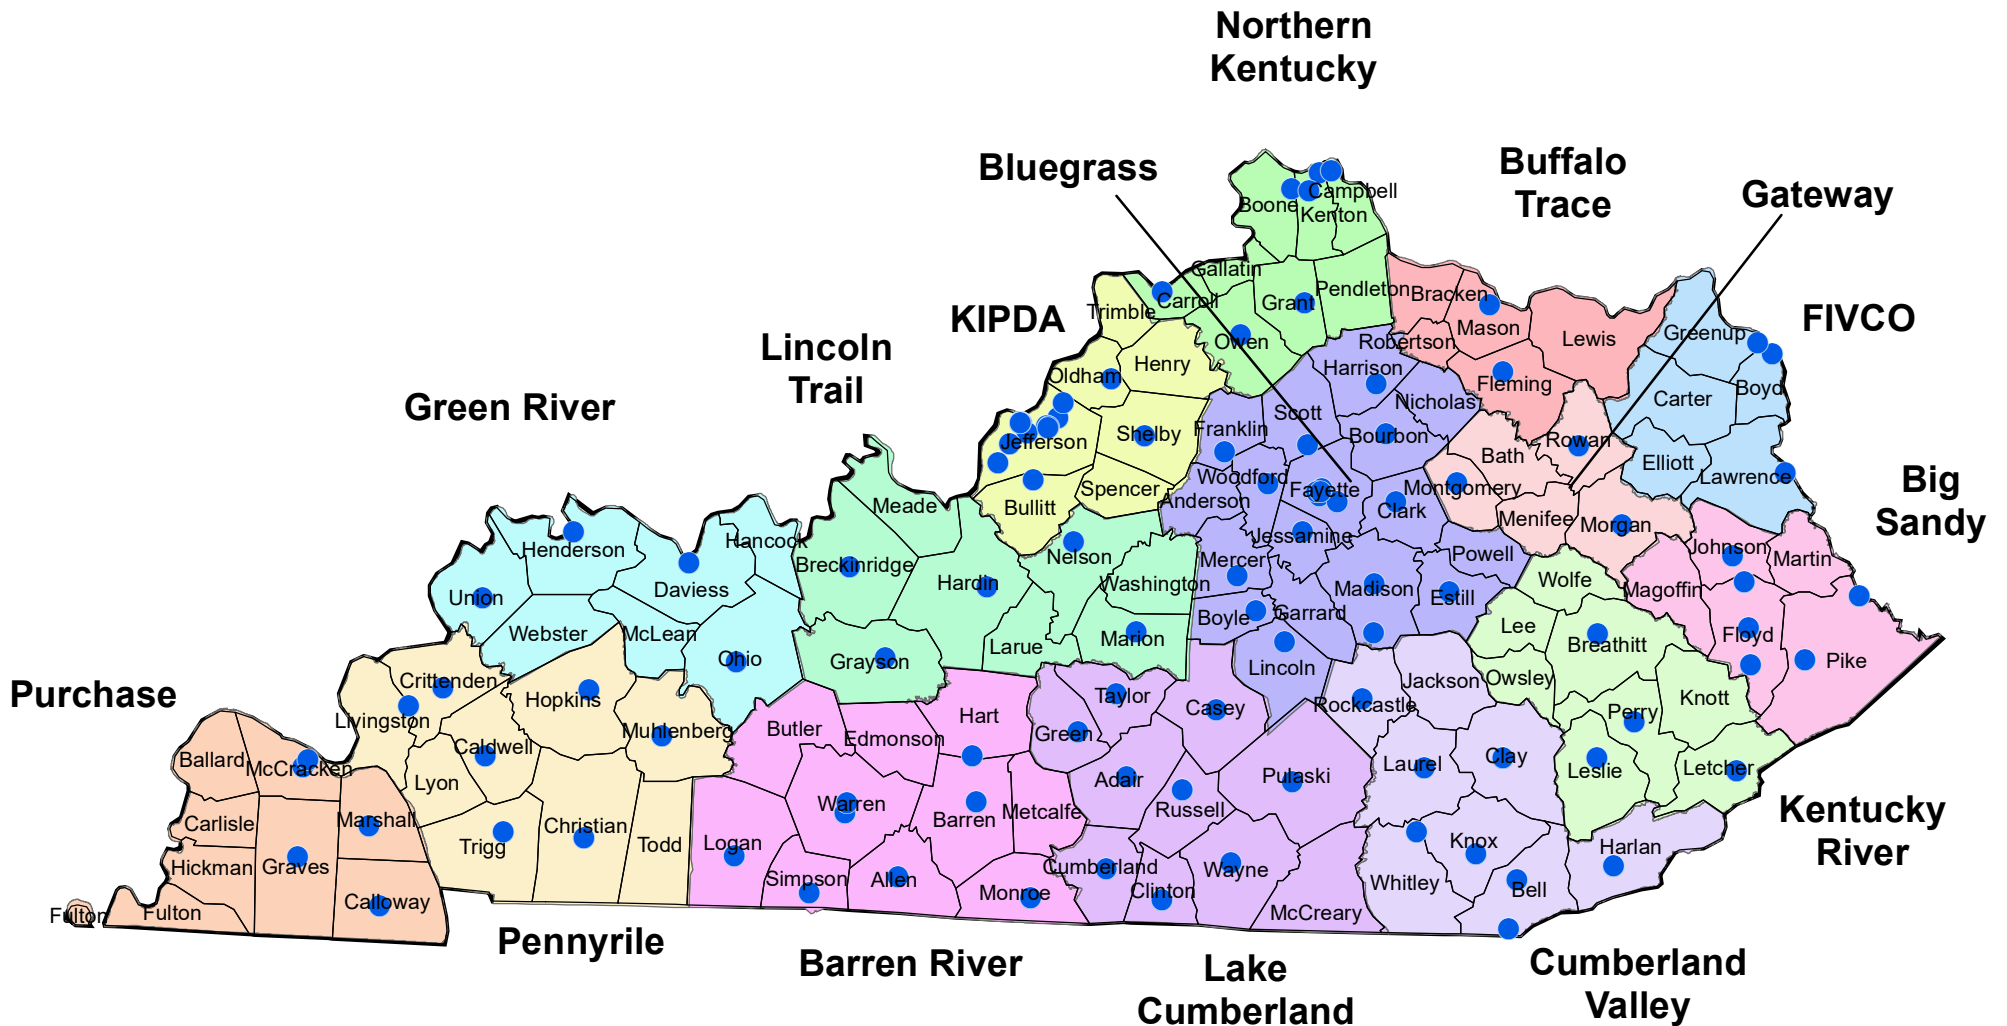

Questions or comments regarding the data contained in this report should be directed to Allison Lile at (502) 564-7940, ext. 3155, or e-mail: Allison.Lile@ky.gov.

This report becomes the most recent official data on Emergency Department Encounters published by the Cabinet for Health Services.
