

## KY COVID-19 Daily Summary 12/14/2020

|                             |         |
|-----------------------------|---------|
| <b>Total Cases*</b>         | 224,890 |
| Confirmed                   | 184,072 |
| Probable                    | 40,818  |
| <b>Total Deaths*</b>        | 2,224   |
| Confirmed                   | 2,098   |
| Probable                    | 126     |
| <b>Duplicates Removed**</b> | 16      |

|                               |       |
|-------------------------------|-------|
| <b>Total New Cases Today</b>  | 1,802 |
| <b>Total New Deaths Today</b> | 17    |

\*Total cases and deaths include both confirmed and probable.

\*\*This number reflects duplicate cases and patients that did not meet case definition for confirmed cases.

| COVID19 Outcomes                      |        |         |
|---------------------------------------|--------|---------|
|                                       | Number | Percent |
| Number of patients Ever Hospitalized  | 11,463 | 5.1%    |
| Number of patients Ever in the ICU    | 2,711  | 1.2%    |
| Number of patients who have Recovered | 32,050 | 14.3%   |

| Current Hospitalized Patients |            |
|-------------------------------|------------|
|                               | # Occupied |
| Inpatient beds                | 8,420      |
| ICU beds                      | 1,228      |
| Ventilators                   | 644        |

| Current COVID-19 Patients |       |
|---------------------------|-------|
|                           | Total |
| Hospitalized              | 1,712 |
| ICU                       | 441   |
| On Ventilators            | 243   |

|                               |                                    |                                   |                              |
|-------------------------------|------------------------------------|-----------------------------------|------------------------------|
| 2,915,475                     | 98,385                             | 131,644                           | 3,145,504                    |
| <b>Total <u>PCR</u> Tests</b> | <b>Total <u>Serology</u> Tests</b> | <b>Total <u>Antigen</u> Tests</b> | <b>Total Number of Tests</b> |

**COVID-19 Testing Positivity Rate: 8.58%\***

\*Based on a 7-day rolling average. Timing of reporting overall lab results versus positives, repeat testing of individuals, duplicate entries and lack of reporting by some labs, make the data imprecise and more appropriate or useful for trending.

The data collected by the Kentucky Department for Public Health (KDPH) on case patients comes from a number of sources, including electronic laboratory reports, provider case disease and COVID-19 investigation reports, local health department investigation results, hospital infection prevention clinical patient data, and KDPH investigation results. Data is often found incomplete and/or incorrect and during KDPH investigation individual patient-level data is added to, corrected, and de-duplicated so that overall case counts and aggregate data values change daily.
