What is childcare management software?
Childcare Management Software (CCMS) is an online platform that helps child care providers make running their program easier. It puts all the tools you need in one spot, so you can manage your business better and spend less time on paperwork. In Kentucky, the Division of Child Care is giving away brightwheel for free to all licensed and registered programs in the state!

Why should you use brightwheel for your program?
Brightwheel offers lots of helpful tools:
- It makes enrolling kids and managing your waitlist easy.
- You can keep track of attendance each day and report it easily.
- Sending invoices and getting payments is a breeze with electronic options.
- You can keep an eye on classroom ratios and make sure they're just right.
- Managing your staff's records, certifications, and pay is simple.
- Communicating with families is easy and consistent.

How can I get brightwheel?
All licensed and registered programs can get brightwheel for FREE. Click here to sign up for a demo with one of our team members. They'll show you how it works and answer any questions you have!
