

# CABINET FOR HEALTH AND FAMILY SERVICES FATALITY/NEAR FATALITY REPORTING TABLE

---

## State Fiscal Year 2018

In accordance with the requirements of Section 106(b)(2)(B)(x), the state child welfare agency is required to publically disclose details related to fatalities or near fatalities caused by abuse or neglect.\*

In September 2012, the Children's Bureau (CB) issued revised policy establishing minimum requirements for disclosure regarding child fatalities and near fatalities that are a result of child abuse or neglect. (See Child Welfare Policy Manual Section 2.1A.4 [http://www.acf.hhs.gov/cwpm/programs/cb/laws\\_policies/laws/cwpm/policy\\_dsp.jsp?citID=68](http://www.acf.hhs.gov/cwpm/programs/cb/laws_policies/laws/cwpm/policy_dsp.jsp?citID=68)).

States are now required to provide the following minimum information:

- The cause and circumstances regarding the child fatality or near fatality
- The age and gender of the child
- Information describing any previous reports of child abuse or neglect that are pertinent to the abuse or neglect that led to the child fatality or near fatality
- Information describing any previous investigations pertinent to the abuse or neglect that led to the child fatality or near fatality
- The results of any such investigations
- The services provided by the State and actions of the State on behalf of the child that are pertinent to the child abuse or neglect that led to the child fatality or near fatality

States are not required to identify the children, family, or household member associated with the fatality or near fatality.

\*This table is submitted annually with the APSR and posted on the Division of Protection and Permanency public web page (<http://chfs.ky.gov/dcb/dpp/childandfamilyervicesplanning.htm>). The cases are reported on the state fiscal year (SFY) as they are resolved. Cases received after the child has died are coded as "F XX-XX". Cases that are received as a near fatality are coded as "NF XX-XX".

Number	Report Date(s)	Type of Allegation(s)	Investigative Outcome(s)	Case Disposition(s)	Services Provided
<b>F 1-18</b> A 6-month-old Caucasian female was found unresponsive in her crib. She later died. The autopsy revealed subdural bleeding and rib fractures. A non-relative babysitter was caring for her at the time of the incident.	07/07/2017	Physical-assault/injury	Substantiated	Closed	<ul style="list-style-type: none"> <li>Resources for grief counseling</li> </ul>
<b>F 2-18</b> A 2-year-old biracial female was found deceased in a neighbor's pool. She had drowned. The natural mother was responsible for her care at the time of the incident.	07/15/2017	Supervision	Unsubstantiated	Closed	<ul style="list-style-type: none"> <li>Prevention plan regarding household safety and supervision</li> <li>Mental health counseling</li> </ul>

<b>NF 85-18</b> A 1-year-old Caucasian female presented to the emergency room with signs of a drug overdose. The child tested positive for methamphetamine and	06/07/2018	Environment	Unsubstantiated	Closed	<ul style="list-style-type: none"> <li>• Aftercare plan regarding environmental safety, supervision, and contact with the mother's friend</li> </ul>

<p>tetrahydrocannabinol. The mother had a friend in the home that later admitted to having drugs in her purse that the child could have possibly got into. The mother had no knowledge of her friend's drug usage and the father was working out of town.</p>					
<p><b>NF 86-18</b> A 13-year-old Caucasian male was previously diagnosed with neurofibromatosis and presented to the hospital appearing malnourished. His symptoms included difficulty swallowing, vomiting, and severe headaches. The medical examination revealed a large tumor growing on his brain stem, which had not been previously discovered due to lack of compliance with medical appointments and imaging. The natural mother was responsible for the child's care at the time of the incident.</p>	06/14/2018	<p>Medical neglect</p> <p>Basic neglect</p> <p>Risk of harm neglect</p>	<p>Substantiated, death/near death</p> <p>Substantiated</p> <p>Substantiated</p>	Opened	<ul style="list-style-type: none"> <li>• Foster care placement</li> <li>• Mental health assessment and treatment</li> </ul>
