  - b. CHW Discussion
    - i. Pharmacists do have provider status in Kentucky
      1. Under 304.17A pharmacists are considered health care providers as defined under KRS 315.010. I would argue that under 315.010 CHW services are within our scope of practice and therefore we are considered healthcare providers under the insurance code.
      2. Does DMS see changes being made for CHW to be supervised and orders originating from pharmacists? If not, what does Medicaid see as a statute change needed for pharmacists to order CHW patient interventions
  - c. HPV Vaccine update (Protocol is being worked on)
  - d. Vaccine Counseling Billing standardization (any issues – Ben Mudd)
