

Therapy TAC Agenda
Friday May 12, 2023
8:30 est meeting VIA ZOOM

Review and approval of March 14, 2023 Minutes

Old Business:

1. Follow up from the Department of Medicaid Services. What are the Department's study findings on increasing the PT OT ST Fee schedule.
2. Follow up on KYMC requiring Physician signatures on POC before approving PAs.
3. Credentialing concerns. Streamline credentialing process with MCOs. Has the MCOs that were going to use Verisys finalized that set up.
4. Anthem not paying for CPT 96112 Developmental Testing. Has this been resolved?
5. Follow up on Traditional Medicaid requiring Physician signatures on Plan Of Care. What is Medicaid's interpretation of "In collaboration with".
6. Follow up with the Department permitting Humana MCO EviCore to create their own medical necessity criteria. Did not notifying providers.

New Business:

1. A Kentucky provider brought up a concern regarding a patient who is insured with an MCO and is being evaluated for disability. The MCO retro back to the date the disability evaluation began and determined that patient should have traditional Medicaid during the evaluation period. The TAC would like to propose that Traditional Medicaid accept the PA that was given to the provider by the MCO. The reason for this is the MCO has different PA criteria for authorizations than Traditional Medicaid FFS.
2. A Kentucky provider reports that UHC Medicaid has removed CPT 97533 (Sensory Integrative Techniques) as a covered code. Will a representative from UHC address this.

Other Issues: From TAC members or public.

Recommendations to MAC
